

## Hardware:

Nail x 2 PCS

Tips: The nail is only suitable for the garden floor, not suitable for the concrete floor.

## IMPORTANT! PLEASE RETAIN THIS INSTRUCTION FOR FUTURE REFERENCE: READ CAREFULLY

### INSTRUCTION FOR USE

- Check carefully that you have all parts and make sure all parts are undamaged before use.
- Please retain all packaging until you have checked that you have all the parts.
- Keep fittings out of children's reach and keep children well away from the construction area.
- Turn on the button when you use the product.
- This product consists of a solar cell, rechargeable battery and LED light source. During the day, light from the sun charges up the battery. At night, the energy stored in the battery is used to power the light. No other power or connections are required. Auto light up during night gives up to 6-8 hours under fully charging.
- To maximize battery capacity, the solar light should be fully charged by sunlight for 5-8 hours before initial use.
- Ensure the product is placed where sunlight can fall directly on the panel for fully charging. Shadows from building, trees and similar objects should be avoided if possible, as these will reduce performance.
- Remove other light sources (e.g. street lights) or keep the product away from other light sources. If other light sources are too close to the product, this might prevent the product from switching on automatically at night.
- The product is for domestic use only.
- The product is not intended for commercial use.

### PRODUCT SPECIFICATION

Battery: 1x Ni-MH 1.2 V 1500mAh AA rechargeable battery included.

### WARNING

- FAILURE TO FOLLOW THIS INSTRUCTION AND WARNING MAY RESULT IN SERIOUS INJURY.
- Always keep out of reach of children from all packaging and small parts. There is a risk of suffocation that children might place packaging over their heads or swallow any small parts.
- Keep battery away from children and pets.
- Batteries are harmful if swallowed. Swallowing may lead to serious injury or death in as little as 2 hours due to internal burns. If swallowed, go straight to a hospital emergency room.
- Do not leave children unattended. Do not climb or lean on the product. The product could be imbalanced and tip over resulting in injury and/or damage.
- Always use the product on solid even floor and ensure all legs remain in contact with the ground.
- If the product is broken or damaged, discontinue use immediately.
- Keep away from naked flame, gas and electrical heaters, candles or other similar sources.
- LED bulbs cannot be replaced. Do not attempt to remove bulbs.
- Keep the product away from strong winds and storms and store it indoors.

## **CLEANING & MAINTENANCE**

- Please clean the product especially for the solar panel with damp cloth regularly. Dirt on solar panel will prevent the batteries from fully charging.
- Never use any abrasive cleaning agents.
- Check regularly all parts and joints are tightened securely and in place.
- Check the button regularly to ensure it is functional.
- It is recommended to use furniture cover (not provided) to cover the product when it is not in use to protect the surfaces against dirt and rain.
- If store the product indoors for few days, please keep the product dry at room temperature and store it where it can receive sunlight or artificial light every day. The battery requires light to maintain its charge capacity.
- If store the product indoors for long period, it is recommended to recharge and discharge the battery once a month to maintain its charge capacity.

## **BATTERY USAGE**

- Do not dispose of batteries in the fire
- Failure to follow these instructions may cause the batteries to explode or leak.
- Disconnect from the power supply before cleaning

## **IMPORTANT CUSTOMER NOTICE**

- Keep the original purchase receipt with this instruction for future reference.
