

Assembly and Installation

Step 1: Secure the product to the floor with screws (screws not included, please buy them yourselves. 4pcs are needed)

Step 2: put on the base cover from the top of the column.

Step 3:

The grooves on both sides of the column use glass with a thickness not exceeding 1cm(0.39").

Stick the glass directly into the groove and fix with glass cement.

(Glass and glass cement are not included, please buy them yourself)
