PRODUCT DESCRIPTION

Curved wrap-around armrests flow into a tall, rounded backrest, creating a soft, sheltering silhouette that invites you in.

The continuous arc follows the natural resting line of your arms and shoulders, so settling in feels effortless.

Plush chenille upholstery offers a soft, fine nap that feels smooth and welcoming against bare arms.

A coil-and-pocket-spring seat cushions every sit and springs back into shape, evening after evening.

Natural solid wood legs and a solid hardwood frame keep the chair planted, steady, and free of wobble.

Please make sure all hardware&packing material fitting the list.

Especially some small accessories may be missing during transportation. Please contact us if you have any question.

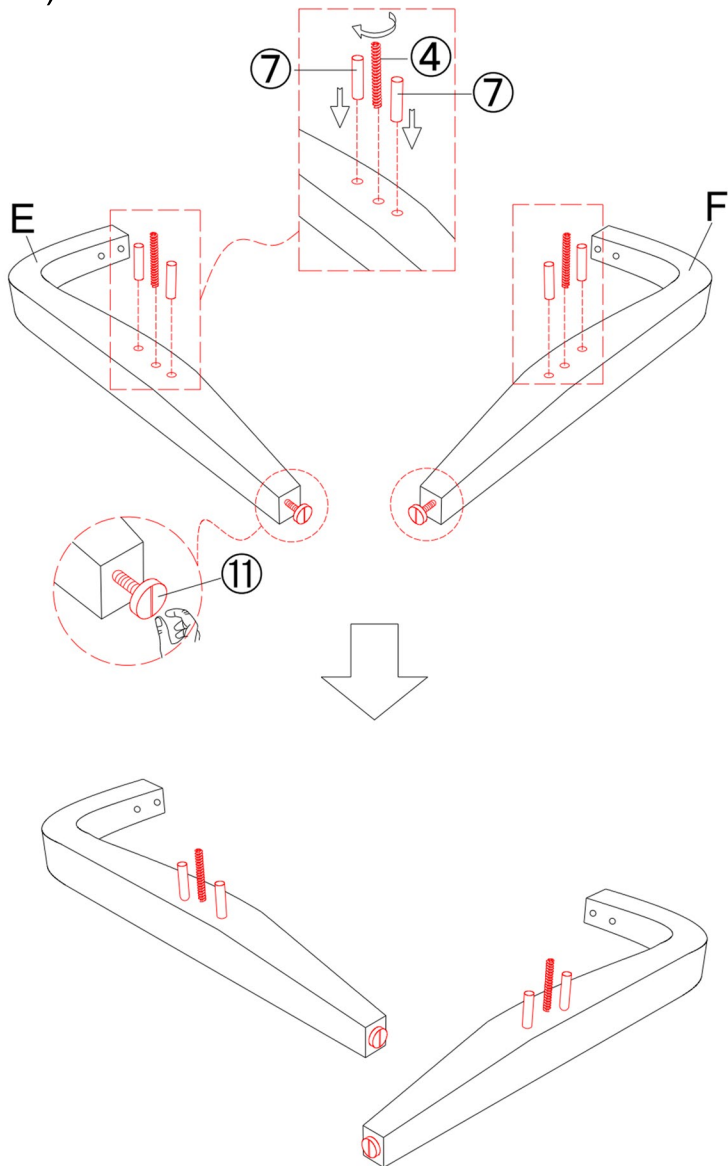

step 1 ---Cut open the plastic air compression bags

After taking out of the cushions (M) from the air compression bag, please allow it to recover for a period of time. It might take up to 48 hours to be fully recovered, you may gently slap onto the cushion to speed up the process.

step 2 ---Install the Double thread rod (4) and wooden dowel (7)

