Safety Instructions

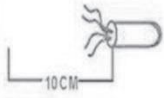

Please keep the product in balance when using it. To prevent fire hazard, avoid placing the steamer near flammable materials

Pregnant women and people having high blood pressure and heart disease should not use this product. Please wait at least 30 minutes after eating before using this product. Do not use this product in time of great hunger for your safety.

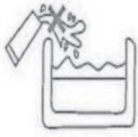

Don’t put animals or plants into the sauna room.

When using the product, stay at least 10cm away from the steam pores. Don’t touch the steam pores with bare hand.

Don not use the product in humid environment or immerse it into water.

The water filled in the steamer should not reach over the max water line in case of malfunction.

User should drink 200 – 300 ml water or tea before using the product. Please prepare a towel for wiping sweat. Take a break after a certain period of using. Don’t use the product consecutively over 20 minutes in one time.

Old people should be accompanied by their families when using the product.

Safety Instructions

The steamer will power off automatically when the water inside dries up. It will restart 20 minutes later. If it doesn't restart, please contact supplier. Never turn on the steamer without water added.

Don't forget to disconnect the power after use and wipe it clean with a damp cloth after 15 minutes of cooling down. Don't clean the product with water directly.

The sauna room and steamer must be placed at a flat surface. If the steamer doesn't work, don't open the lid immediately. Disconnect the power and let it thoroughly cool down first.

Always keep the product clean and in good condition as it would make its service life longer.

Keep the product out of reach of children.

Flammable, toxic, corrosive or other harmful liquid must not be put into the steamer as it might cause bodily injuries or property damage.

The steamer should be only used with the sauna room. It should not be used for other heating purposes. Don't repair or modify the product by yourself as it will invalidate the warranty.

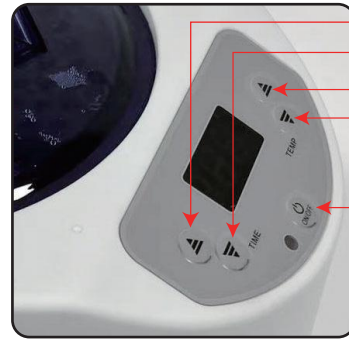

Milk should not be put into the steamer. If you want to use herb or flowers, remember to use a gauze bag to wrap them in advance.
