LED multi-functional vanity

Assembly Instructions - Please keep for future reference

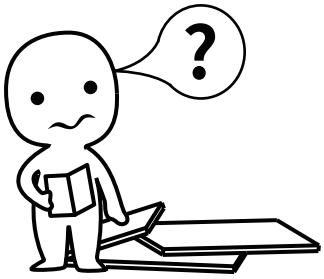

Dimensions

Width - 48 inch
Depth - 15.7 inch
Height - 53.9 inch

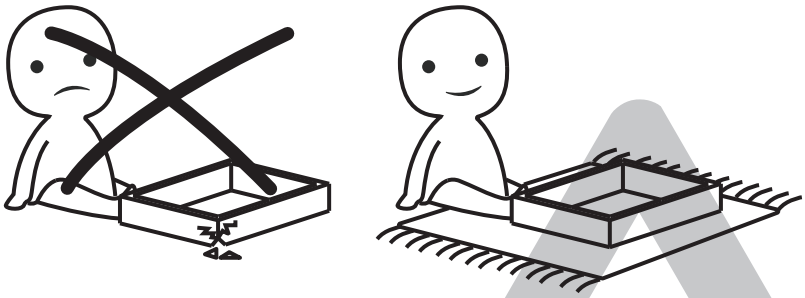

Important – Please read these instructions fully before starting assembly

Issue 1 -24/06/2024

IMPORTANT INFORMATION!

please read the entire manual before starting to assemble and/or using this product.follow the manual thoroughly and keep it for further reference.

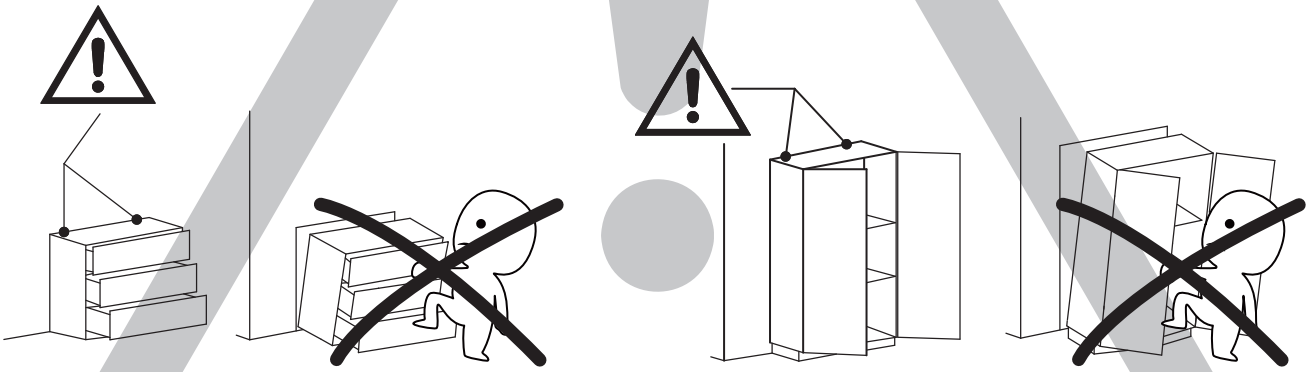

AVOID SCRATCHES!

In order to avoid scratching this furnuture should be assembled on a soft layer-could be a rug.

IMPROVE EFFICIENCY !

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

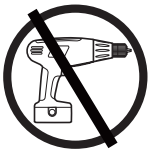

ANTI-TOPPLE WARNING !

Overturned furniture can cause serious or fatal crush injuries. To prevent tipping over, be sure to use the wall attachment, if not included with this product. Please purchase the wall attachment that fit your wall. If unsure, seek professional advice. Please read and follow each step of the instructions carefully.

Safety and Care Advice

Important – Please read these instructions fully before starting assembly

- Check you have all the components and tools listed on the following pages.
- Remove all fittings from the plastic bags and separate them into their groups.
- Keep children and animals away from the work area, small parts could choke if swallowed.
- Make sure you have enough space to layout the parts before starting.
- During assembly do not stand or put weight on the product, this could cause damage.
- Assemble the item as close to its final position (in the same room) as possible.
- Assemble on a soft level surface to avoid damaging the unit or your floor.
- Parts of the assembly will be easier with 2 people.

- To reduce the likelihood of damaging your product please ensure that your power drill is set on a low torque setting.

Care and maintenance

- Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.
- From time to time check that there are no loose screws on this unit.
- This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Handy Hints

- Assemble all parts and bolts loosely during assembly, only once the product is comKlete should you fully tighten the bolts
- Regularly check and ensure that all bolts and fittings are tightend properly .

WARNING
In order to help prevent overturning – please follow these instructions

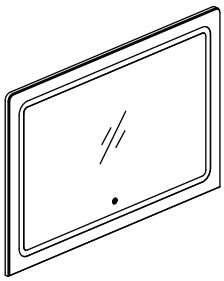

To help prevent product toppling over please follow the below steps:-

Use the anti tip stap or wall fixing method provided (if applicable)
Do not allow children to climb or hang on the furniture
Do not open more than one drawer at a time
Do not place heavy items in the top drawers
Do not place heavy items on top of the furniture, unless the furniture has been designed for this purpose

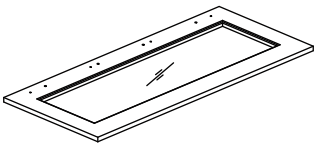

Please note that only the anti tip strap is provided.
You will need to provide wall plugs and screws applicable for your wall type

Componets - Panels

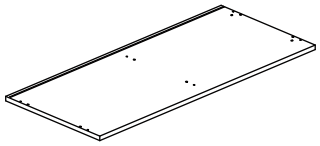

Please check you have all the panels listed below

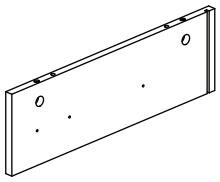

1 (900*600*16mm x1)

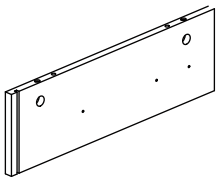

2 (916*400*15mm x1)

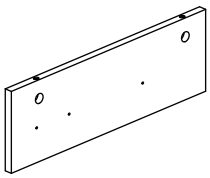

3 (916*400*15mm x1)

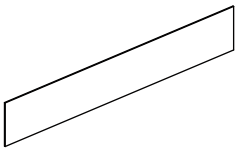

4 (400*126*12mm x1)

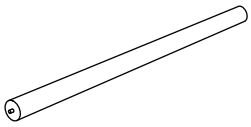

5 (400*126*12mm x1)

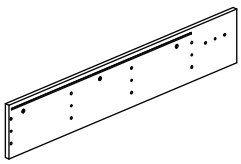

6 (384*126*12mm x1)

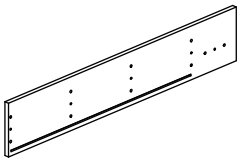

7 (900*134*3mm x1)

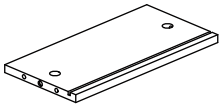

8 (600*60*60mm x2)

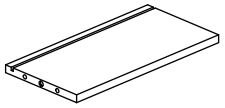

9 (760*140*12mm x1)

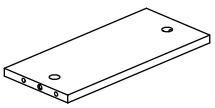

10 (760*140*12mm x1)

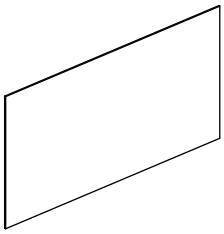

11 (280*140*12mm x1)

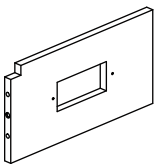

12 (280*140*12mm x1)