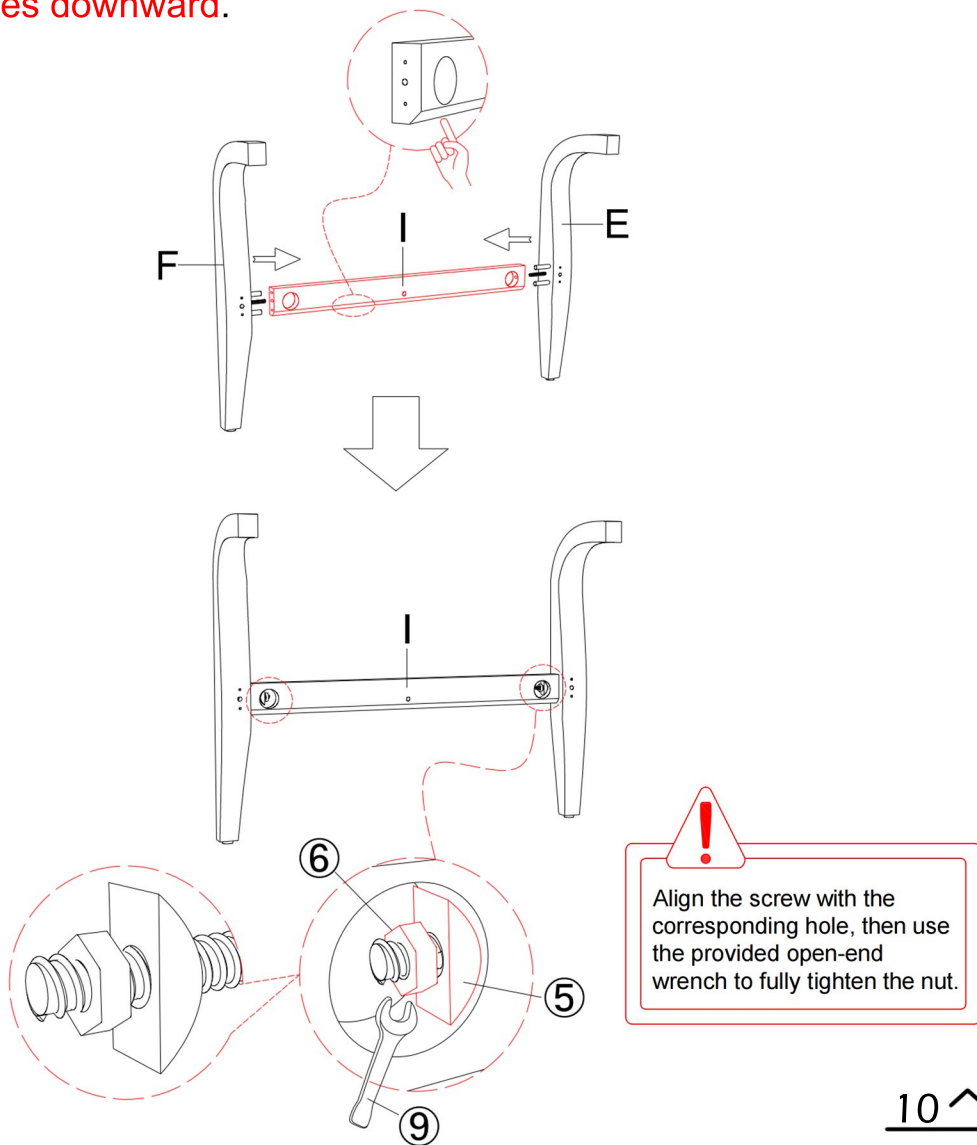

Install the Double thread rod (4) and Wooden dowel (7) into the Side pre-drilled hole of Chair legs (E & F) as shown. Then tighten the adjustable glide (11) into the pre-drilled holes at the front end of (E & F).

step 3 ---Install the front wooden bar(I)

