

How to use

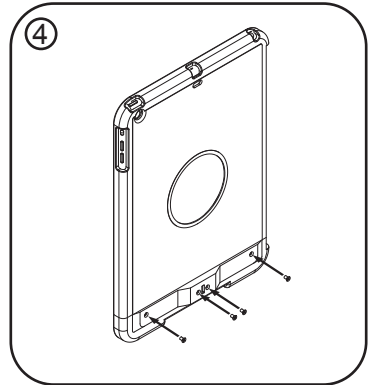

Remove the 4 screws and bottom piece from case.

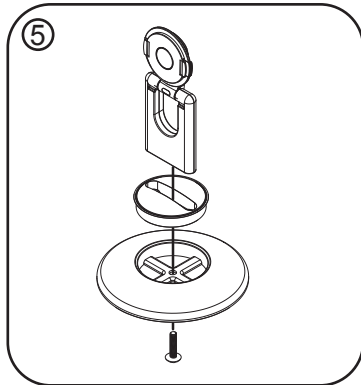

Slide iPad into the case.

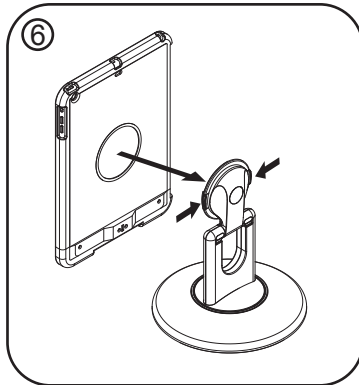

Replace the bottom piece

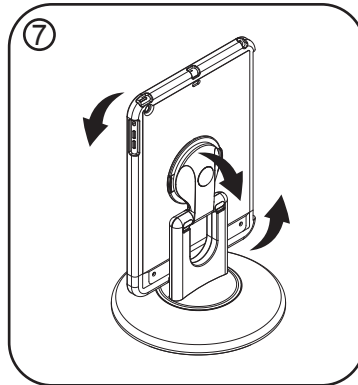

Replace the 4 screws.

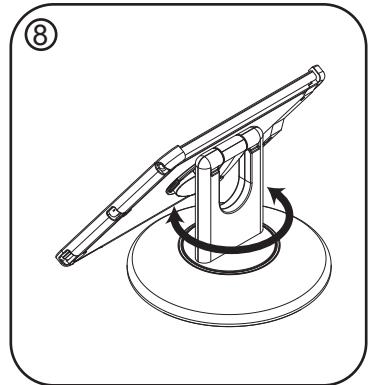

Simple assembly

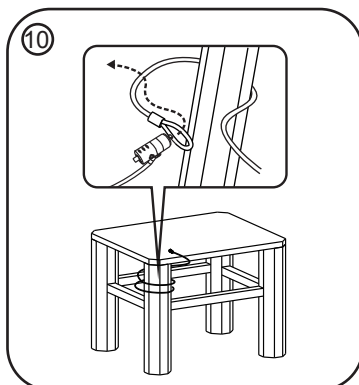

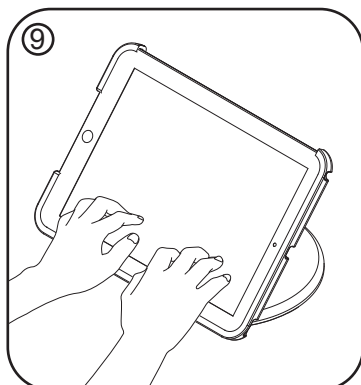

Press buttons, attach shell, release buttons, and spin until you hear the click

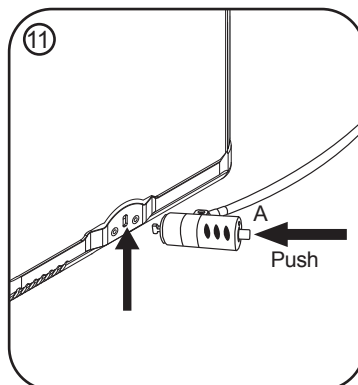

Rotates 360°, tilts for angle adjustment, and reversible view

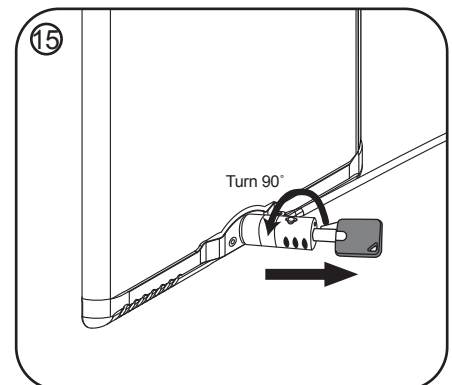

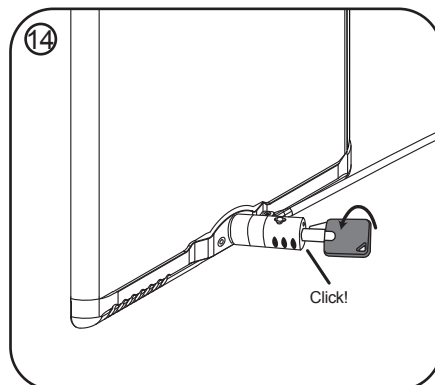

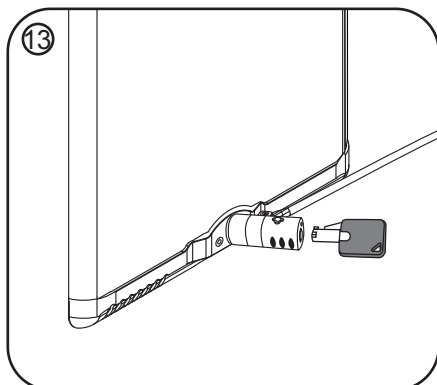

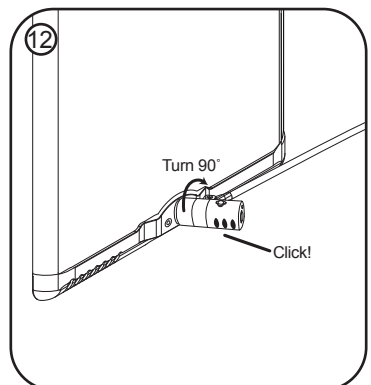

Pivots 360°

Wrap cable around a secure post, and pass the lock through the hoop at the end of the cable.

Loop the cable around a secure object. Push in button (A) on the lock, and insert the lock into the security slot of the tablet case. Turn the lock body 90° (clockwise or counter-clockwise) until you hear the "click". That means it's locked!

How to open the lock:

1. Put the key into the lock, and turn the key until you hear a "click".
2. Turn the lock body by 90° (clockwise or counter-clockwise), then take the lock out of the security slot.
