

Ovente Electric Glass Hot Water Kettle 1.5 Liter with ProntoFill Technology The Easy Fill Solution (KG516 Series)

Key Features

FILL, BOIL, ENJOY...ALL WITH THE LID ON – Just fill it with water, boil, then enjoy a hot and delicious beverage.

PRONTOFILL™ LID – Pour water right over the lid for easy filling. It also has a convenient feature that keeps hot steam inside the kettle to avoid burning your hand.

1500-WATT HEATING POWER – boils up to 1.5L of water in under 7 minutes, cutting the waiting time significantly. It is also good for multiple servings making it perfect for large gatherings.

BOROSILICATE GLASS – Designed to resist extreme temperatures, making the kettle not only long-lasting but also easy to clean.

CONCEALED HEATING ELEMENT – Durable stainless-steel interior withstands extreme heat for safe operation while preventing limescale buildup.

STAINLESS STEEL FILTER – comes with an easy-pour spout that filters out residue while providing maximum control when pouring.

COOL-TOUCH HANDLE – Prevents burns and is easy to lift and pass around with a comfortable grip.

BOIL-DRY PROTECTION & AUTO SHUT-OFF – Automatically shuts off when the kettle is finished boiling or when there is no water in the flask.

360° ROTARY BASE WITH BUILT-IN CORD STORAGE – Allows you to rotate the kettle 360° and conceals the cord when not in use.

SLEEK, SAFE DESIGN – Designed to look great, save space and provide you with a convenient water-boiling solution. Manufactured to be 100% BPA-free to keep you safe from any potential harmful effects.

TWO-YEAR LIMITED WARRANTY – This Ovente kettle comes with a two-year limited warranty from the date of purchase from an authorized retailer. This