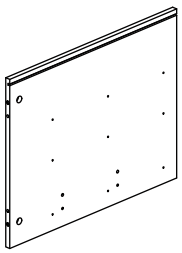

13 (280*122*12mm x2)

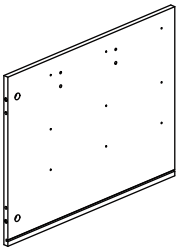

14 (600*289*3mm x1)

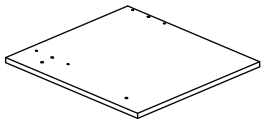

15 (280*144*12mm x1)

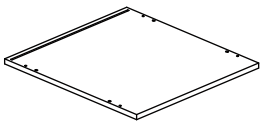

16 (506*40*12mm x1)

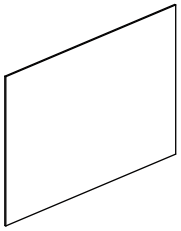

17 (506*40*12mm x1)

18 (370*400*12mm x1)

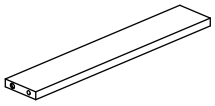

19 (370*400*12mm x1)

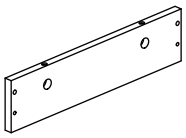

20 (515*353*3mm x1)

Componets - Panels

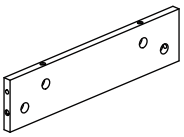

Please check you have all the panels listed below

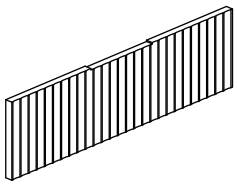

21 (344*60*12mm x2)

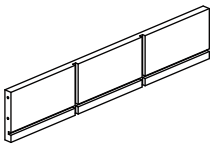

22 (335*80*12mm x2)

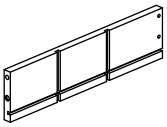

23 (333*80*12mm x2)

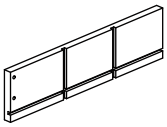

24 (435*120*12mm x2)

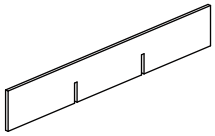

25 (391*77*12mm x2)

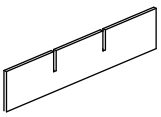

26 (300*77*12mm x2)

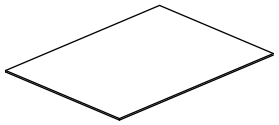

27 (300*77*12mm x2)

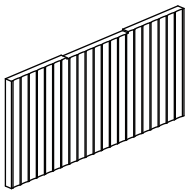

28 (399*62*5mm x4)

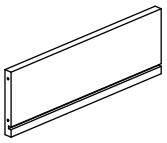

29 (295*62*5mm x4)

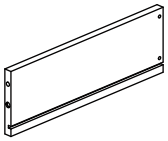

30 (295*62*5mm x2)

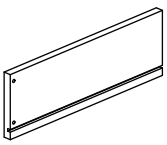

31 (295*62*5mm x3)

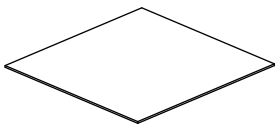

32 (296*100*12mm x3)

33 (300*100*12mm x3)

34 (300*100*12mm x3)

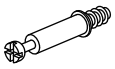

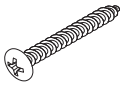

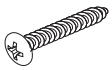

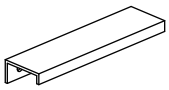

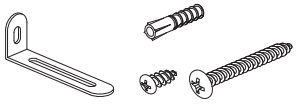

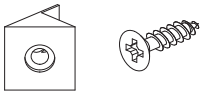

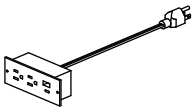

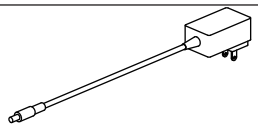

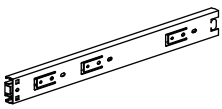

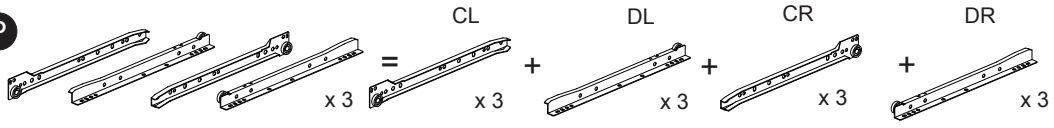

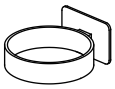

35 (585*148*3mm x3)

Componets - Fittings

Please check you have all the fittings listed below

Note: The quantities below are the correct amount to complete the assembly. In some cases more fittings may be supplied are required.

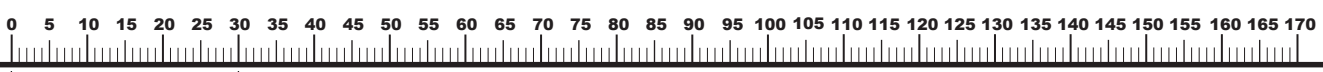

A  6*30mm Wooden Dowel x 64	B  6*35mm Cam Bolt x 46	C  Cam Lock x 46
D  3*12mm Screw x 60	E  3.5*12mm Screw x 10	F  4*40mm Screw x 21
G  4*35mm Screw x 20	H  6*20 mm Bolt x 2	I  x 5
J  x 2	K  x 8	L  x 1
M  x 1	N  x 4	O  3*14mm Screw x 2
P 		
Q  x 1		

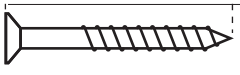

Tools required

Phllips screwdriver
(medium & large)

Ruler - Use this ruler to help correctly identify the screws

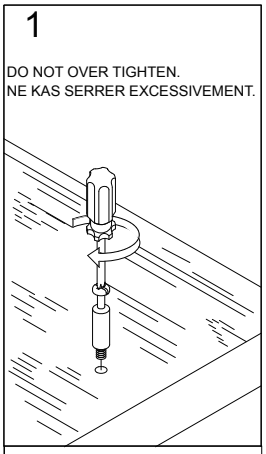

The screws length is measured from the head to the point (30mm screw shown).

Using Camlocks

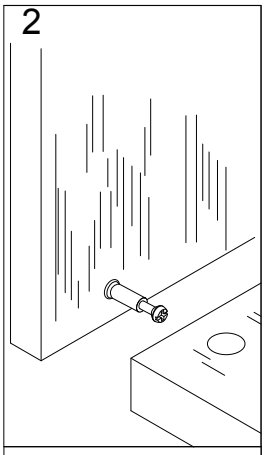

Step 1

Connect the male camlock as directed in the assembly instructions using a screwdriver.

Step 2

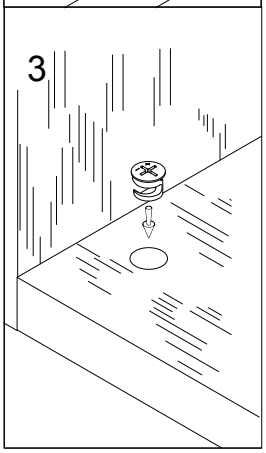

Push the male camlock into the entry hole.

Step 3

Insert the female camlock as shown in the instructions.

Note: ensure that the arrow on the top of the camlock points towards the entry hole for the male camlock.