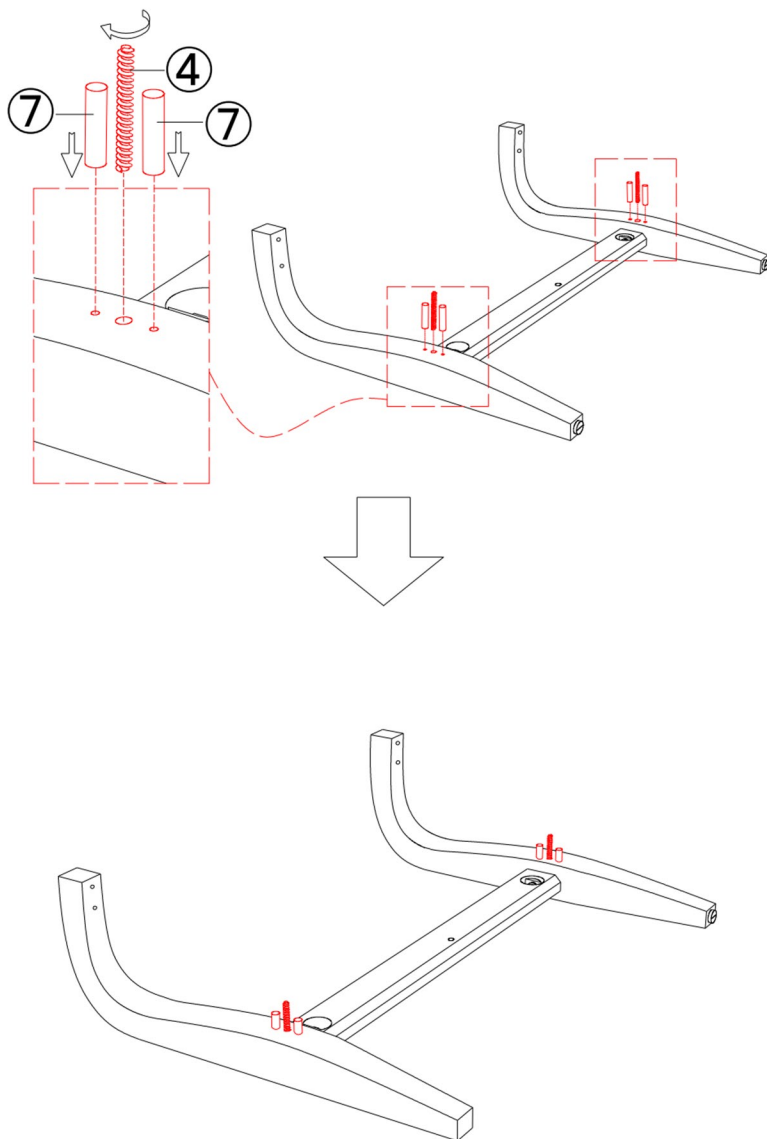

Insert Front wooden bar (I) into legs (E & F) with beveled edge down. Insert Half-moon nut (5) and Nut (6), then tighten with Open-ended spanner(9).

Note: Make sure the **slanted edge** of the Front wooden bar (I) faces downward.

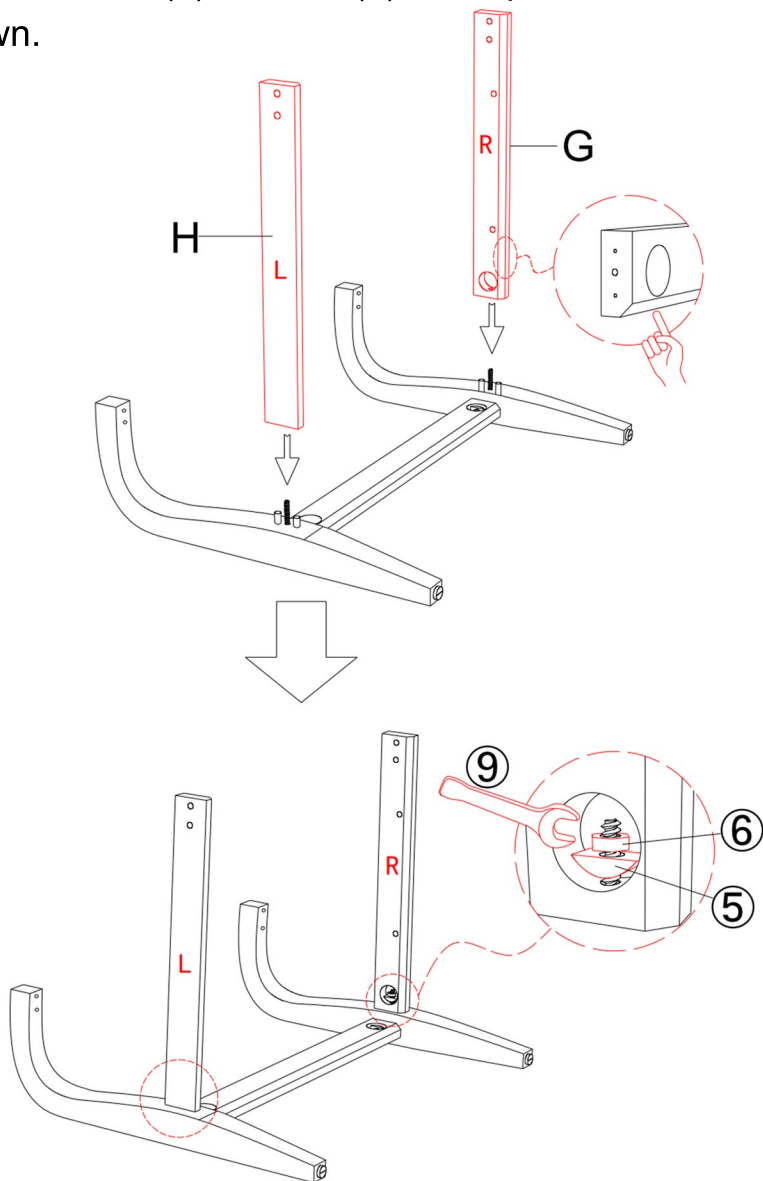

step 4 ---Install the Double thread rod (4) and wooden dowel (7)

Take another two sets of double-threaded rods (4) and wooden dowels (7) and install them into the pre-drilled holes as shown in the figure.

