

# ASSEMBLY INSTRUCTIONS

## Disclaimer:

Thank you for your purchase. Please read carefully and keep these instructions, as you may need them later.

Beware of potential electrical shock! Before installing the fixture or removing any other light already present, please turn off the main power at the circuit breaker.

If your product contains glass items, please handle with care, as glass is fragile and can lead to injuries if handled incorrectly.

Please keep in mind that the warnings and instructions present in this document are not meant to cover and prevent all possibilities and situations that could lead to injury or damage. It is the responsibility of the end-user to exercise caution and common sense when handling and installing the product.

All electrical connections must be made by qualified personnel in accordance with the National Electrical Code.

Please refer to the table below for electrical connections:

### Fixture wire markings:

“L” Live wire (Black or Brown)

“N” Neutral wire (White or Blue)

“⊥” Ground wire (Green or Bare)

### AC power equivalent:

“L” Live wire (Black)

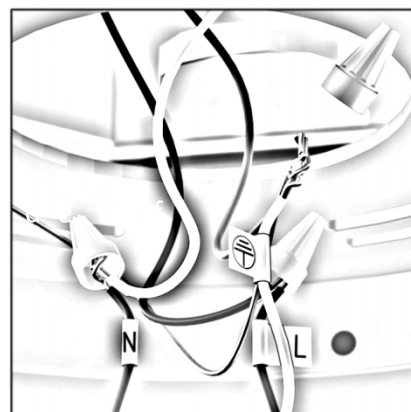

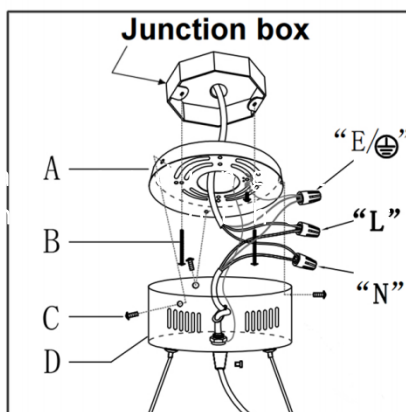

“N” Neutral wire (White)

“⊥” Ground wire (Green or Bare)

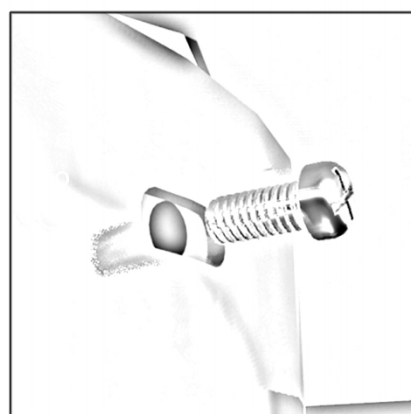

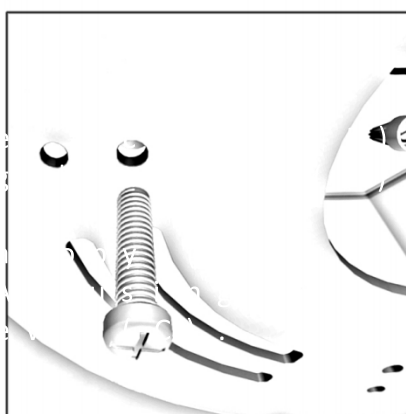

# Installation instructions:

(link to the video instructions on the other side)

1) Connect wires connection table this page.

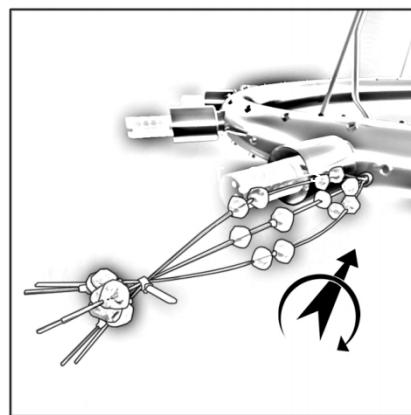

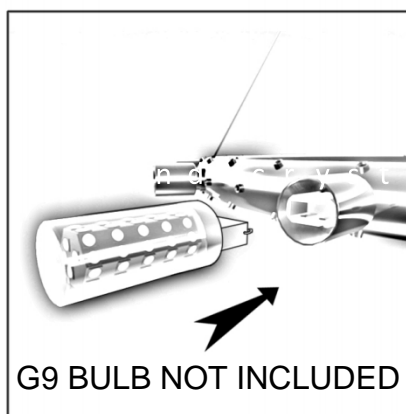

2) Use the provided screws to secure the mounting of the junction box. Then secure the mounting bracket with the second set of screws.

3) Install the bulb to the (G9 Bulbs not included)

Question: What kind of bulbs should I use?

Answer: You can use 16pcs G9 bulbs, and choose either standard or dimmable versions depending on your needs. For dimming functionality, please select dimmable G9 bulbs. Most customers prefer 4W 3000K warm white bulbs.

4) Use scissors keeping the cluster.

Optional: Adjust set the fixture as