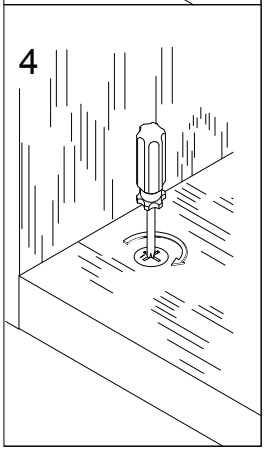

Step 4

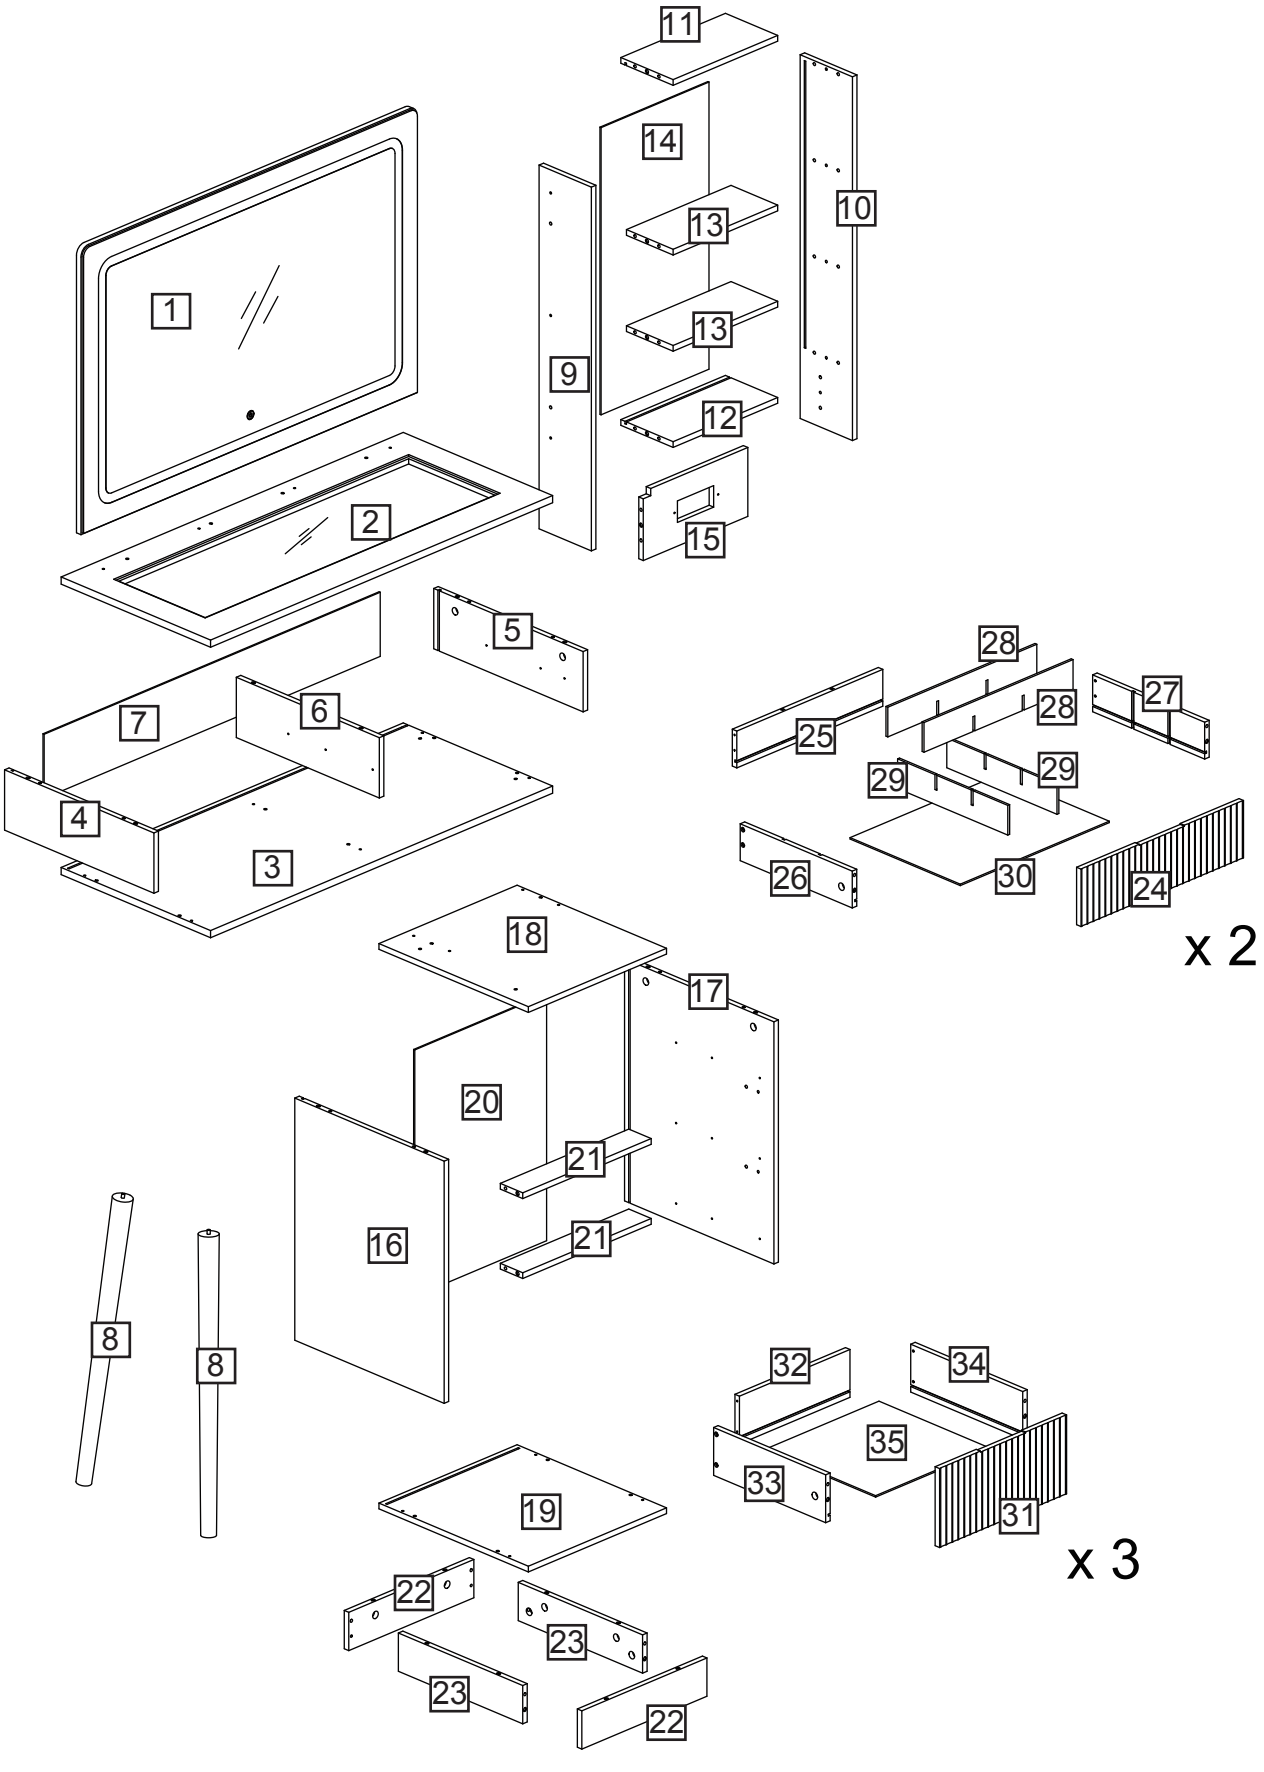

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

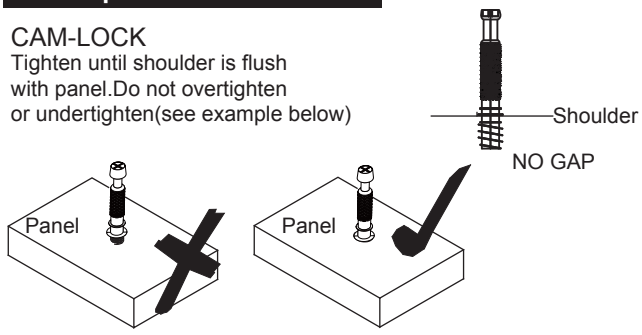

Assembly Instructions

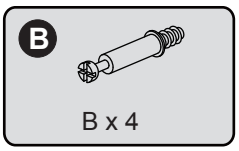

