Please make sure all hardware&packing material fitting the list. Especially some small accessories may be missing during transportation. Please contact us if you have any question.

step 1

Using allen key (3) provided to remove the armrests (C & D) from the wooden board, the wooden board is for fixing the armrests during the transportation, not part of the product.

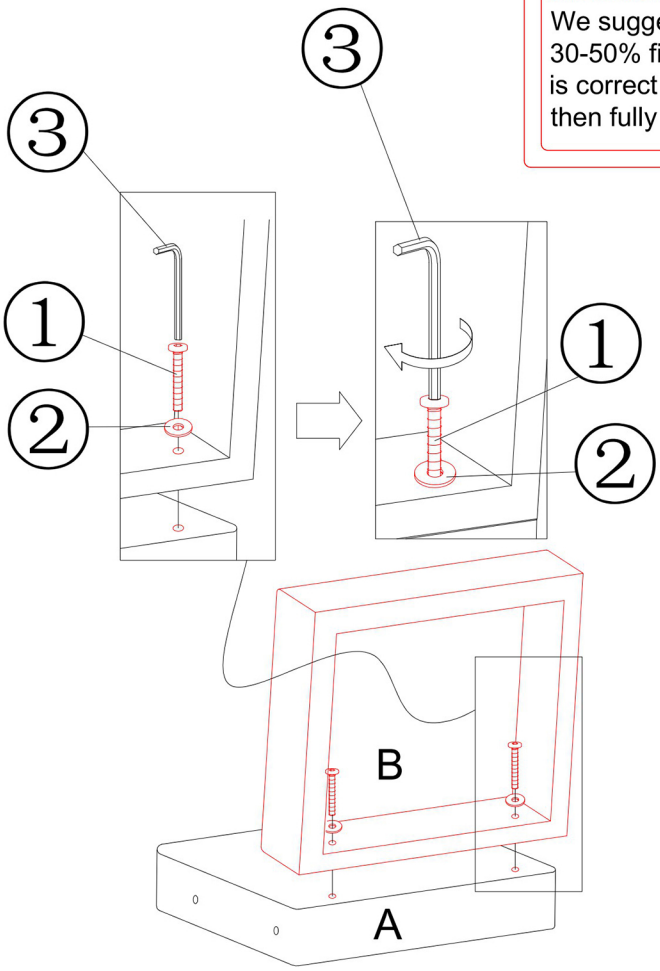

* You may place a rug or some covers underneath the seat frame, in order to protect your floor and the product.

