Umbrauto Pickup Tent Manual Book

400*140mm front

3 Locate the tent tailgate straps [3].Slide the back 3 straps between the truck box and the tailgate (you may need to lift the tailgate). Locate the front straps at the end of the tailgate and connect to the corresponding back strap under the tailgate.

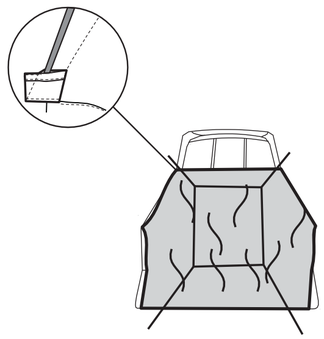

4 Assemble the tent poles by unfolding each section.

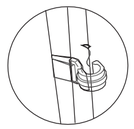

6

5 Insert the poles into 4 corresponding pockets.

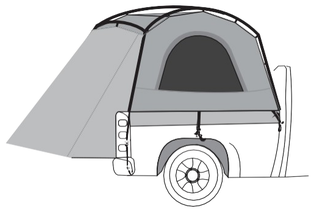

7

6 Once the tent is fully raised, attach all pole clips to the poles.

7 If the tent straps on the side of the truck are too loose, pull to tighten. Ensuring not to make them too tight.

2

CAUTION

- Do not use candles, matches, or open flames of any kind in or near the tent
- Do not cook inside the tent
- Build campfires downwind and several meters away from the tent. Be sure to fully extinguish fires before leaving a campsite or before retiring for the night
- Exercise extreme caution when using fuel-powered lanterns or heaters inside or around the tent. Use battery-operated lanterns whenever possible
- Do not refuel lamps, heaters, or stoves inside the tent
- Extinguish or turn off all lanterns before going to sleep
- Do not smoke inside the tent
- Do not store flammable liquids inside the tent
- NEVER run the vehicle engine when the tent is attached
- Do not install the tent when the temperature is below 0°C/32°F or when your vehicle is wet, it may cause damage
- Allow adequate ventilation inside the tent at all times
- Do not attempt to drive the vehicle with the tent attached

⚠ WARNING

- Keep all flame and heat sources away from the tent fabric. The tent is not fireproof. The fabric will burn if left in contact with any flame source. The application of any foreign substance to the tent fabric may render the flame-resistant properties ineffective.
- To prevent carbon monoxide from entering the vehicle and tent area, do not run the engine, do not cook inside the tent. and do not use a gas heater in the tent. Carbon monoxide is dangerous to your health.
- Engine must be off and exhaust must be fully cooled before tent installation and use.

TENT SET UP

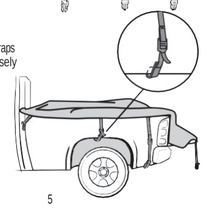

NOTE: Do not attach pole clips until all poles are in place in their pockets (step 7). Failure to do so will create too much tension and may cause pole to break.

!!! For an easier assembly, set the tent up on the ground, completing steps 1-3 at last.

1 Lay the tent flat inside the bed of the truck, ensuring the front door is at the tailgate.

2 Locate the tent side straps (3 per side) and loosely attach each to the truck's body.