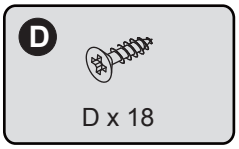

Assembly Instructions

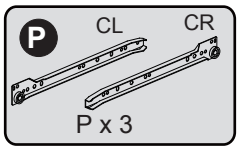

Step 1

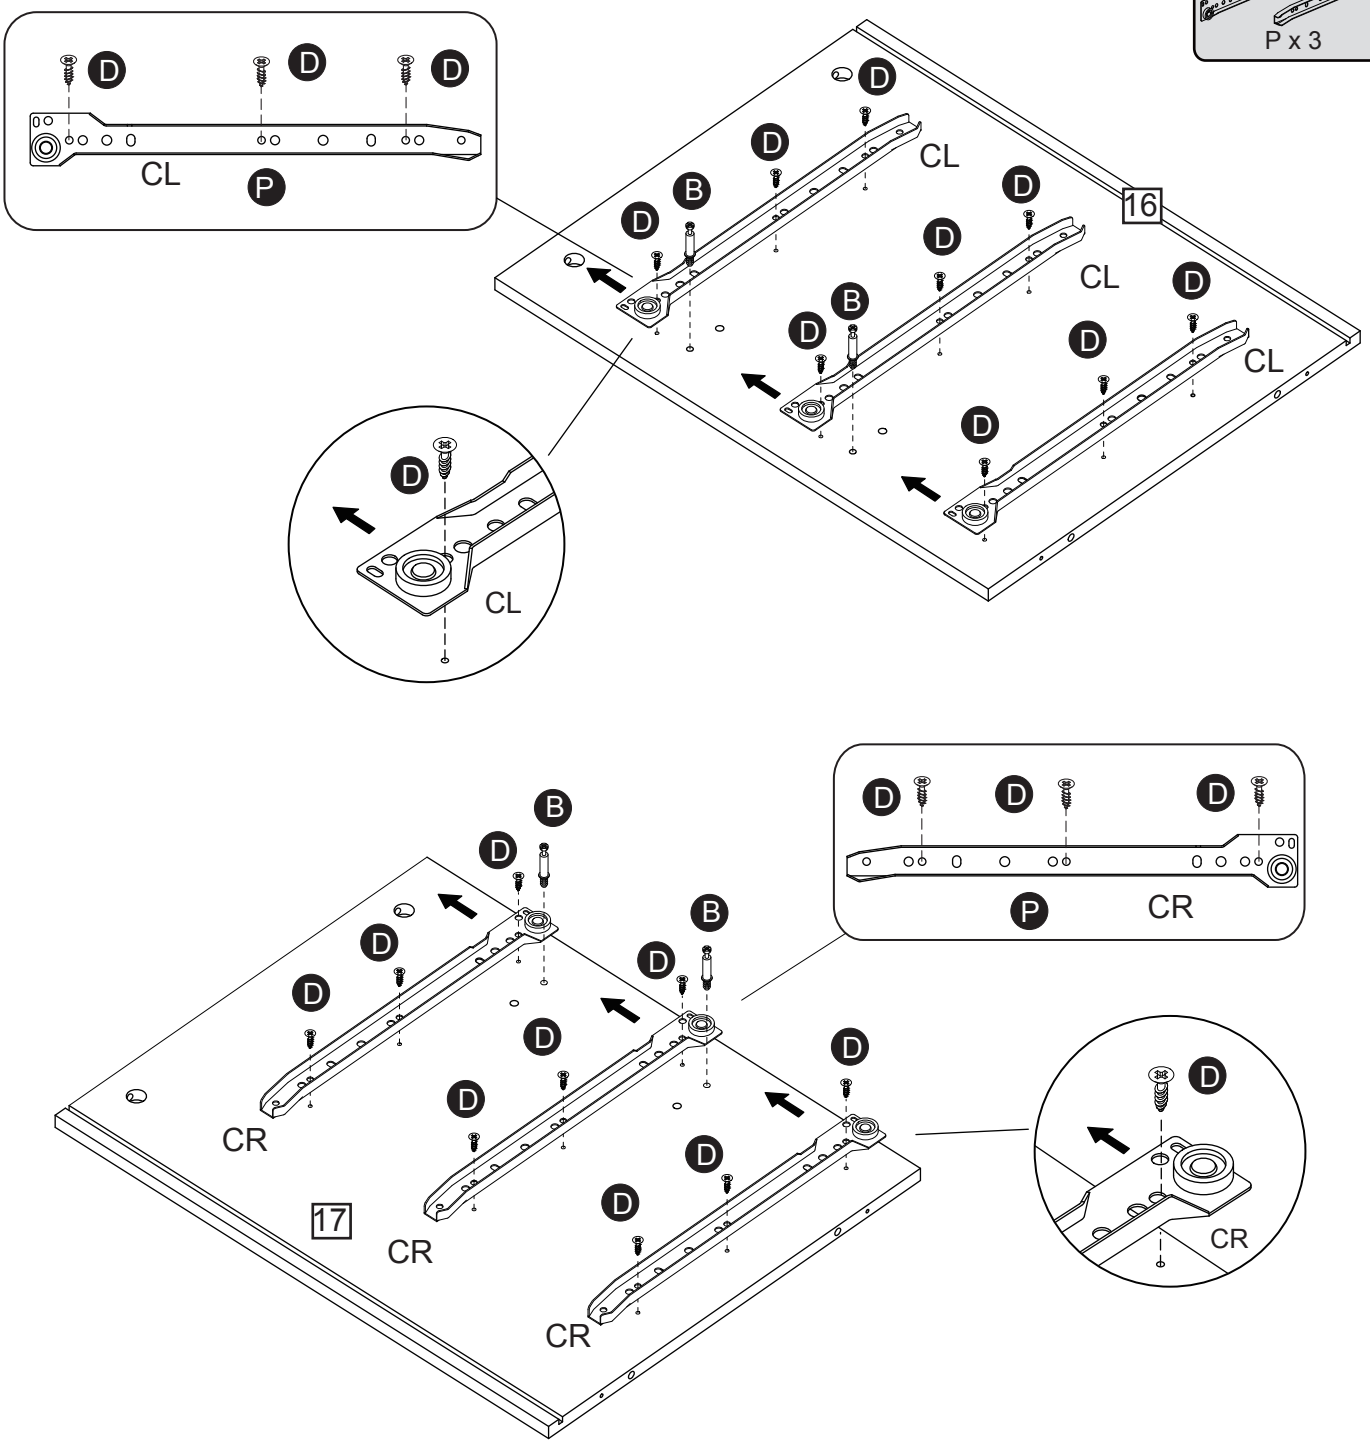

CAM-LOCK
Tighten until shoulder is flush
with panel.Do not overtighten
or undertighten(see example below)

