Outdoor Structure anchoring guide for anchoring gazebo to wood or concrete: If step 27, on page 11 in the assembly instructions is not properly completed, this will void the warranty.

WARNING! If your gazebo is not properly anchored, damage could occur. It is highly recommended for maximum safety that you mount and secure to wood or concrete footers. This is far better and safer than using ground stakes. The following are some examples of how to mount the structure to wood or concrete surfaces. Refer to local building codes or consider consulting a licensed contractor for assistance in the anchoring of this product.

If digging for foundation, please double check for possibility of any underground utilities such as gas, telephone, cable or sprinkler lines. Refer to your local building and city codes, ordinances, neighborhood covenants, or height restrictions regarding this type of structure for guidance on acceptable installation requirements.
