APP OPERATION STEPS:

1. Scan the QR code to download the APP or search "Impressions Glow" in the APP store

2. Before using the smart light "Impressions Glow " APP, please connect the mirror to a power source and turn on the bluetooth setting on your phone.

3. The bluetooth name of the mirror is " RGBW LED".

4. Open the " Impressions Glow" APP, your device will connect with the smart light enabled mirror automatically. Tap the icon in (fig 1) to check the status of the connection. If you have multiple mirrors connected, they will be shown in (fig2).

5. Enjoy your Smart Light enabled mirror!

** Every mirror has a different serial number. When there are several smart light enabled mirrors powered on, the APP can connect with and control multiple mirrors at the same time. If you do not wish to connect with the other mirrors at the same time, please power off those mirrors.**

ADDITIONAL FEATURES AND CUSTOMIZABLE FUNCTIONS AVAILABLE WITH THE APP

• Color & Brightness

24.5"

WALL MOUNT INSTRUCTIONS:

1. Tools required: ruler, electric drill, hammer, screwdriver & pliers

2. Find a suitable strong wall and the best location for the mirror. Measure the distance between the two hooks (approximate distance is 8.6 inches) and mark the positions on the wall.

3. Drill a hole into the wall that is about the same diameter as the plastic expansion anchor.

4. Gently hammer the plastic expansion anchors into drilled holes in the wall. Hammer until anchor is flush with the wall.

5. Use a screwdriver to drive in the screw, stop when it feels snug.

6. Point the hook at the screw and hang the mirror on the wall. Please verify mirror is hanging securely.