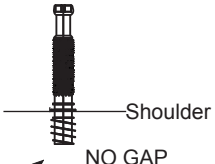

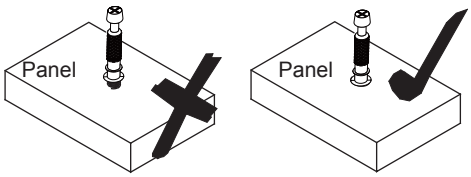

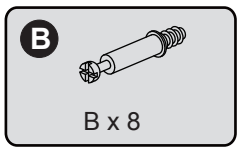

Assembly Instructions

or undertighten(see example below)

Step 19

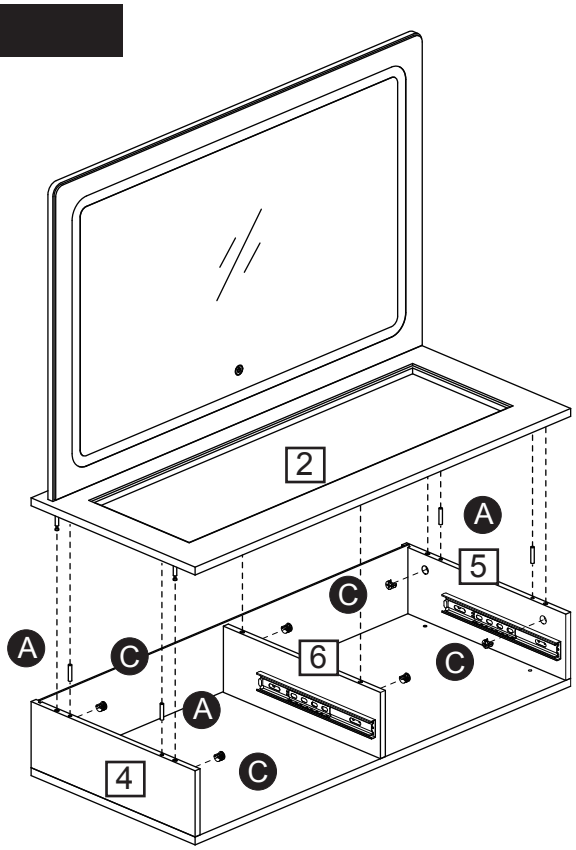

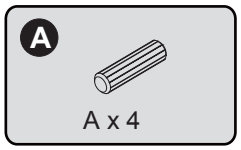

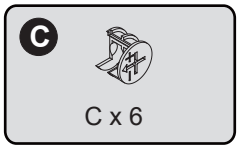

Assembly Instructions

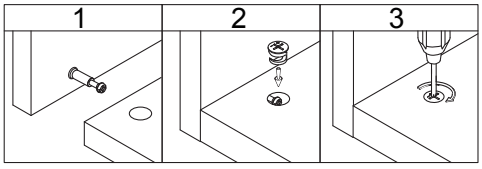

Step 20

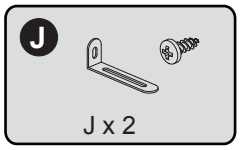

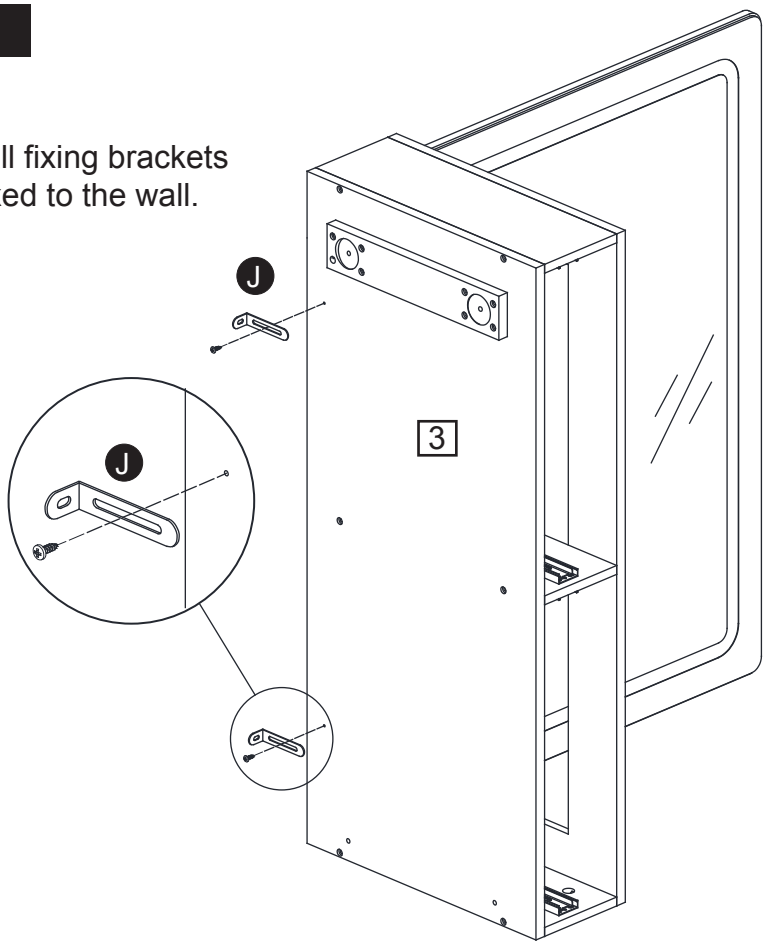

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

Step 21

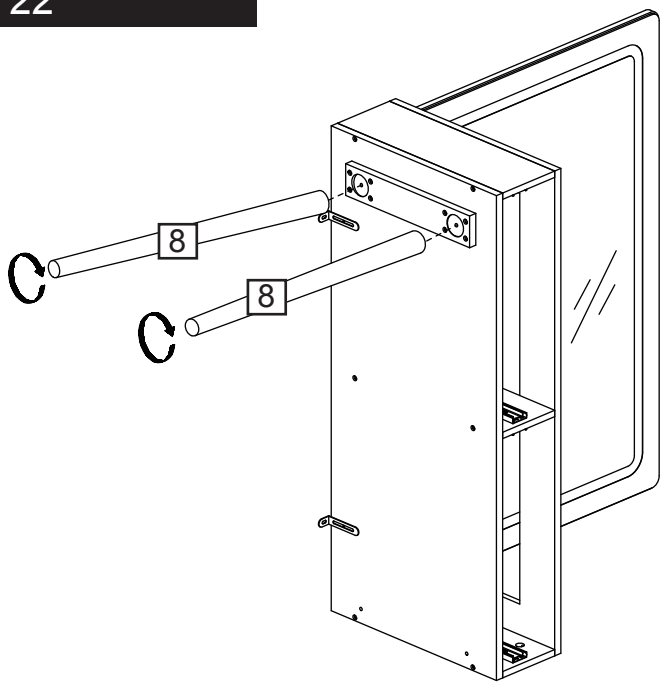

Do not fully tighten wall fixing brackets until it's ready to be fixed to the wall.

