Installation Specifications

Electrical Requirements

120V/60 Hz

20 Amps

A: Cabinet opening minimum 30"

B: Acceptable electrical outlet area

IMPORTANT: If your cabinets are over 36 3/4" high, you must install this range on a hard, heat-resistant support that raises the surface of the range so that it is about even with the countertop.

Installing Your Range

*Side clearance above cooking surface to any objects, i.e., wall.

IMPORTANT: Consult with Installation Manual for detailed instructions before installing.

All ranges must be installed with the Anti-Tip bracket that is included.

Recommended Locations for Gas Piping and Electrical Outlets
