ASSEMBLY

- 1** Insert left & right side panel (Part 1&2) into the back panel (Part 3) slot, fix them with self-tapping screw (Part A).

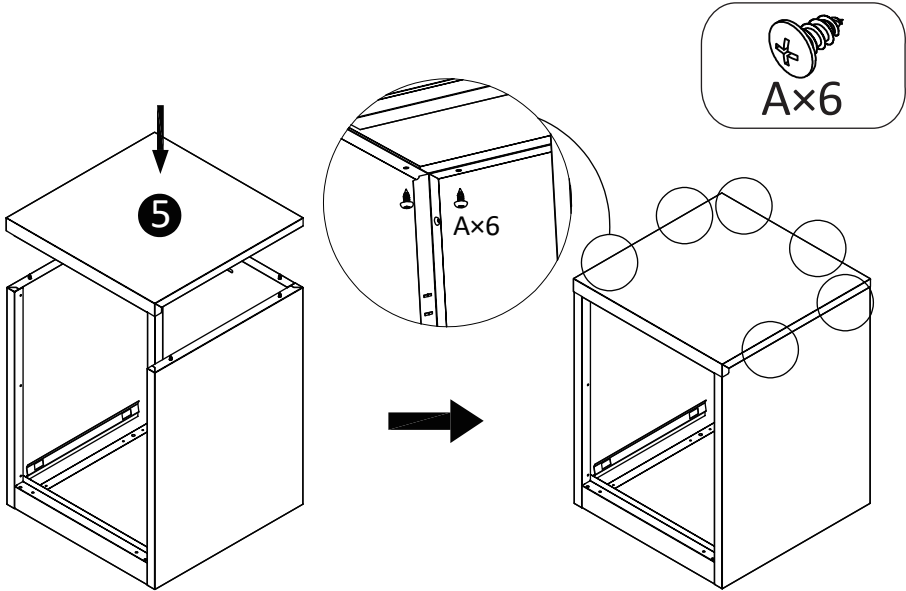

- 2** Insert the bottom frame (Part 4) into side panel from inside to out, then fix it with self-tapping screw (Part A).

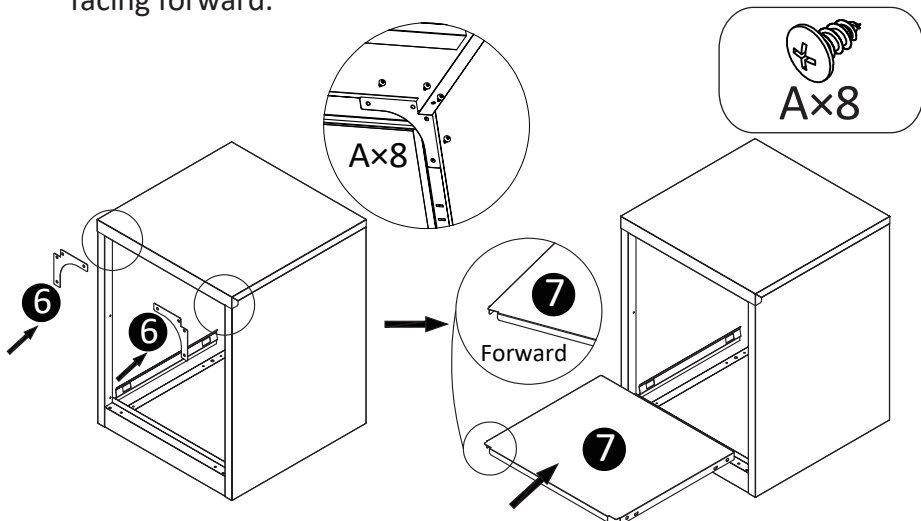

ASSEMBLY

- 3** Place the top panel, then fix it and side & back panel with self-tapping screw together.

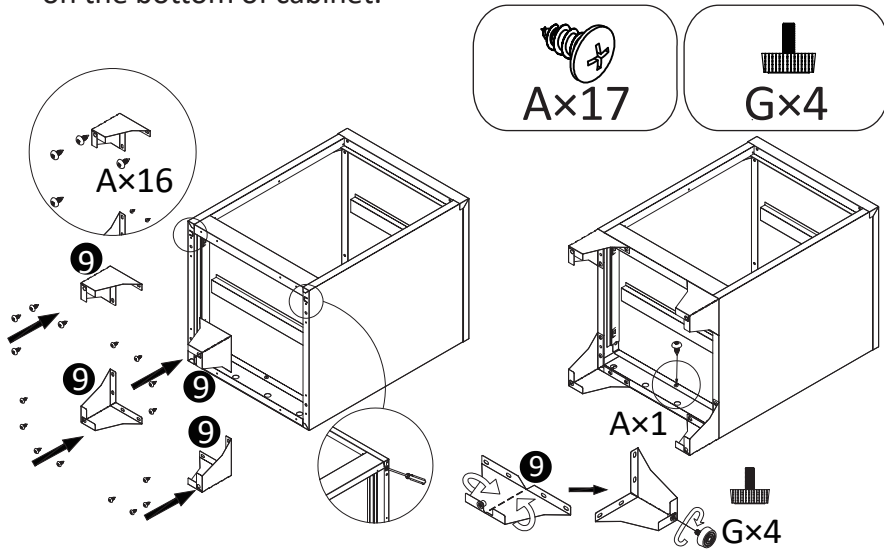

- 4** Install the connector Part 6, fix it and side & top panel with screw (Part A).
Snap the buckle on either side of bottom panel into the both side panel. When placing the bottom panel, place the notched side facing forward.