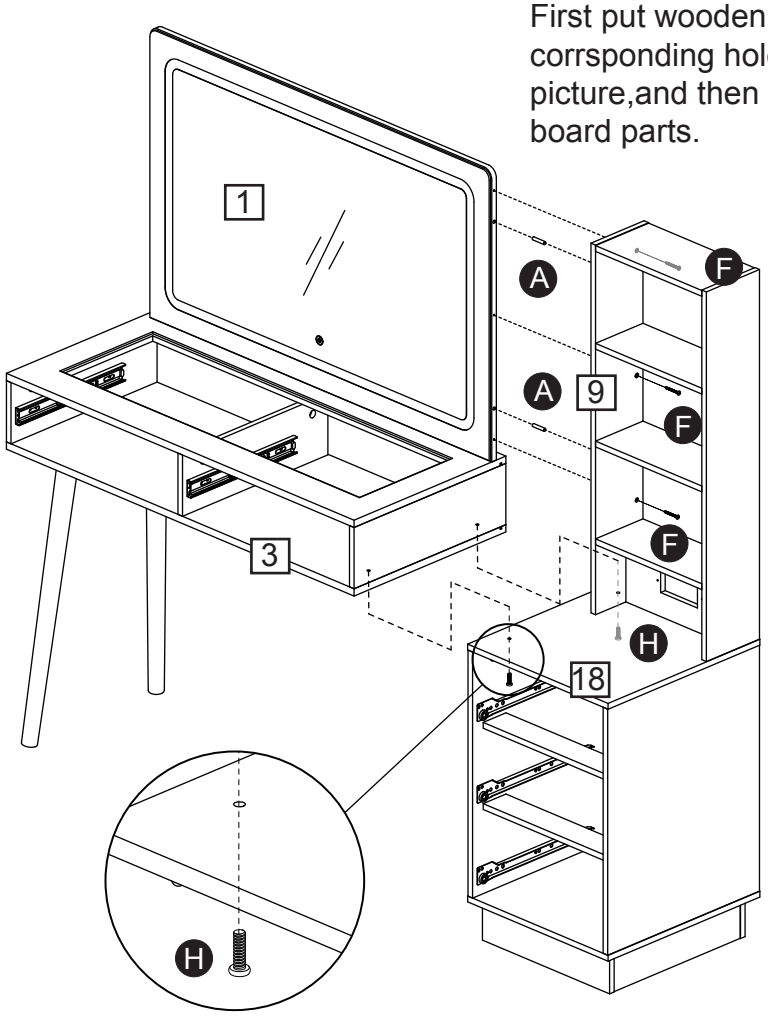

Assembly Instructions

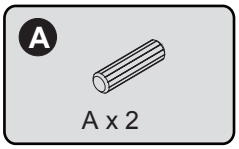

Step 22

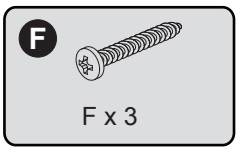

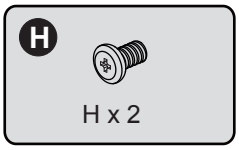

Step 23

First put wooden dowels into the corrsponding hole as shown in the picture,and then assemble the other board parts.

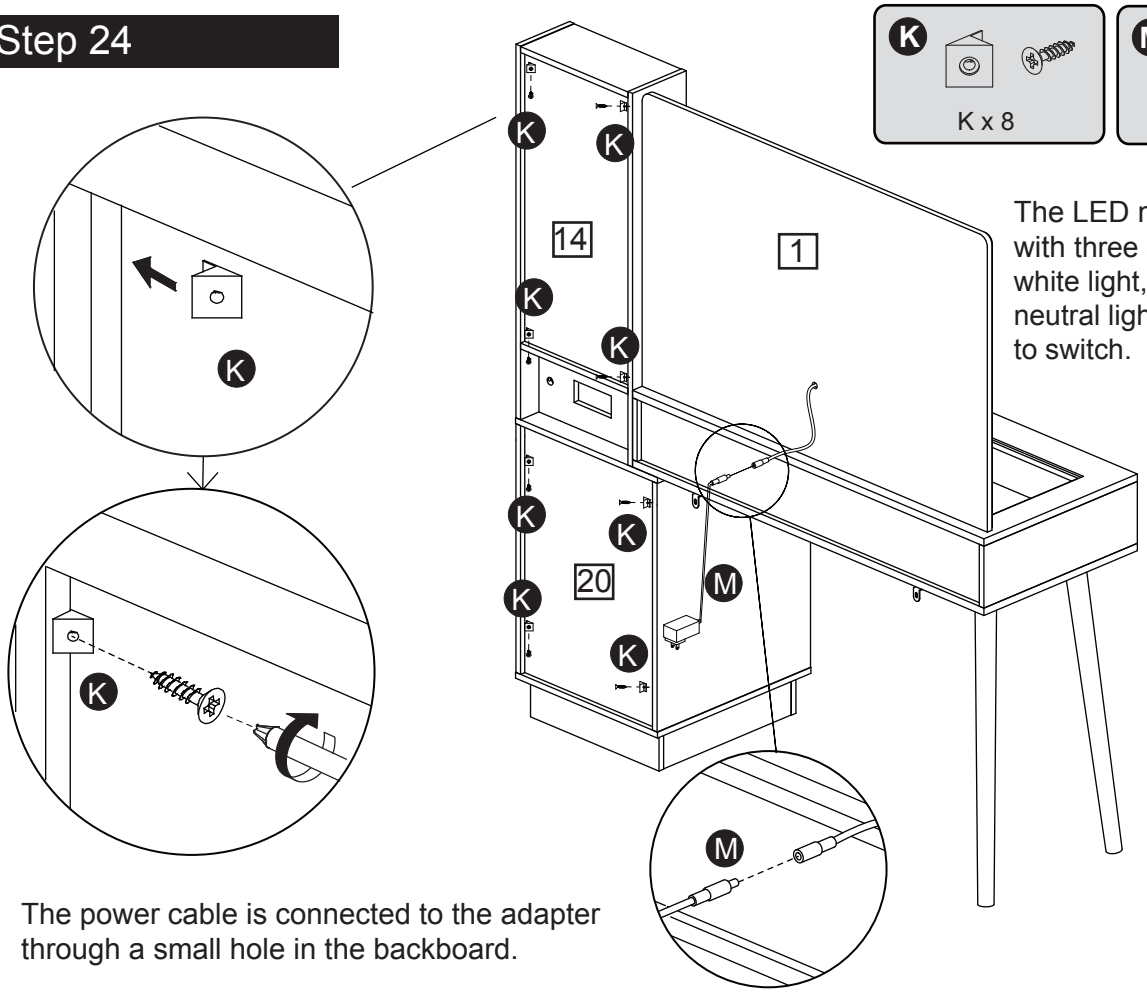

Try to find a partner to install with you, which can speed up the installation efficiency and shorten the time.

Assembly Instructions

Step 24

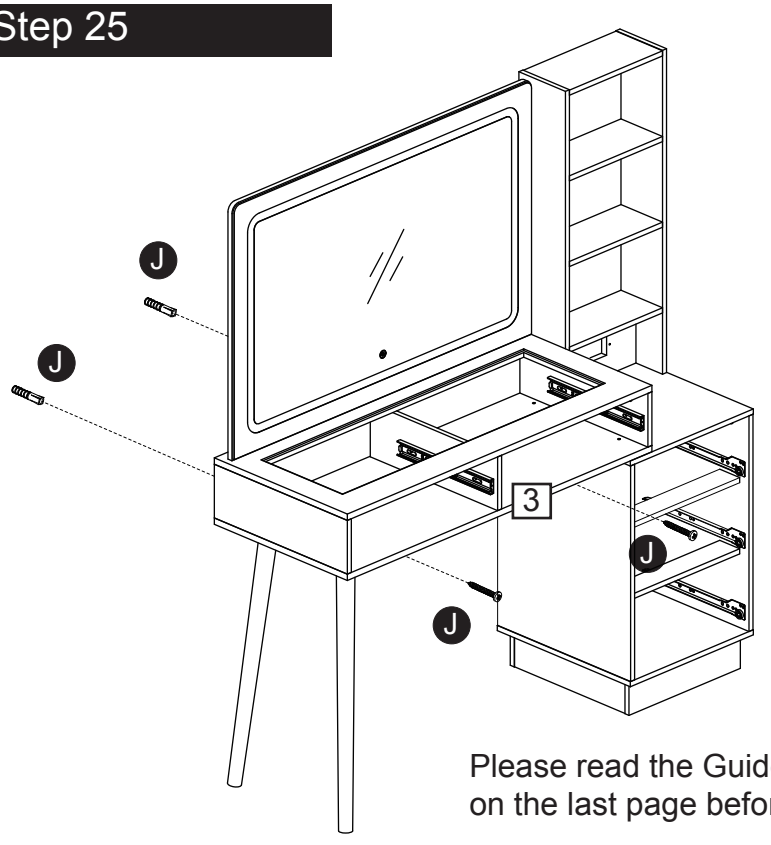

K x 8

M x 1

The LED mirror light comes with three colors of light: white light, warm light, and neutral light. Press button to switch.

