Assembly Instruction

STEP 1

Attach five legs(11)to hub(12).

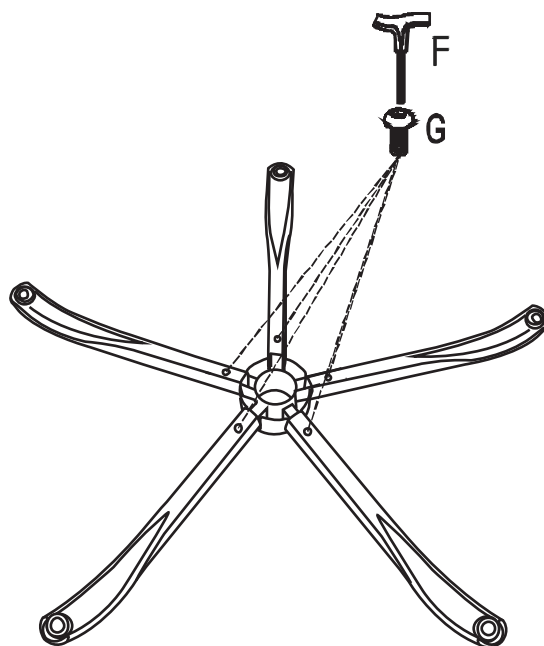

12*1

11*5

STEP 2

Secure the five legs in position using bolts(G).

