

# Product Dimensions

## SD-1

### Shower Door Dimensions Information:

To ensure our shower door fits perfectly in your bathroom, please carefully review the following size details:

### Product Type: One Fixed Panel and One Movable Panel Shower Door

#### Width: 56 inches to 60 inches (W)

The total width of the shower door can be adjusted between 56 inches and 60 inches. Adjustable Width: There is a 4-inch adjustable feature that allows you to customize the width according to your shower space. You can cut the width to fit your specific measurements, making it versatile for various shower enclosures.

#### Height: 75 inches (H)

The height of the shower door is fixed at 75 inches, suitable for most standard shower setups.

### Installation Recommendations

#### Measuring Your Space:

Before purchase, measure the width of your shower opening to confirm it falls within the 56 to 60 inches range.

Ensure that the height of 75 inches will fit your shower area without obstruction.

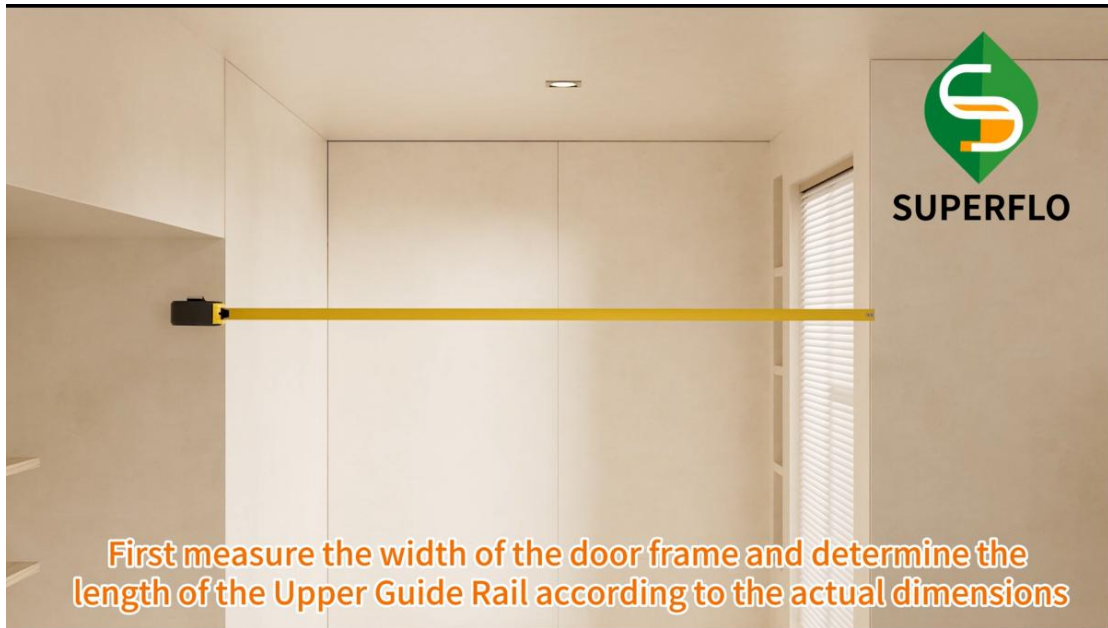

#### Customization:

The ability to adjust the width allows flexibility in installation. Make sure to follow the cutting instructions carefully to achieve the best fit for your shower enclosure.

### Frequently Asked Questions

Q: Will this shower door fit in my shower?

A: Please measure your shower opening width and height to ensure compatibility with our dimensions before purchasing.

Q: How do I adjust the width?

A: This shower door comes with a 4-inch adjustable feature. The installation manual and installation video included on the website have specific cutting instructions to help you adjust the width correctly.

Q: What if I have further questions?

A: If you have any additional questions or concerns about fitting our shower door to your space, please do not hesitate to contact us. We are here to assist you!
