

Puff Cover Only Instruction Sheet

Checklist of Items for Assembly:

- 1.) Cover
- 2.) Foam (not included)

Step 1

Lay your Puff Cover flat on a table or the floor, with the face fabric up. The larger half should be at the top, away from you.

Step 1

Step 2

You should have 2 pieces of foam for your Puff Cushion. Select the larger piece. This is the back foam. Place it on top of the cover, straight edge away from you.
*If you do not have the foam insert, you will need to purchase a new cushion (cover and foam).

Step 2

Step 3

Taking the right side of the foam, fold the edge to the center of the piece and hold in place. Then take the left edge and fold it over the right, folded side.

Step 3

Step 4

Holding the folded foam in one hand, open the Puff Cover and slide the foam all the way in. Keeping the foam folded here, will make it slide in easier.

Step 4

Step 5

Once the foam is in the cover as far as it can go, unroll it, pushing the corners of the foam into the corners of the cover. Slide your hand down the edges making sure it is all straight.

Step 5

Puff Cover Only Instruction Sheet

Step 6

Once the back foam is flat inside the cover, locate the hook and loop at the edge of the foam and on the inside of the zipper flap. Attach the hook and loop together. This will hold the back foam in place.

Step 6

Step 7

Rotate the entire piece so that the smaller, seat half of the Puff Cover is away from you. Place the foam on top of the cover and repeat steps 2-5 with the seat foam.

Step 7

Step 8

Once the seat foam is laying flat inside the cover, locate the zipper in the cover. Close the zipper. Some additional adjusting of the cover and foam may be necessary.

Step 8

Step 9

Your Puff Cushion is now ready for your Puff Chair!

Step 9