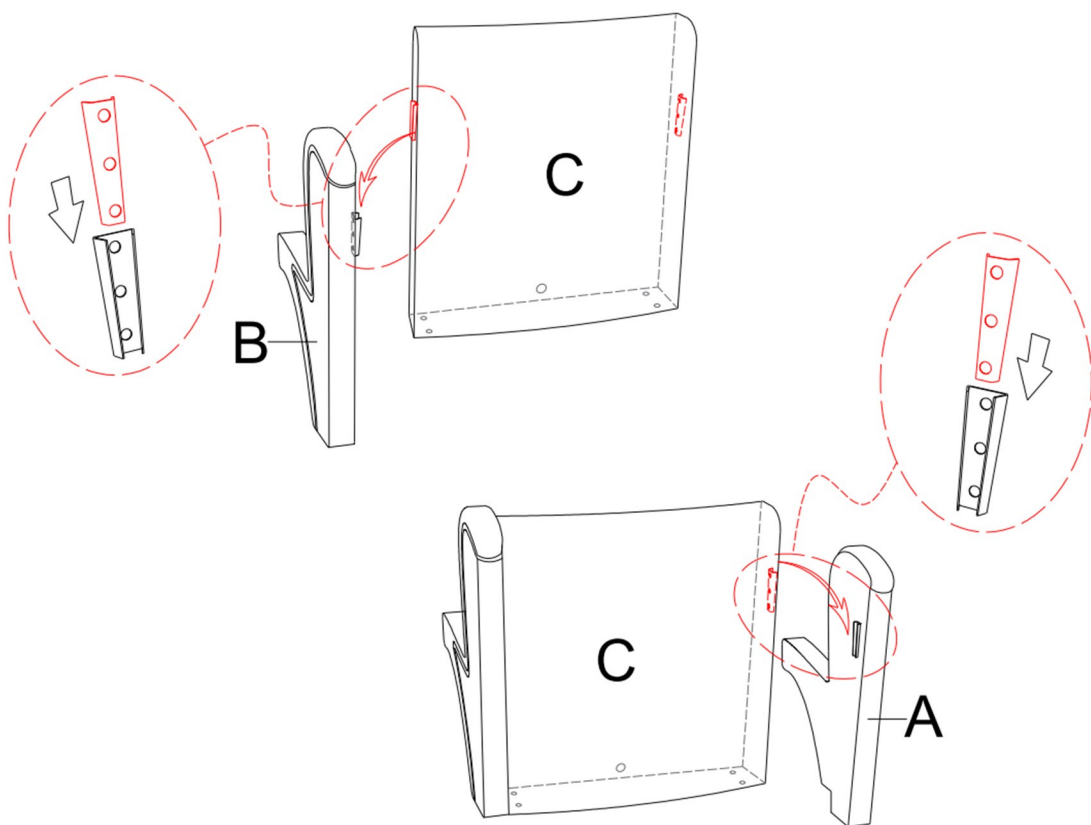

step 5 ---Install the wooden bar (H&G)

Insert tops of Wooden Strip (H) & (G) (The beveled section is shown in the figure.) onto pre-installed screws, then tighten half-moon nut (5) and nut (6) with open-end wrench (9) as shown.

step 6 ---Install the Backrest (C)

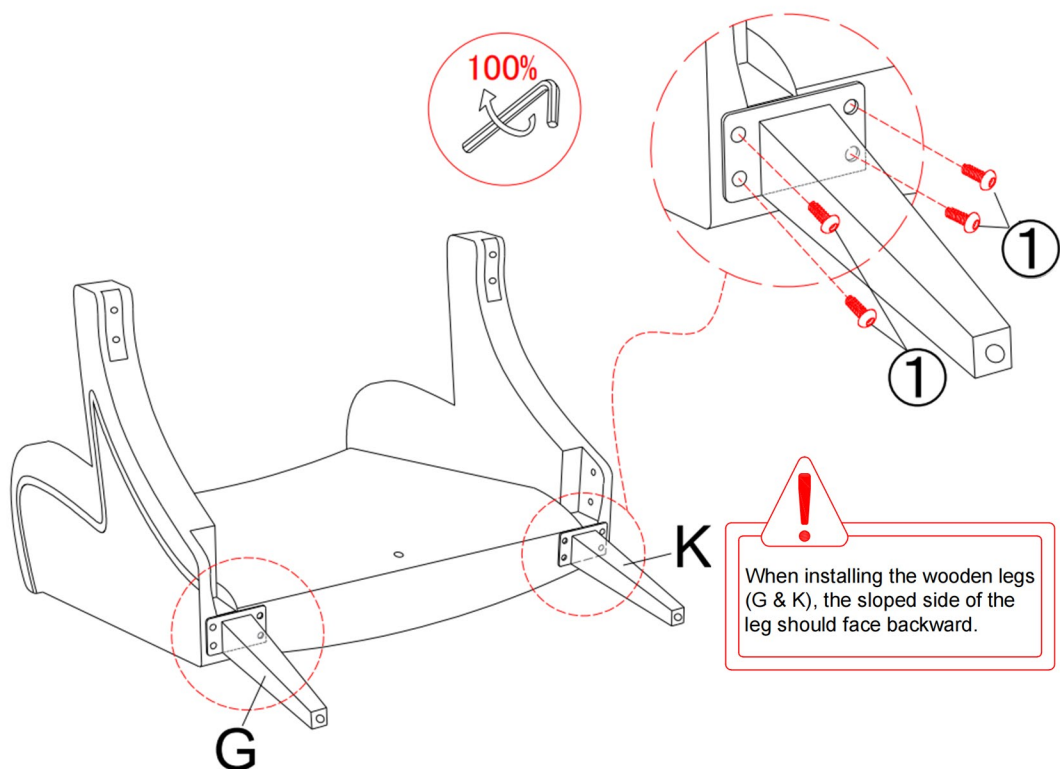

Insert the metal plates on both sides of Backrest (C) top-down onto the pins at the inner side of Arm (A) and Arm (B) respectively.

