

User Manual

(Please read this user manual thoroughly before installation!)

1 / PRODUCT LIST

Tips: Take out all the tube accessories and set them neatly as shown in the figure below.

Net x1

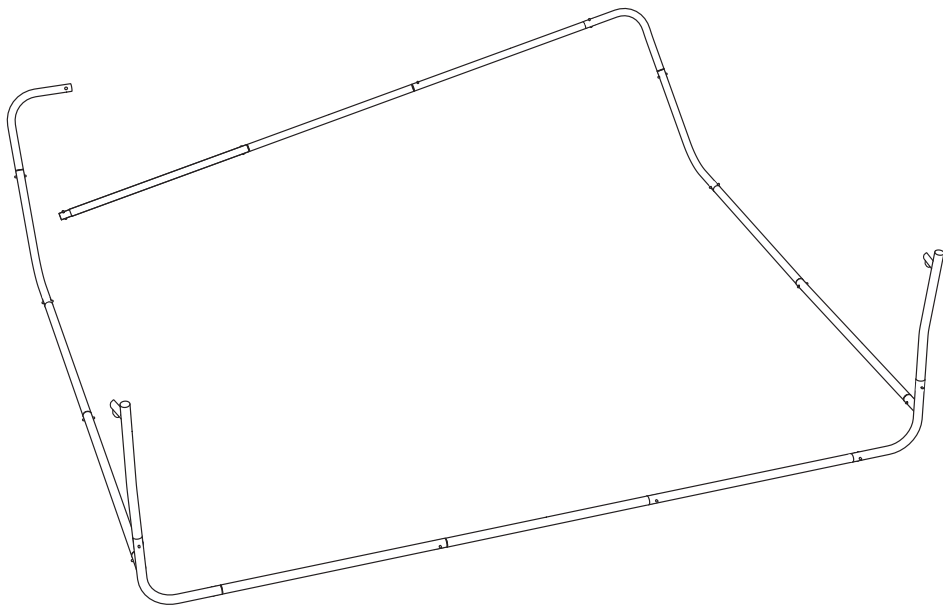

Net Target x1

Ground Stake x4

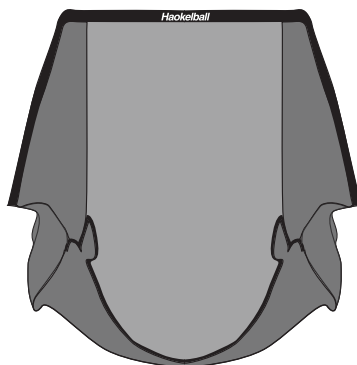

1 / ASSEMBLY

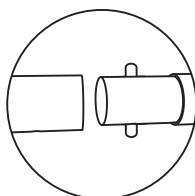

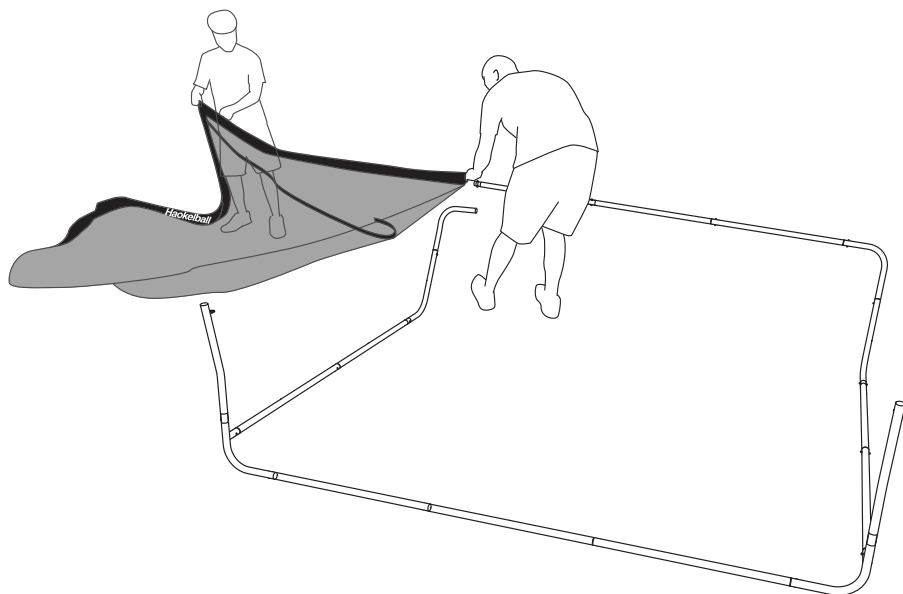

Step 1: Join the iron tubes together in sequence, leaving an opening as shown.