F*1

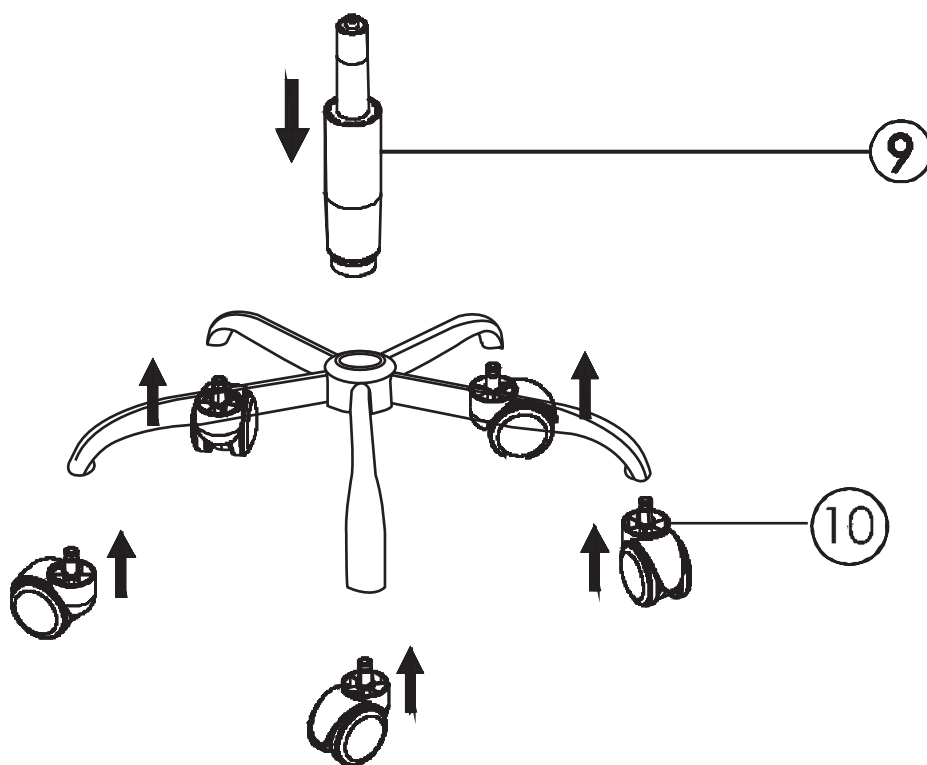

G*5

Assembly Instruction

STEP3

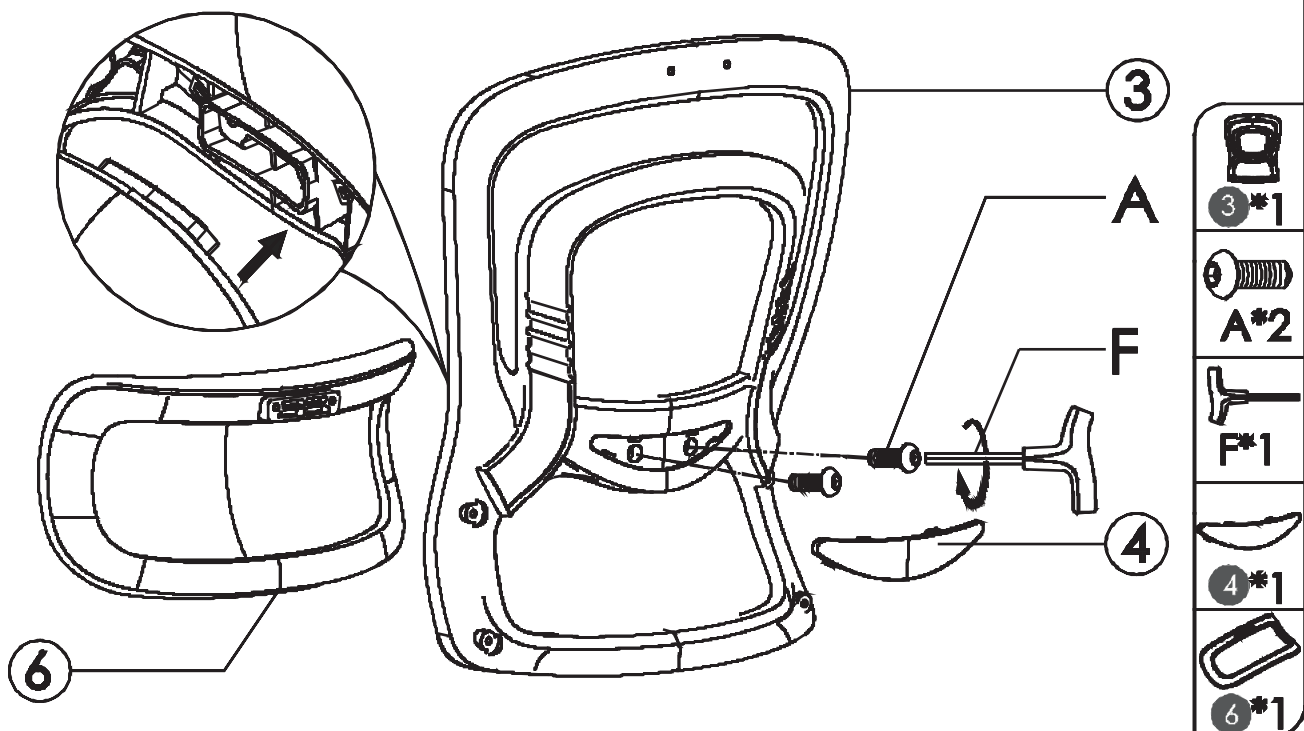

Fit the casters into the holes on the legs, and then insert the gas lift into the central hole of the core as shown below.