step 7---Install the wooden dowel (G&K)

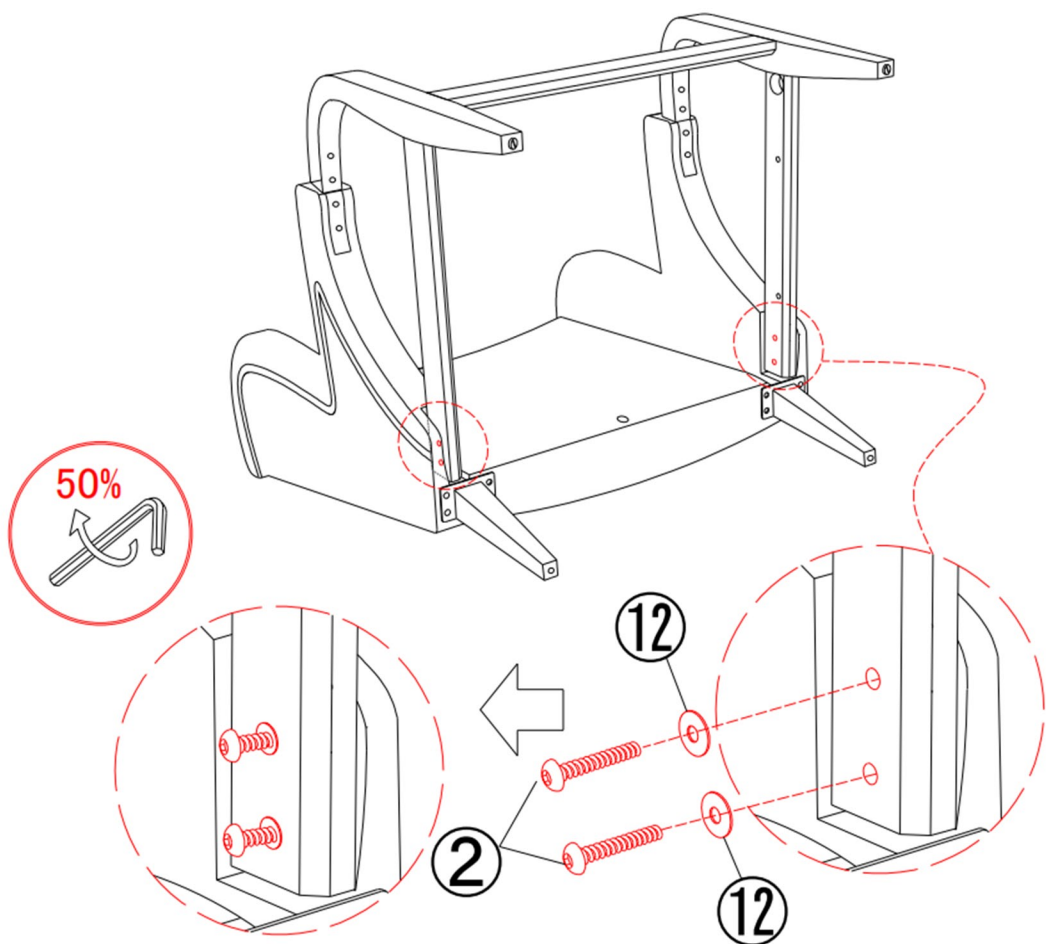

Align the wooden legs with the pre-drilled holes as shown in the figure, and use an Allen key to fully tighten Bolt (1) clockwise.

Note: Be sure to pay attention to the orientation of the wooden legs (G&K).

