### Step 1:

With 1 or 2 people, gently pull the outer frame legs until the frames is 3/4 open.

### Step 2:

Unfold the canopy top, making sure to locate the 4 corners of the top. Grab the corners and pull over the frame.

### Step 3:

Take the canopy top corners and secure the top to the outside corner of the canopy frame.

### Step 4:

Pull the remaining corners into position, making sure that the peak of the top is centered on the peak pole of the frame.

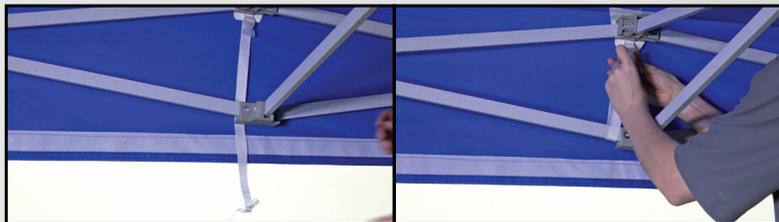

### Step 5:

Lock each of the corner sliders into place by holding the top of the frame leg with one hand and pushing the slider upward until the thumb lock clicks into place.

### Step 6:

Once the slider clicks into place, pull the valance fabric down.

### Step 7:

On the inside of the canopy top. Secure the top with the provided clips.

### Step 8:

Adjust the frame legs to your desired height by raising each leg and slowly sliding the inner leg into place until the thumb-lock clicks. Repeat with remaining legs.

### Step 9:

Secure your canopy with the spikes and ropes provided or with Impact rubber weights or weight bags.

Now enjoy your Canopy!
