

MOUNTING METHOD

Fix the safe in the place which is not easy to move.

- Drill holes for expansion bolts (or clamping screws) in the right place.
- Turn the expansion bolts counter clockwise to separate.
- Use the expansion bolts (or clamping screws) to secure the case to the wall.
- Make sure the case is mounted in place as required and then tighten all screws.

⚠ CAUTION: Use the expansion bolt when there is a concrete wall surface. Use the clamping screw when there is a wooden wall surface.