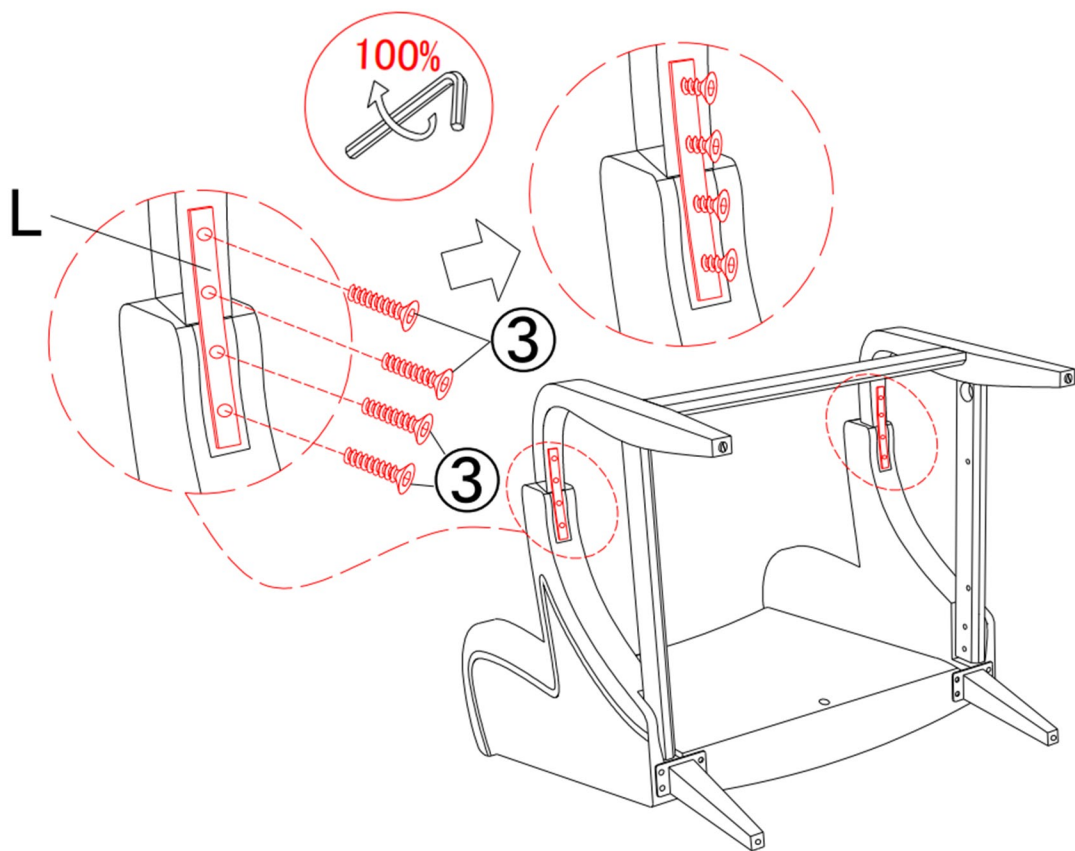

step 8 ---Install Pre-assembly Arm

Insert bolt (2) and flat washer (12) into the pre-drilled holes as shown and tighten it 50% with Allen key (10).

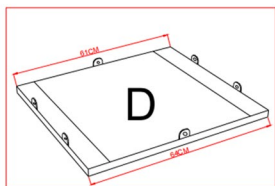

step 9 ---Install the connecting metal plate (L)

Align the connecting metal plate with the pre-drill holes as shown, then fully insert and tighten Bolt (3).

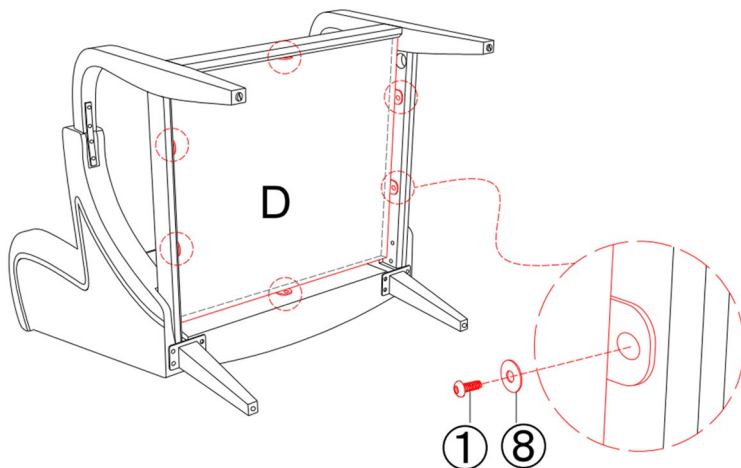

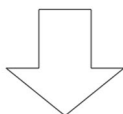

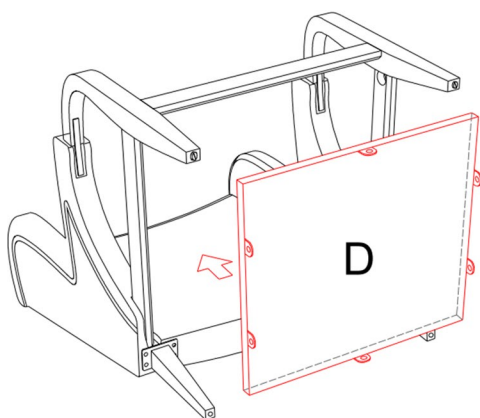

step 10 ---Install the seat frame (D)

Place the seat frame (D) in the position as shown, insert the washer (8) onto bolt (1), and then screw them into the corresponding holes.