The power cable is connected to the adapter through a small hole in the backboard.

Step 25

J x 2

The unit is floor standing, but it is recommended that the unit is secured to the wall.

1.Move the unit into desired position.
2.Mark the wall with a suitable scribe the position of the fixing holes.

Warning:
Before driling,check wall for hidden pipes and cables.

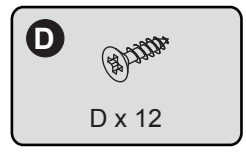

3.Drill holes and insert wall plug.
4.Attach Bracket(J) to the wall.

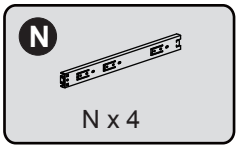

Please read the Guide to Wall Mounting & Fixings on the last page before excuting this step.

Step 31

Assembly Instructions

Step 32

⚠ It is highly recommended that the unit is secured to the wall. You can skip to the next step first, then come back to this step once the dresser is secured to the wall.

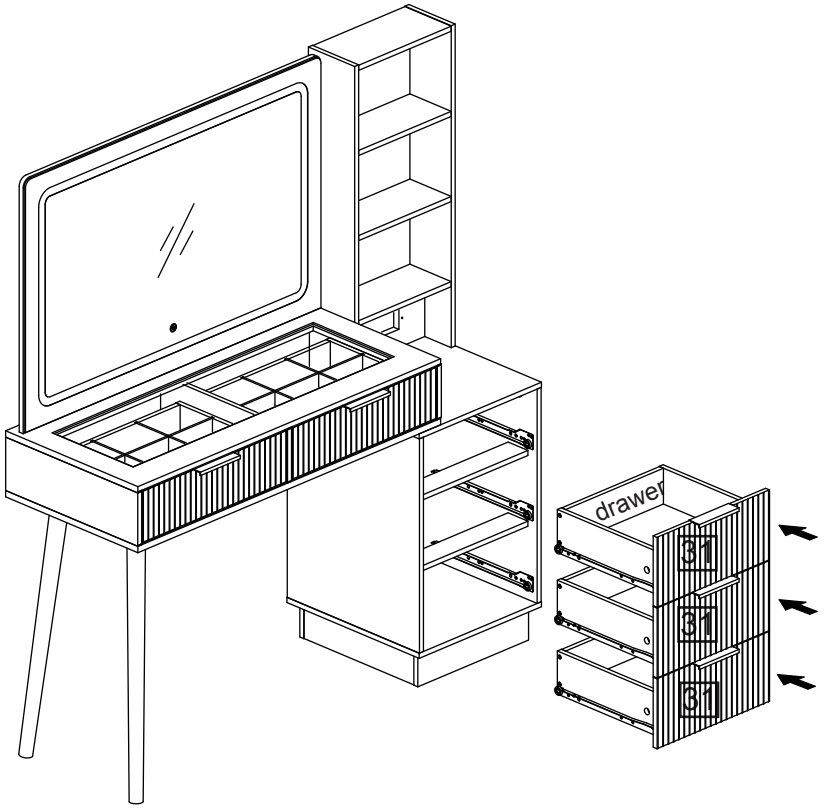

Attention:
1.Pull out the rail installed on the cabinet.
2.Align the slide runners on the drawer with the unit and push it carefully inside until it stops.

★If the drawer does not go in smoothly please take it out and repeat the steps.

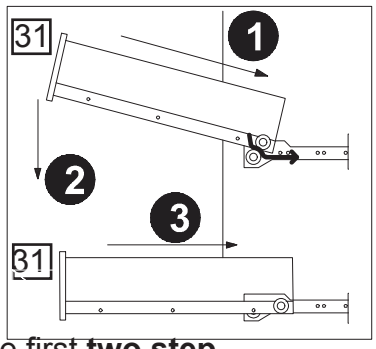

Assembly Instructions

Step 33

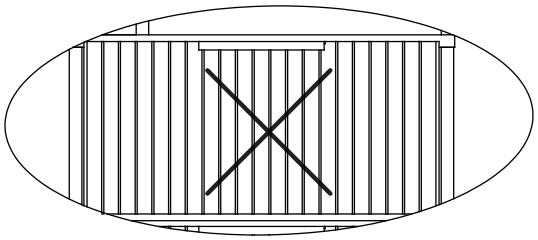

Congratulation! You've made to the last step! But don't be too thrilled yet, put on the drawer can be frustrating if you do it wrong. So, take your time and follow the steps below.

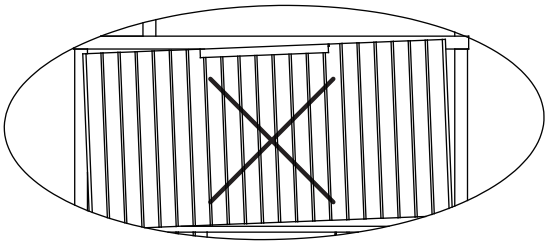

1.Please ensure that you have matched the wheels on BOTH sides of the drawer with the wheels on rails installed BEFORE push in the drawer.

2.If the following occurs, redo the first **two step**.

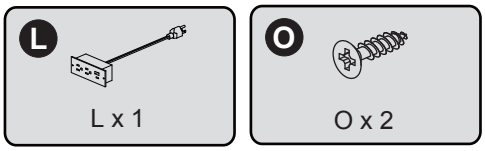

(both wheel are off the rails)