step 2

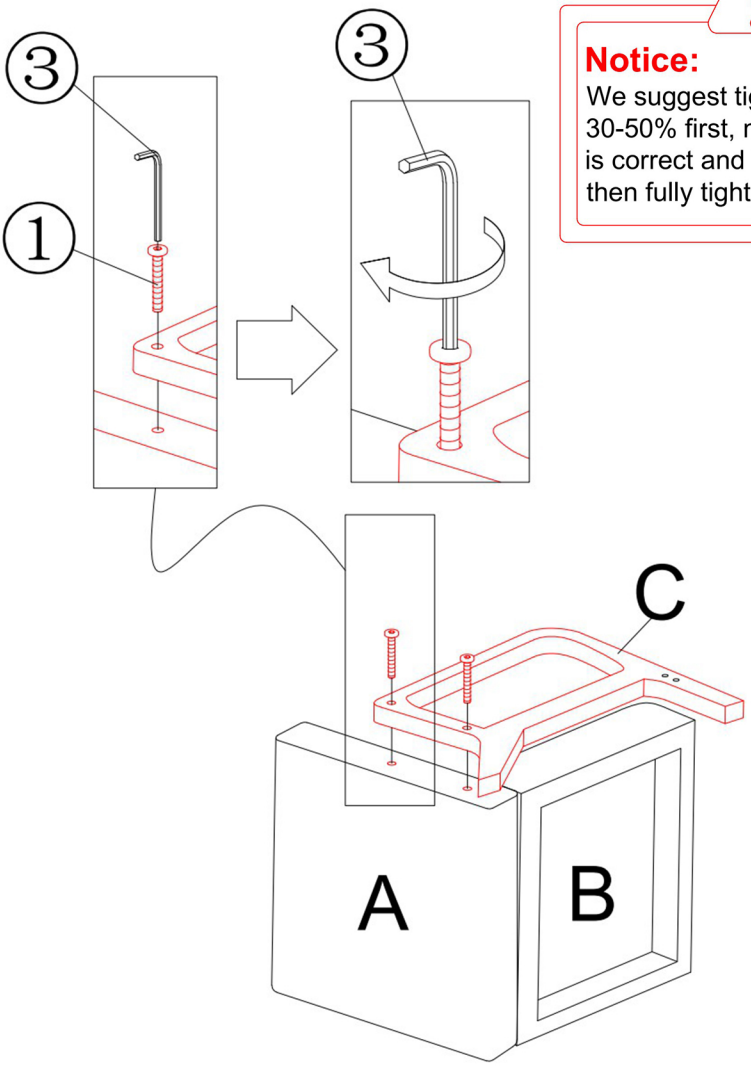

Connect back (A) and the seat cushion (B) with the bolts (1) and washers (2), using allen wrench (3) provided to tighten the bolts, make sure all the bolts are fully tightened before next step.

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 3

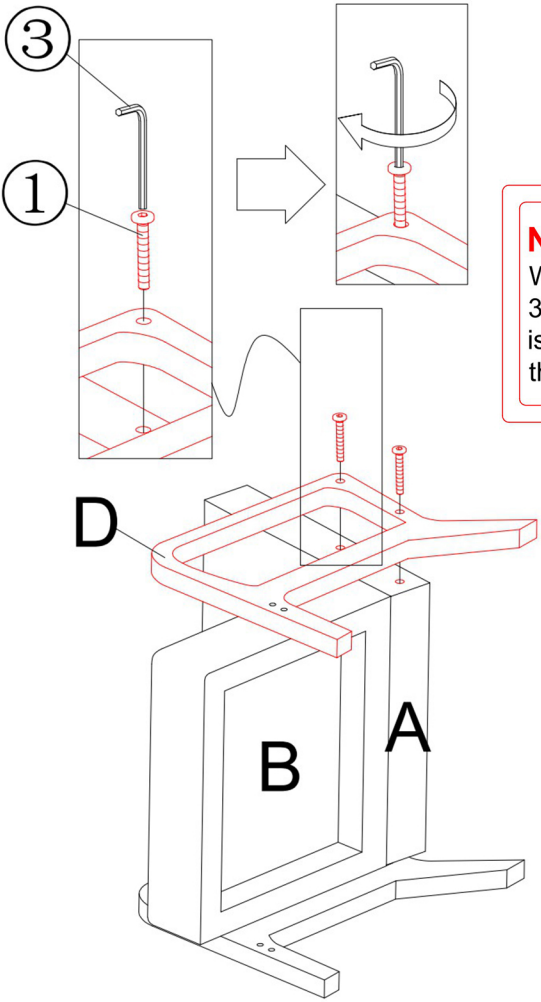

Use the bolts (1) to tighten the right arm (C) with the frame as shown, use the allen wrench (3) provided to tighten the bolts.

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 4

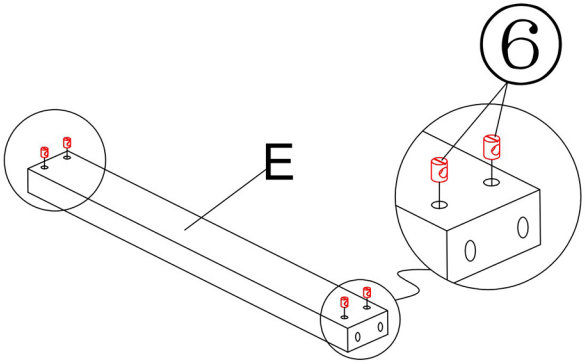

Use the bolts (1) to tighten the right arm (D) with the frame as shown, use the allen wrench (3) provided to tighten the bolts.

