

ASSEMBLY INSTRUCTIONS

1. Carefully unpack and identify all parts referring to illustration for parts identification.
2. Turn the power to the installation point OFF.
3. Unravel the supply power and ground wires and pass them through the center stem (5), rods (4), rod (3), loop (2), and the canopy (1).
4. Install the center stem (5) onto the protruding nipple on the fixture body (7). Repeat the process for the rods (4) and rod (3), as shown in the diagram, until snug.
5. Install the loop (2) onto the rod (3).
6. Refer to the additional installation instructions included with the product for wiring and installation.
7. Install the crystal (6) onto the socket of the fixture body (7).
8. Install proper bulbs (not included) into each socket referring to the marking and/or labels on the fixture for maximum wattage.
9. Restore power to the installation point and retain this sheet for future reference.