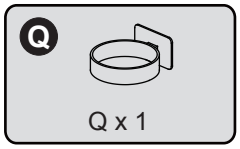

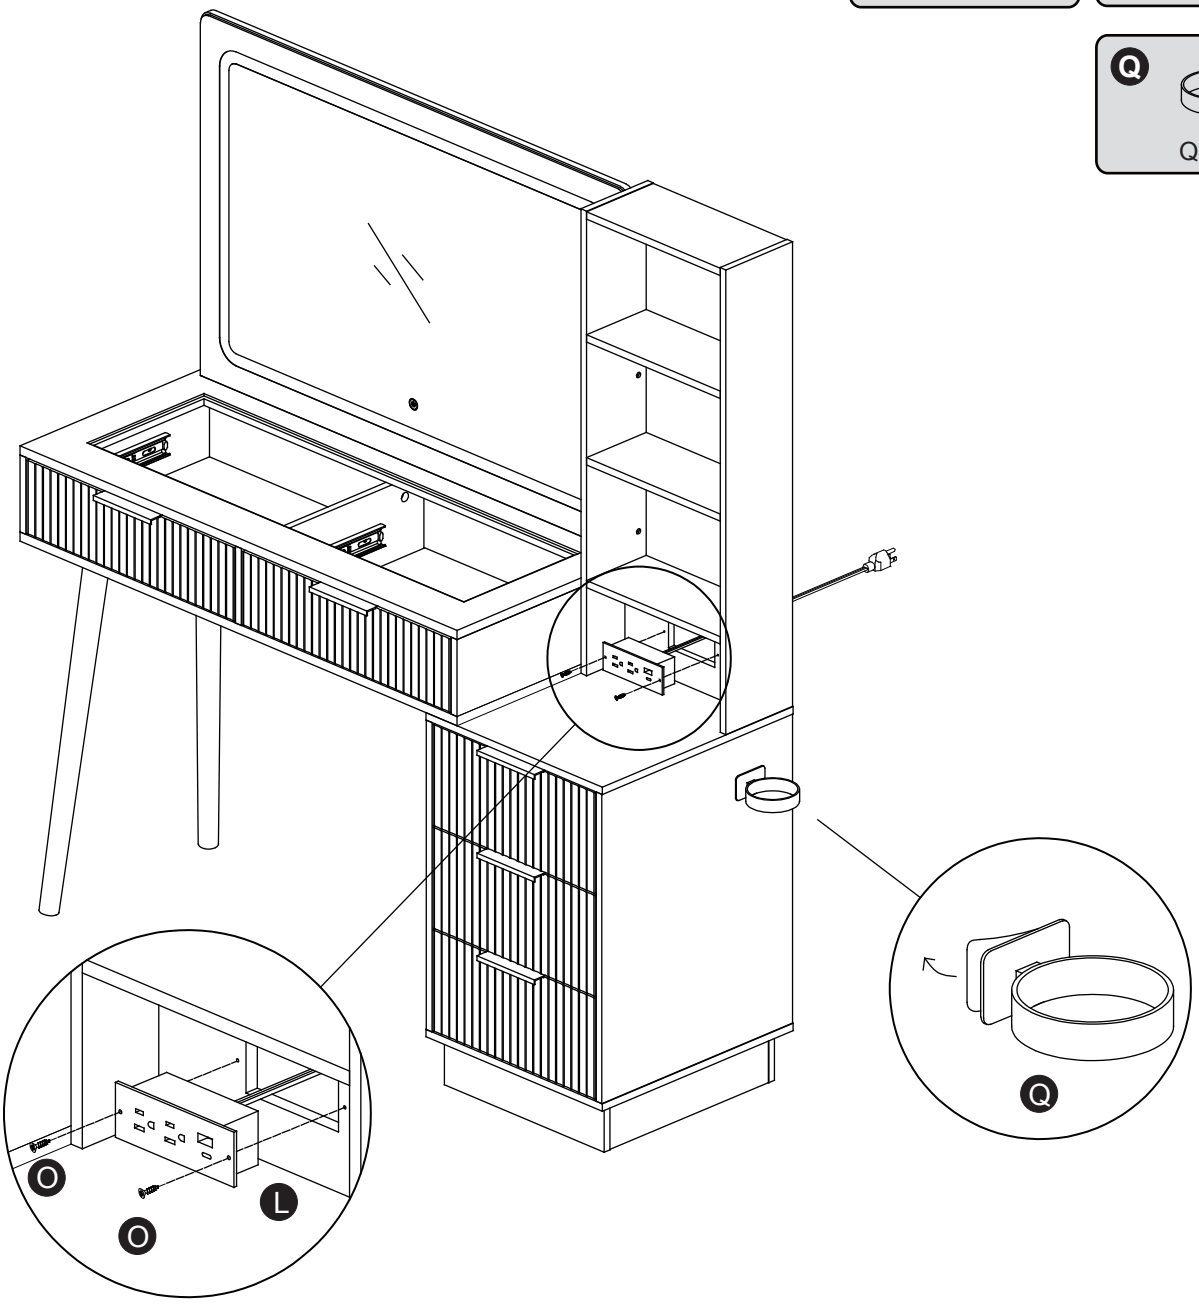

(one wheel is off the rail)

Step 34

A Guide to Wall Mounting & Fixings

Important note:

If plastic wall plugs (rawl plugs) are supplied with your product, e.g.:

- these are only suitable for use in masonry walls.

If you are in any doubt about the correct wall plugs for your wall, seek professional advice.

Failure of the product due to using the incorrect fixings is the responsibility of the installer.

Important: when drilling into walls always check that there are no hidden wires or pipes etc.

Make sure that the screws and wall plugs being used are suitable for **supporting your unit. Consult a qualified tradesperson if you** are unsure.

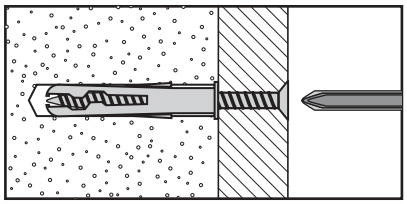

Hints:

1: General rule: always use a larger screw and wall plug if you are not sure.
2: Ensure you use the recommended drill bit to match the wall plug and hole size.
3: Ensure you drill the hole horizontally; do not force the drill or enlarge the hole.
4: Take extra care when drilling high walls, ceilings and ceramic tiles. Ensure wall plugs are inserted beyond the thickness of the ceramic tiles to avoid the tiles splitting or cracking.
5: Ensure wall plugs are well fitted and are a tight fit in the drilled hole.

Types of walls

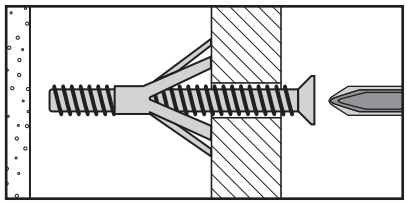

You can use one of the following types of wall plug if your walls are made of brick, breeze block, concrete, stone or wood.

No.1 "General Purpose" wall plug

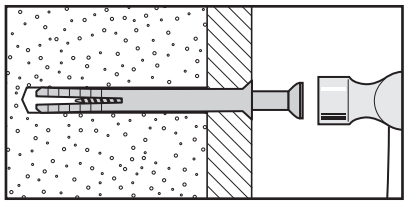

Generally aerated blocks should not be used to support heavy loads, use a specialist fitting in this case. For light loads, general purpose wall plugs can be used.

No.3 "Cavity Fixing" wall plug

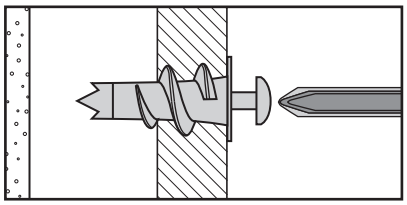

For use with plasterboard partitions or hollow wooden doors.

No.5 "Hammer Fixing" wall plug

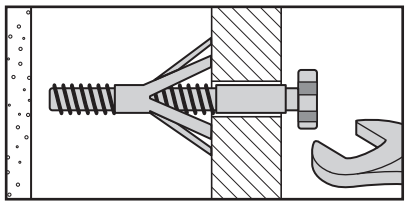

For use with walls stuck with plasterboard. The hammer fixing allows it to be fixed to the wall rather than the plasterboard. Always check the fixing is secure to the retaining wall.

No.2 " Plasterboard" wall plug

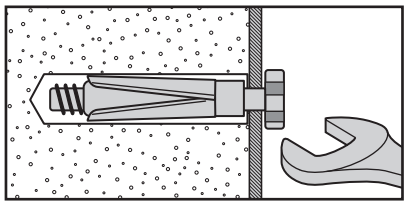

For use when attaching light loads onto plasterboard partitions.

No.4 " Cavity Fixing – Heavy Duty" wall plug

For use when fitting or supporting heavy loads such as shelving, wall cabinets and coat racks.

No.6 " Shield Anchor" wall plug – heavy loads

For use with heavier loads such as TV and HiFi speakers and satellite dishes etc.

Care & Maintenance

Safety: always check the fitting and location to ensure your safety in and around the home.

Fitting: from time to time check the fitting to ensure the wall plugs or screws do not become loose.
