Brand: Hooker Furniture

Product Description: As functional as it is charming, the Brasserie Friendship Table, which can be adjusted from 30-inch dining height to 36-inch counter height, will become your favorite multi-purpose table. Use it as a work surface, for crafts, for gathering and dining. The light and airy finish is Antique Milk Paint, a light brown with nearly opaque milk-colored paint with a brushstroke effect, accented with hang up and distressing. Accommodates 4 guests without leaves and 6 guests with leaves.

Collection Features: Inspired by the Belgian design aesthetic, Boheme expresses the elegance of simplicity and the essence of comfort. Lyrical and intentional, Boheme offers a subtle array of three antique gray-white finishes, speaking to Belgium's penchant for all things gray. A neutral palette of gray, blue, white and soft brown blends lyrically with an array of textures and shapes to create Boheme. The poetic beauty of each piece is unveiled in Boheme through texture, color, piece character and artistic shapes.

Status: Active

Finish: Antique Milk Paint finish: Light brown finish with nearly opaque antique milk paint with brush painted effect with white hang up and heavy distressing
Distressing includes rasping, chopping and gouging

Floor to bottom of top: 28H to 34H
Distance between pedestals: 38
Height can be adjusted to 30H or 36H
Levelers
Material: White Oak Veneers and Resin

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.

Important Use Information: We recommend using coasters, placements and trivets when using hot containers with this item. It is also recommended to provide quick cleanup for any spills to minimize exposure to moisture. Doing so will prolong the life and look of the item and provide many years of the quality you expect.