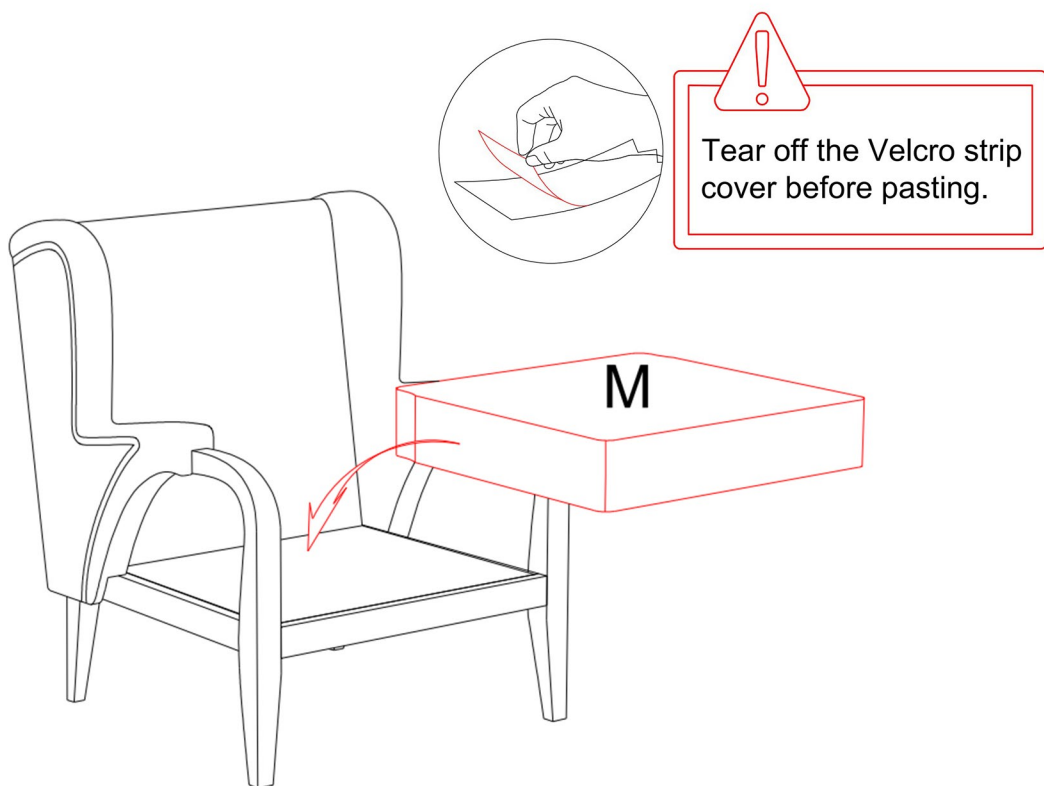

Note: The narrow side of the seat frame (D) faces backward

step 11 ---Place the Seat cushion (M)

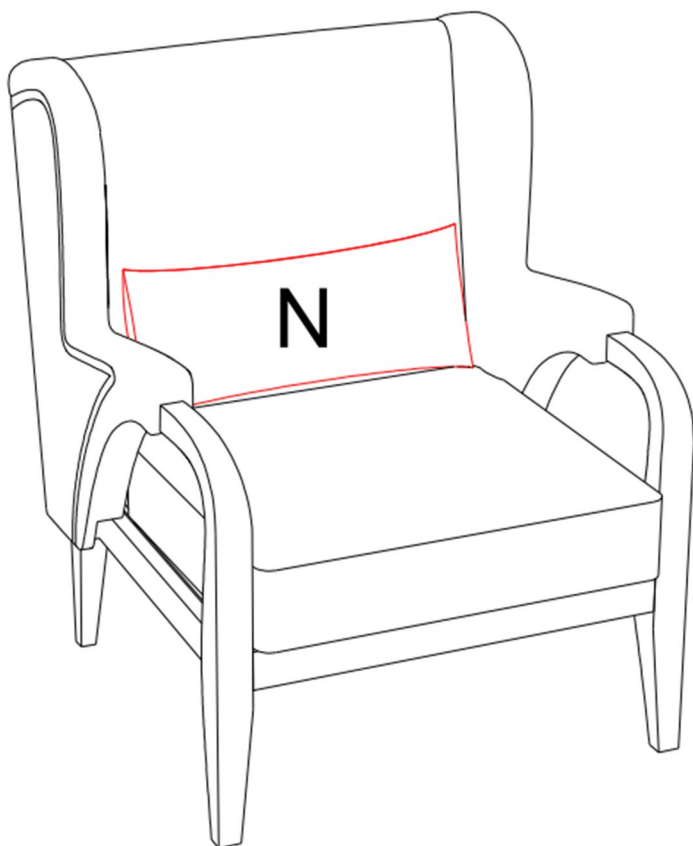

Place the seat cushion (M) on the base, with the narrow end facing backward.

Remove the protective backing from the Velcro before use.

