

LED SOLAR LANTERNS

USER MANUAL

If you have any problems, please feel free to contact us

EN

FIRST TIME USE

1. Please make sure you have TURNED ON the switch on the bottom before first using and charged the solar outdoor lantern light under direct sunshine for at least 8 hours for the initial use.
2. In cloudy weather or winter, charging time maybe longer and working time maybe shorter, which is normal for solar outdoor lantern lights and should not be considered as quality problem.

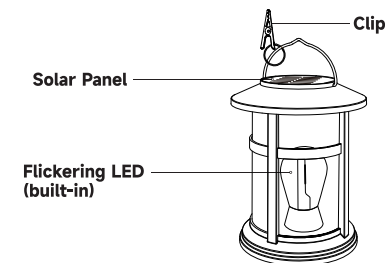

PRODUCT FEATURES

1. The solar outdoor lanterns will light up at night and turn off at sunrise automatically.
2. The solar panel automatically charges for 6-8 hours during the day, and it will be converted into electricity at night.
3. The lighting time is more than 10 hours when fully charged.
4. Place of use: garden, lawn, walkway, courtyard, yard, park, ect.

NOTE

1. Turn ON the switch before first use.
2. Although this product has waterproof function, do not soak it in water or put it in a place with water.
3. If not use the product for more than one week after receiving, please put it under the sunlight for charging before using.
