Product Description: Casual yet refined and stylish, the Bristowe Computer Credenza sets a professional and inviting tone for any work-from-home space. Crafted of Pecan Veneers in a Tuxedo black paint finish with touches of warm brown, the desk is accentuated by oil-rubbed bronze-finished ring hardware and chic bun feet. Offering 7 drawers, the top left and right drawers are on full extension metal ball bearing slides with removable divider inserts. There's one removable writing slide and one removable pencil drop-in that can be used on either side. The bottom drawers are locking file drawers with a pendaflex filing system and full extension metal ball bearing slides. The center drop-front drawer allows for keyboard use. Finished on all sides, so the desk can float in a room.

Collection Features: The Work Your Way program focuses on the new reality many consumers face as they continue to do much of their work from their homes. Available in five design styles, the program offers an assortment of key home office pieces for a variety of spaces — whether a dedicated executive home office or a more casual workstation. Ranging in scale and functionality, all of the groups within Work Your Way include an executive desk, a junior executive desk, a writing table, a lateral file, a credenza and hutch and a bookcase.

150lb full extension metal ball bearing slides
Center drop-front drawer for keyboard use
Finished on all sides
Levelers

Material: Pecan Veneers

Drawer Construction: Hooker Furniture offers full height, full depth and full width drawers for maximum storage capacity. All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use. Plywood drawer bottoms are attached to plywood drawer sides for strength and durability. Metal side guides or wood on wood guide systems operate smoothly.

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
