The Solar Pump Fountain

Model:

Specification

Model	
Solar panel power	7V 1.5W
Pump power	7V 1.0W
Maximum head	110cm
Maximum flow	190L/H
Maximum water height	65cm

Features

- Life time：≥10000 Hours.
- Delay：≤3S （The pump will automatically restart within 3 seconds when the sun is shining）.

Installation

- Put the pump totally in the water and nozzle over the water，Make sure the pump is fixed firmly on the bottom of the fountain to avoid vibration.
- Put the solar panel under enough sunlight and be better to face directly to sun.

Caution

- Do not use the solar fountain without water，otherwise the motor will be damaged.
- Change water frequently to keep the water cleaning to avoid any dirt to impede the pump.
- Keep the surface of solar panel cleaning constantly.
- When the sunlight is weak, water pumps will not work continuously, once sunlight is stronger it will automatically continuous work. The water height is proportional to sunlight.

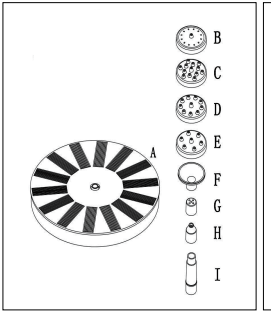

Warranty

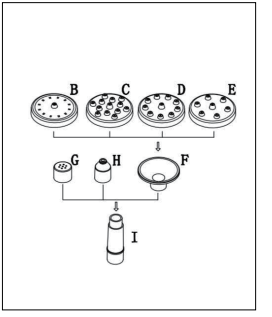

- Guaranteed for 12 months from the date of delivery to the final user.
- The warranty doesn't cover user damage or user repairs damage, Force Majeure natural calamities.

Assembly instructions

Remarks：

The height of the water depends on the strength of the sunlight, when the sunlight is weak the pump will not work continuously,
but will automatically launch repeatedly until the sunlight after reaching a certain intensity pump continuous work is resumed.

* The water height will higher when remove part “F” for model ③ / ④.
The water height will be highest when choose installation method “1:A+G/H” for model ③ / ④.