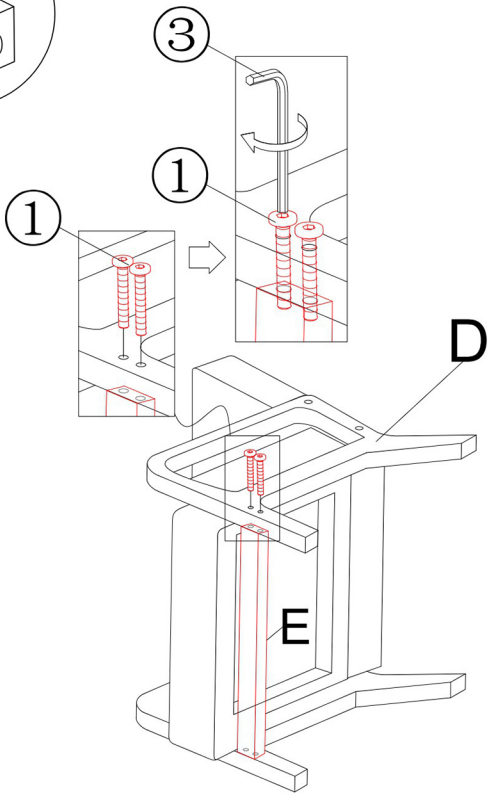

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 5

Insert the vertical nuts (6) into the front transom (E) as shown, make sure the holes on vertical nuts are aligned with the holes on the sides of transom. Then install the transom to the seat frame as shown,use the bolt (1) to tighten the transom to both arms, use the allen wrench (3) provided to tighten the bolts, make sure all bolts are fully tightened.

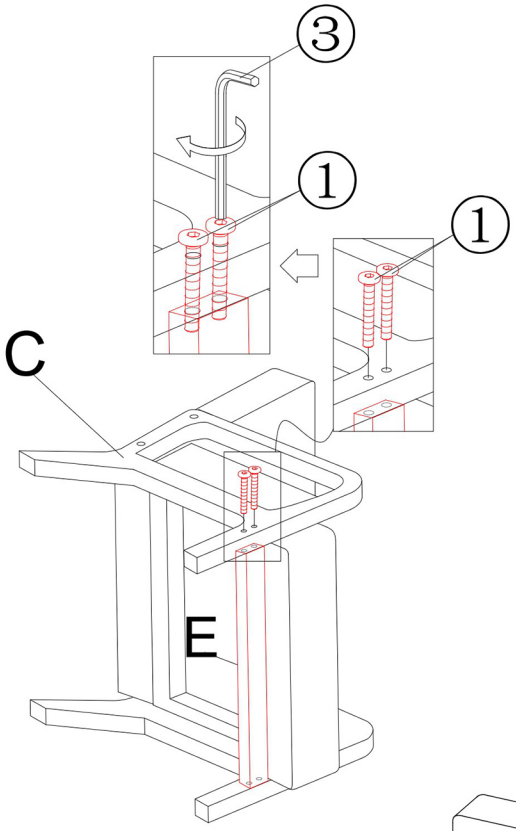

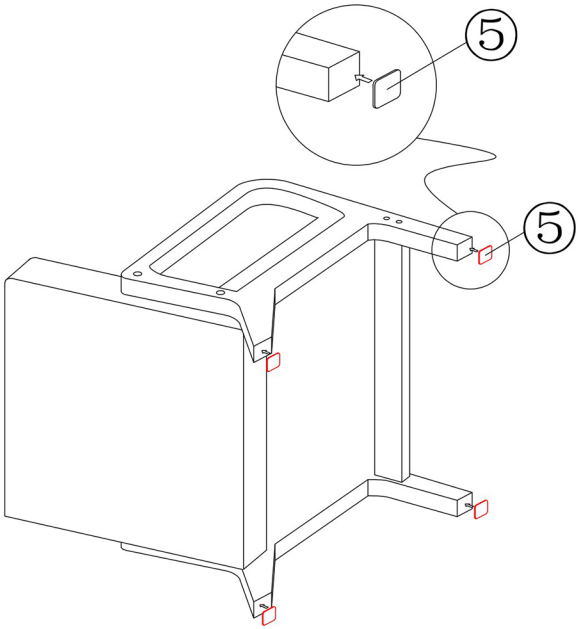

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 6

Use the bolt (1) to tighten the transom to both arms, use the allen wrench (3) provided to tighten the bolts, make sure all bolts are fully tightened.Stick on the antislip pads (5) onto the bottom of the legs as shown.

Notice:
We suggest tightening the bolts for 30-50% first, make sure the process is correct and bolt holes are aligned, then fully tightening them all.

step 7

Insert the plastic covers (4) into each holes of the bolt as shown.

Place the waist pillow, the assembly is complete.
