

# COMPOSITE SLING

## DESCRIPTION

Composite sling is made with Textilene®, a composite mesh fabric woven using PVC coated polyester. Textilene® is the industry standard for versatility and strength.

## DURABILITY

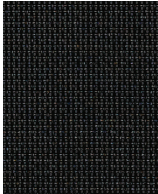

This composite sling is made with Textilene®, the industry standard for sling materials. This composite sling is created to withstand both outdoor elements and commercial environments, ensuring the furniture will last for years.

## CARE AND MAINTENANCE

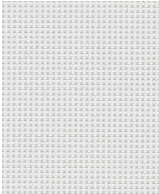

Composite sling products should be cleaned using a mild, non-foaming commercial cleanser and rinsed well.
