

Installation Instructions

1. Take out the lamp body, remove the hanging plate, first use the hanging plate to determine the hole distance, drill holes, insert the rubber plugs into the holes, and fix the hanging plate with self-tapping screws.
2. Connect the power cord.
3. Use your hand to tighten the nut to fix the ceiling plate to the hanging plate.
4. Install the light source and test the electricity.
5. Twist the acrylic tube onto the lamp body.
6. Put the glass on and level it.
7. Take out the small cover and the small ball from the accessory package, put on the cover, and use the teeth of the small ball to pass through the cover and align with the hole position to tighten.
8. Installation is complete, turn on the light to check the effect.
