

In order to provide customers with a better installation experience, you will get a product that does not require assembly. Just follow the steps below to install it on the wall.

(This wine rack product weighs about 35LBS, we recommend two people to complete the installation)

Find a suitable location on the wall; mark the hole position with a marker

Drill holes at the marked points with an 8MM drill bit

Knock in the expansion screw; And retract the screw

Complete installation