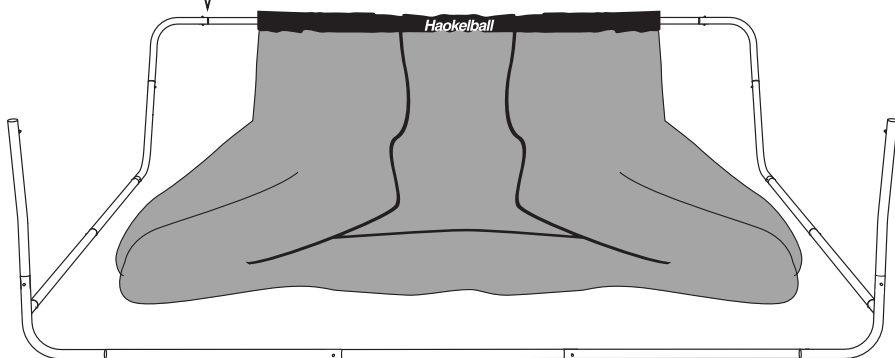

Step 2:

Lay out the net with the logo facing up. Put one side of the net sleeve onto the frame tube via the opening, sliding it till the whole sleeve fits in.

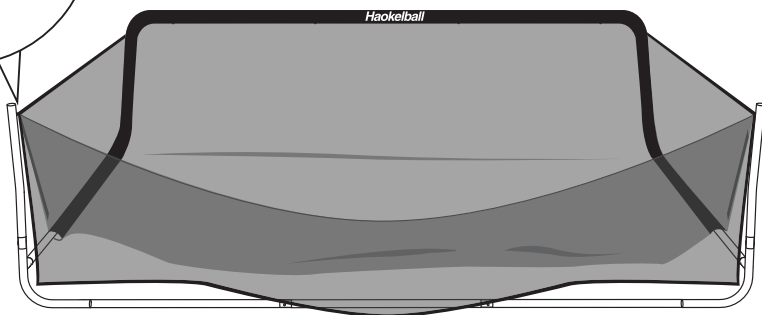

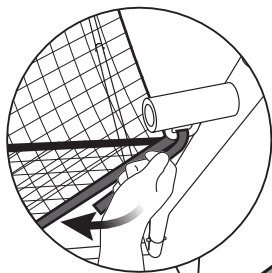

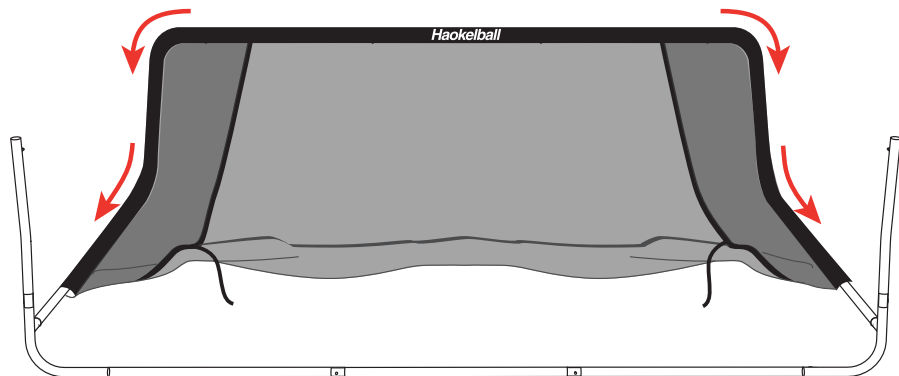

Join the two tubes together
to close the frame gap.