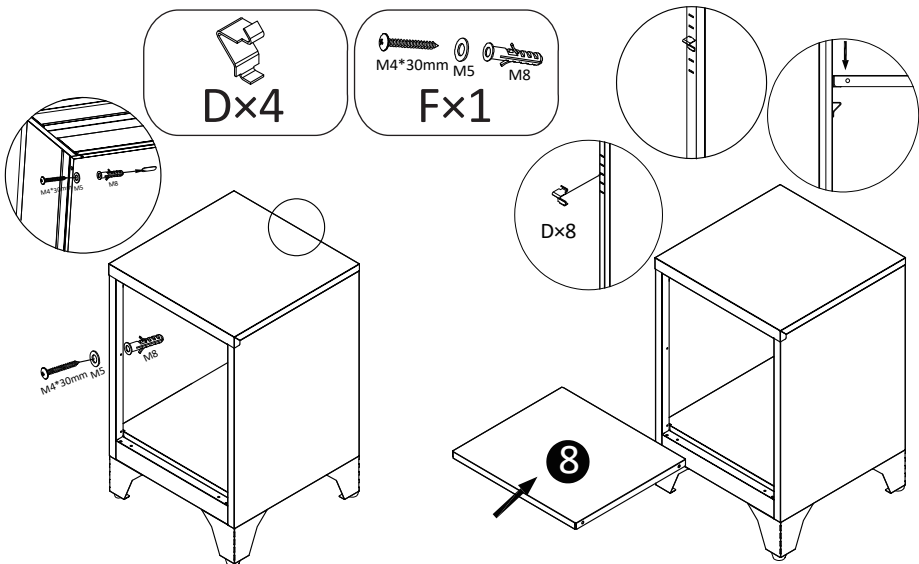

ASSEMBLY

- 5** Bend the fixing plate at the bottom of side panel and clamp bottom panel.
Folded the stand feet and install the adjustable screw, then fix it on the bottom of cabinet.

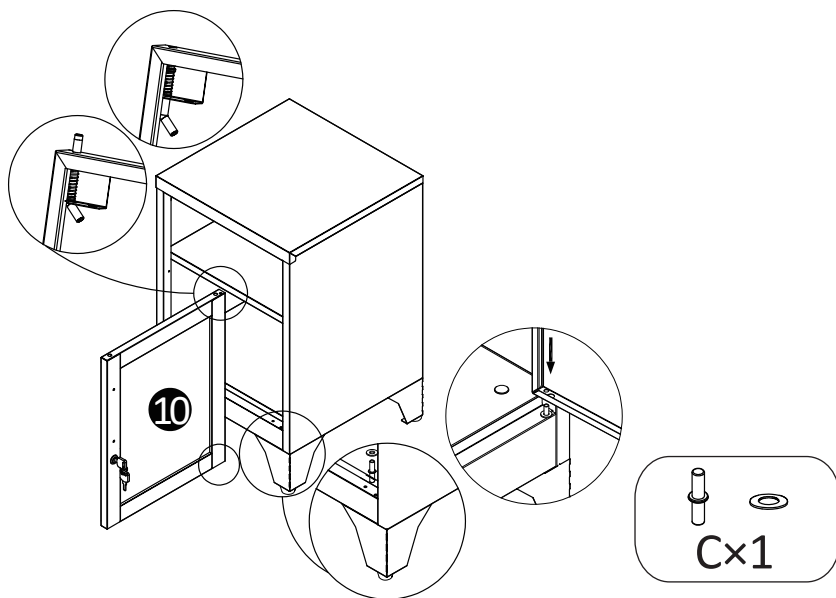

- 6** Place the clapboard buckle in right site and place the shelf (Part8).
The cabinet can be fixed on the wall as you need.

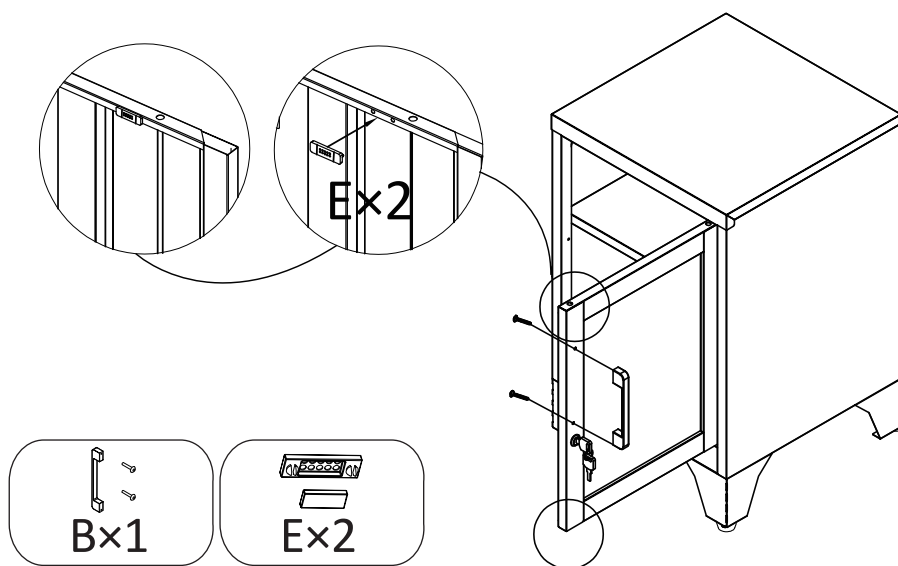

ASSEMBLY

- 7** Install the door on one side by first installing the door shaft & pad (Part C),then by pressing the spring screw on the top of door.

- 8** Install the handle (Part B) and magnetic pad (Part E).

ASSEMBLY

9 Assembly completed.
