Safety and Care Advice

Important – Please read these instructions fully before starting assembly

Check you have all the components and tools listed.

Remove all fittings from the plastic bags and separate them into their groups.

Keep children and animals away from the work area, small parts could choke if swallowed.

Make sure you have enough space to layout the parts before starting.

Assemble the item as close to its final position (in the same room) as possible.

Do not fully tighten bolts until the chair is assembled.

Do not overtighten the nuts to avoid causing damage to the threads.

We do not recommend the use of power drill/drivers **for inserting screws**, as this could damage the unit. Only use hand screwdrivers and Allen keys.

Care and maintenance

Only clean using a damp cloth and mild detergent, do no use bleach or abrasive cleaners.

From time to time check that there are no loose screws on this unit.

This product should not be discarded with household waste. Take to your local authority waste disposal centre.

Assembly Instructions

Step 2

Assembling seat pad

Turn the chair upright. Either sit on or place a weight on the top of the chairs until all feet are level.

Proceed to tighten all bolts to finish assembly.

Get someone to sit on the chair to make all the feet level. It is best to fully tighten all bolts while someone is sitting on the chair to ensure there is no issue with uneven legs.