Assembly Instruction

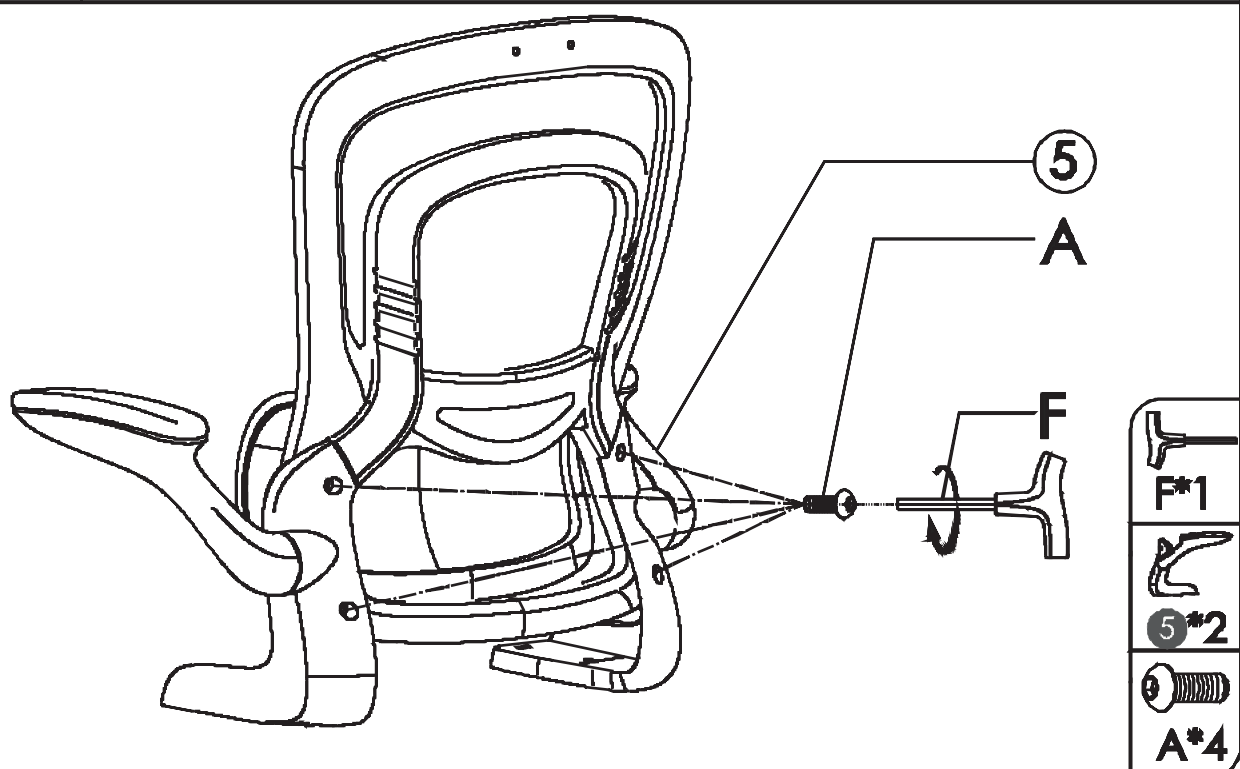

STEP 4

Secure the lumbar support to the backrest, and then cover the holes with the decorative cover as shown below.

STEP 5

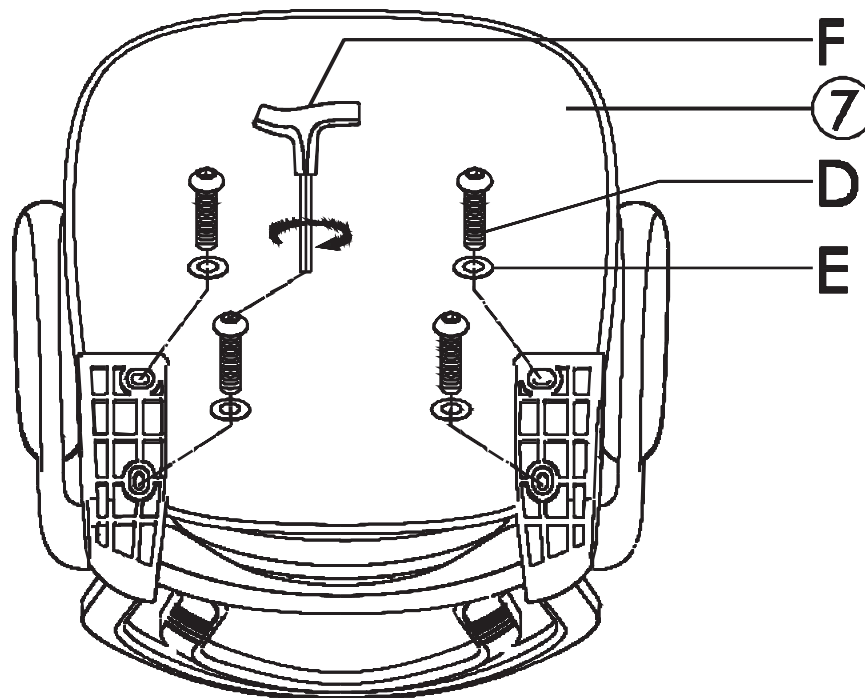

Attach the armrests to the backrest, but do not fully tighten the bolts until they are all in their respective holes. This will allow you to make slight adjustments to their positions during the assembly process if necessary.

