Roman basin soft plastic cedar tree Instruction Manual

Note: The steps in this manual apply to all Roman Basin soft plastic cedar trees.

User Guide

Care & Use.

Use a soft, clean cloth that will not scratch the surface when cleaning

1 First

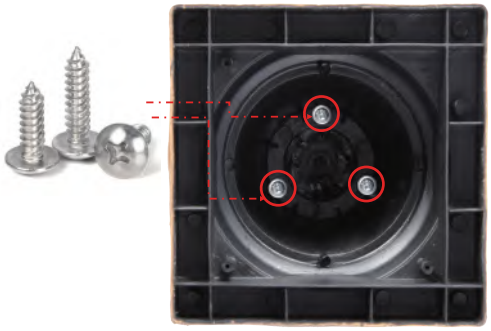

Open the box and untie the securing ropes. Remove the planter and tree from the box.

2 Then

Lift the upper pot, align the bottom protrusion vertically with the black interface on the base, then press down smoothly.

3 Then

f it feels unstable, use the included three screws to secure the base.

4 Then

Follow the diagram to assemble the various parts of the plant step by step.

Precautions

Refer to the picture to adjust the shape of the branches and leaves to achieve the desired fullness.

Warning ⚠

Keep out of reach of children to prevent accidents.
