# Dining Chairs Instruction Manual

## Please read

1. Do not discard any packaging materials until you are certain that all parts and hardware are included.
2. Please dispose of all packaging materials in a safe and environmentally responsible manner.
3. During assembly, do not fully tighten any screws. Tighten all screws to approximately 50% first.
4. After all parts have been assembled and the chair is properly aligned, fully tighten all screws.
5. Place the chair on a flat surface and ensure it is stable before completing the final tightening.

## Caution

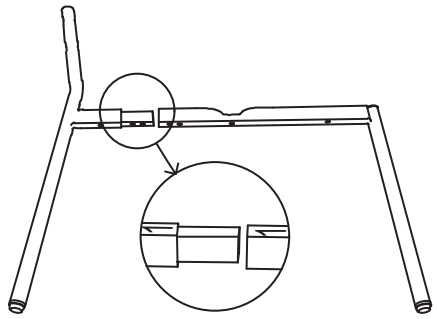

- Never stand on the chair.
- Do not use the chair as a ladder.
- Check all screws every 6 months and retighten if necessary.
- Keep children away during assembly.
- Place the chair on a flat and stable surface before use.

# Usage Troubleshoot

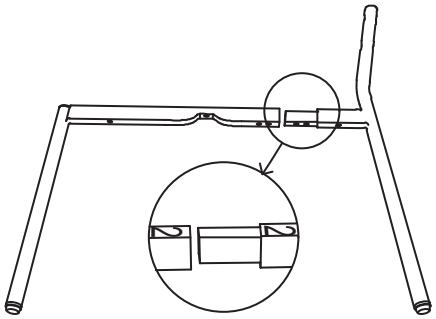

- If the upholstery is torn, stained, or damaged upon arrival, please contact us for a replacement part or appropriate assistance.
- If the chair frame or legs are bent, cracked, or damaged during shipping, please contact us for a replacement part or further support.
- If any hardware or parts are missing, please contact us and provide a photo of the package contents. We will arrange a replacement as soon as possible.
- If the chair feels unstable or wobbles after assembly, please ensure all screws are properly tightened and adjust the foot caps at the bottom of the legs to improve stability.
- If the chair remains unstable after adjustment, please contact us for assistance.