Assembly Instruction

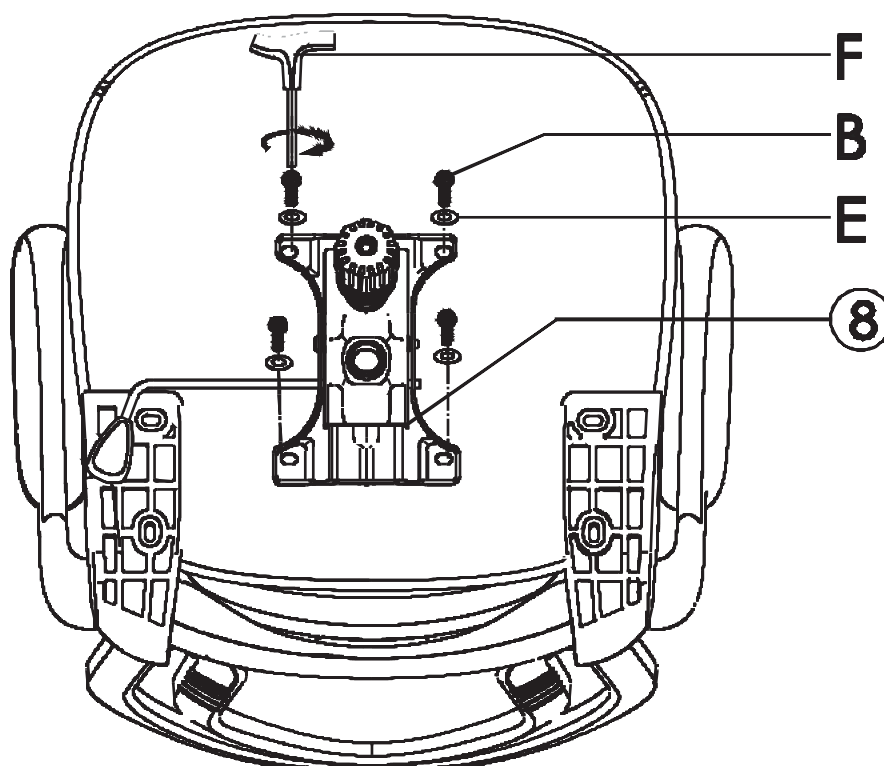

STEP 6

Attach the seat pan to the armrests, but do not fully tighten the bolts until they are all in their respective holes. This will allow you to make slight adjustments to their positions during the assembly process if necessary.

STEP 7

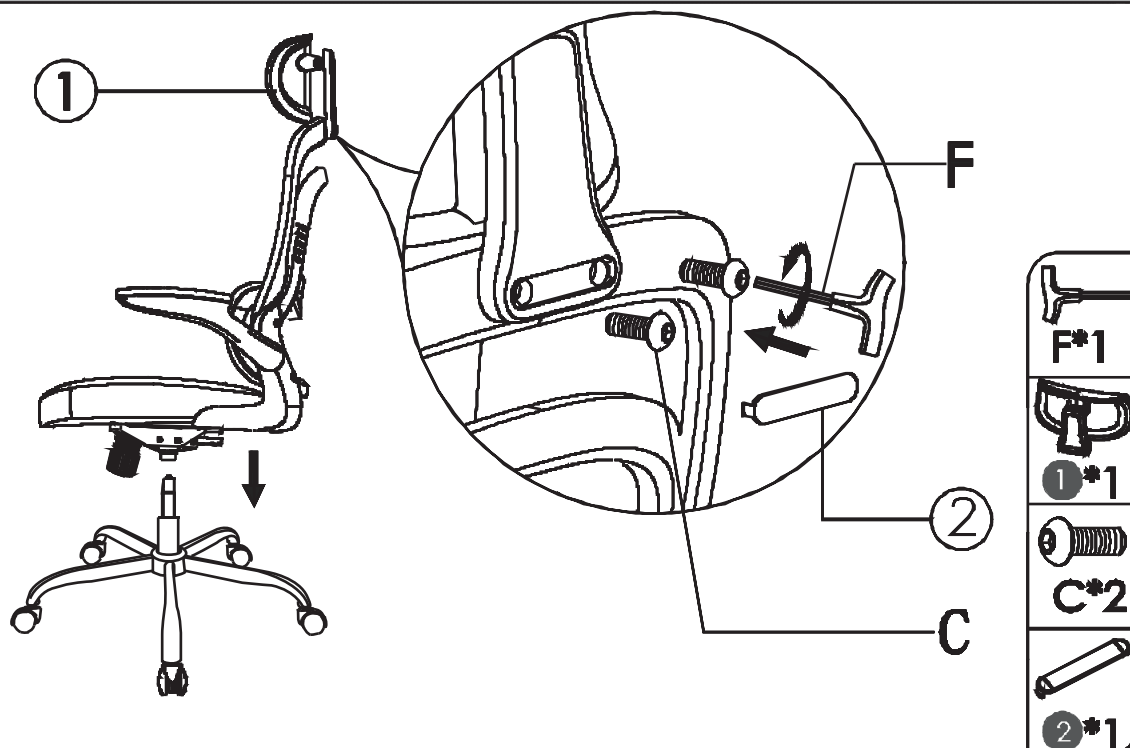

Attach the mechanism to the backside of the seat pan, but do not fully tighten the bolts until they are all in their respective holes. This will allow you to make slight adjustments to their positions during the assembly process if necessary.

Assembly Instruction

STEP 8

Attach the headrest to the backrest, but do not fully tighten the bolts until they are all in their respective holes. Then, push the decorative cover over the holes to cover them.

STEP 9

Your chair is now ready to use. Enjoy!

Done!