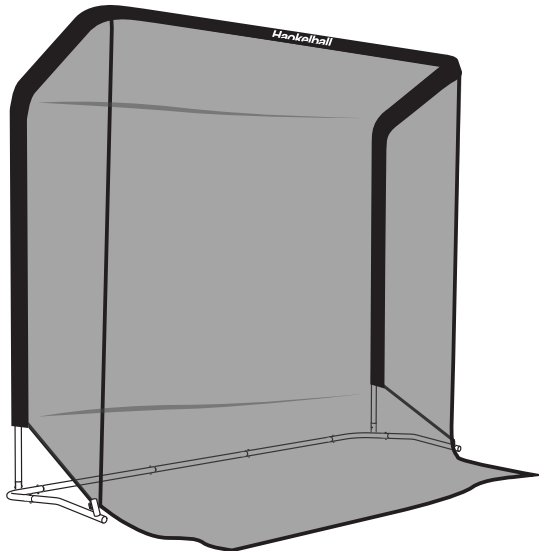

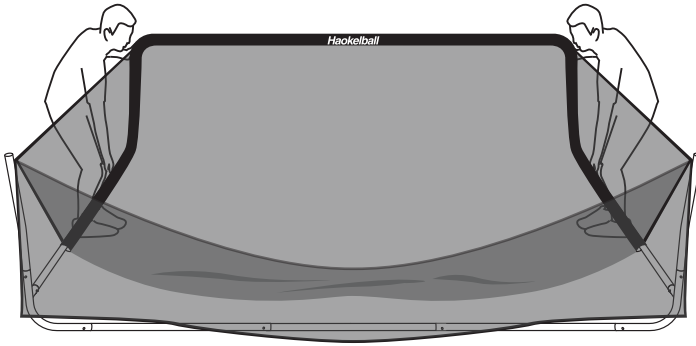

Step 3:

Slide the two sides of the net sleeve down to the bottom of the framework simultaneously, and then pull the net Velcros through the rings of the frame bottom and secure them on both sides.

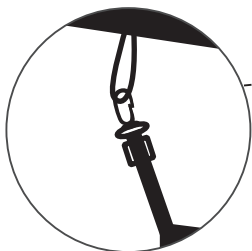

Step 4:

Stand up the framework slowly and gently with each person on the left and right side.

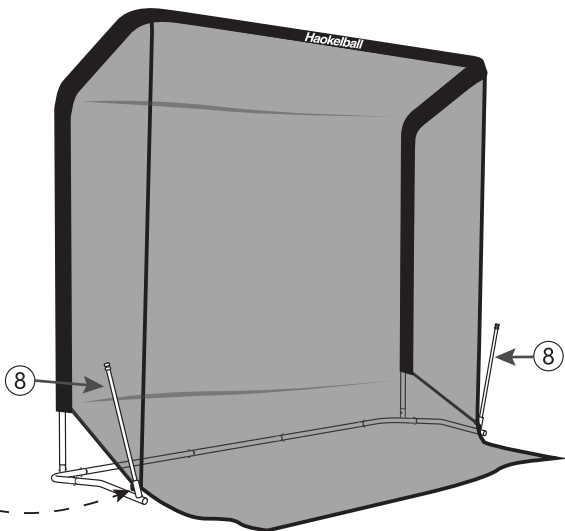

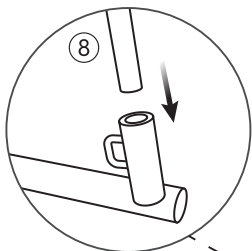

Net Target Function:

Take out the net target and attach two side hooks of the target to the middle slings of the top sleeve.

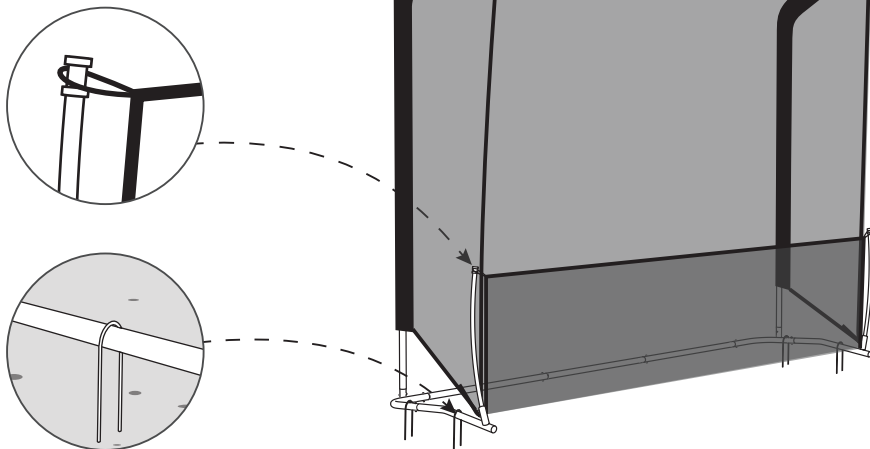

Ball Collection Function:

1. Install the two fiberglass poles onto the frame bottom under the framework on both sides.

2. While playing, you may hang the net top loops onto the top of the fiberglass.

WARNING!

- Two people must be required to stand the framework upright after assembly.
- Please kindly set the network 4 feet away from the wall to prevent being hit by the high-speed golf ball.
- The ground stakes must be installed if used outdoors.
