Unpacking & Arranging Your Brand New Artificial Christmas Tree

Congratulations on purchasing your brand new Artificial Christmas Tree
Keep this instructional pamphlet as a how to guide on setting up and fluffing your holiday star.

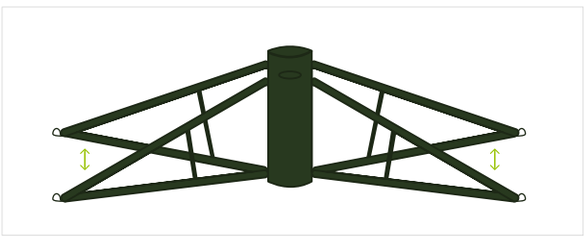
To Start

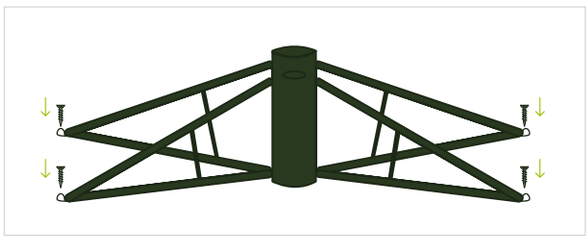
- Ensure that all parts have been delivered
- Save the delivery box for storing and keeping your new artificial Christmas tree safe.

	Top	Middle	Base	Base	Power Source For Pre-lit Trees ONLY
Trees with 3 sections	A	B	C	 D	E
Trees with 2 sections	A		C	 D	 E

Assembling Instructions

1 Assemble the stand **(D)** on a flat surface; unfold all the legs and insert the screws into each of the openings to keep your tree safely stabalized.



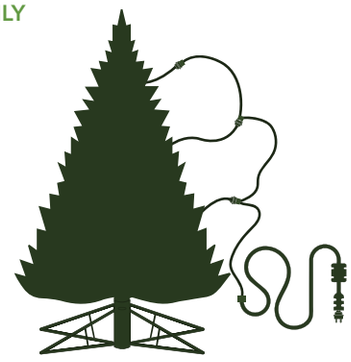


2 Start by inserting the base of the tree **(C)** into the stabilized stand **(D)**; proceed by inserting sections **(B)** and **(A)** respectively.

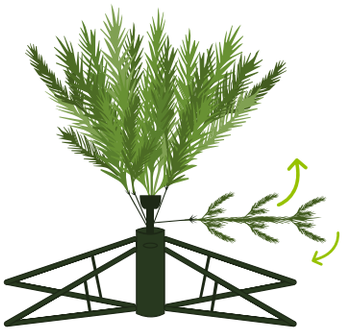
Trees will be built according to two variations

3 Connect the light plugs into each other.

For Pre-lit Trees ONLY



4 Starting at the bottom, bend and unfold branches, one-by-one.



5 Make final trimmings by turning tree and ensuring all branches look lifelike.

6 Connect the plug **(E)** into a power outlet to complete the look and begin decorating!

For Pre-lit Trees ONLY

Disassembling Your Tree

- Carefully take out all the decorations throughout your holiday tree;Save the delivery box for storing and keeping your new artificial Christmas tree safe.
- Dismantle the tree by starting at the top **(A)** and working down **(B)** through **(C)** until you reach **(D)**;
- For longer preservation, use your original shipping box to store in a cool, dry place.

For indoor use only

Keep away from high temperatures, fires, and open flames

To be assembled by an adult or under parental supervision