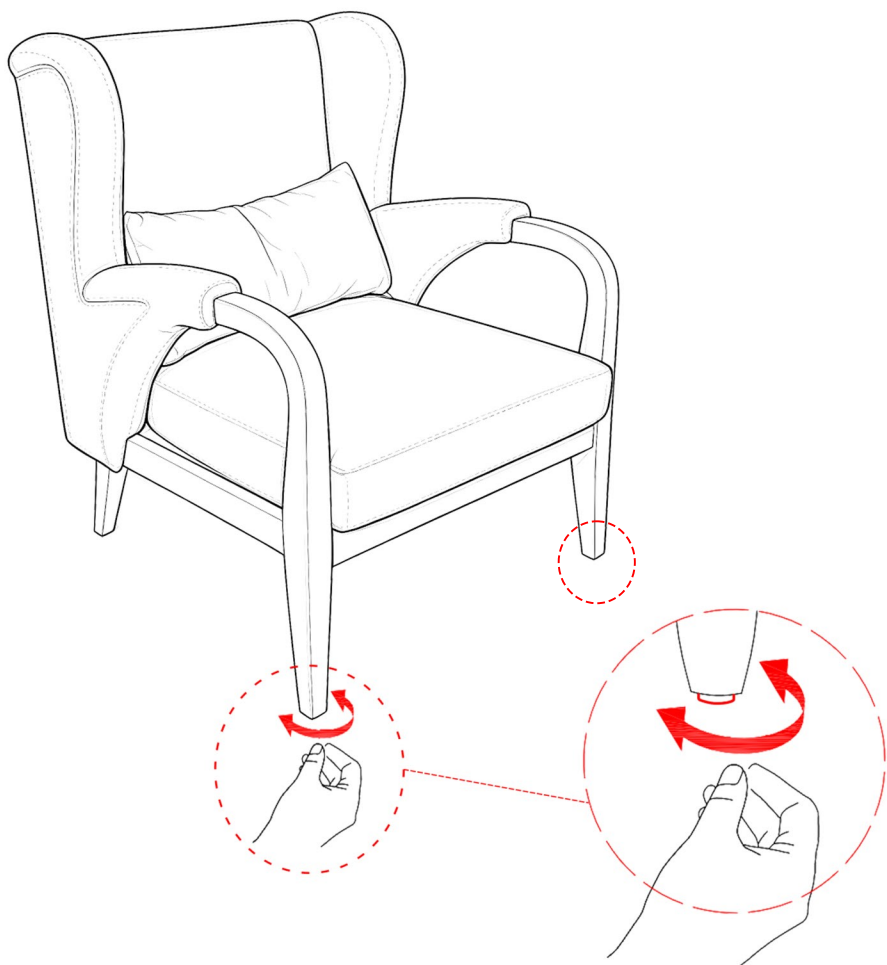

step 12 ---Place the Lumbar pillow (N)

Place the Lumbar pillow (N) on it as shown.

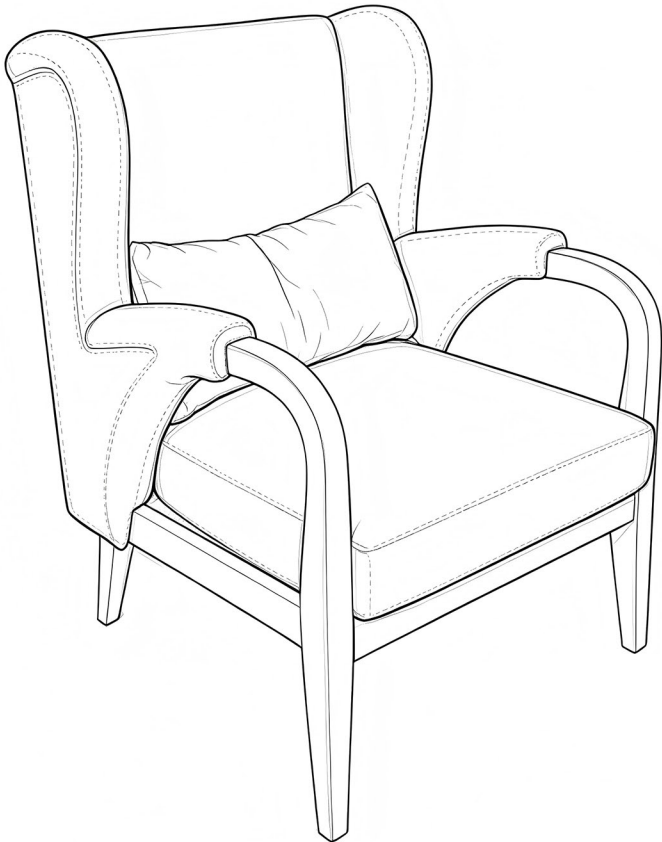

step 13

Please note: the legs of the chair can be adjusted by twisting the leveler on the tip of the legs as shown, it can help you use this chair on ground that is not flat, please check before you use the chair.

step 14 ---Assembly complete

Place the chair properly and tidy it up to make it look nice.
Assembly is complete. Thank you for choosing our product!
Please enjoy!
