

Notes

1. Please do not use an electric water heater when the water pipe freezes, otherwise it may damage the product.
2. Please clean the inner liner of the water heater regularly to avoid the appearance of rust. Unscrew the water inlet and outlet, pour in the soda water (not included), and clean for a few minutes.
3. Please note that this product is not suitable for outdoor showering.
4. Please do not use an electric water heater when the water pipe freezes, otherwise it may damage the product.
5. Please read the equipped manuals and the labelings on the product before use and pay particular attention to the safety instructions contained therein.
6. If the water heater is damp, turn off the water heater, open the housing, dry the internal electrical components with a fan, then cover the housing and open it again.
7. Before purchasing, please make sure that the size of this product is suitable for your home.
8. Please note that the water heater should be filled with water first before turning it on to avoid dry burning.
9. Please note that this product needs to be mounted on a solid wall.
10. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
