Iridescent Lighted Reindeer

Illustrated assembly guide

MODEL JL-9988

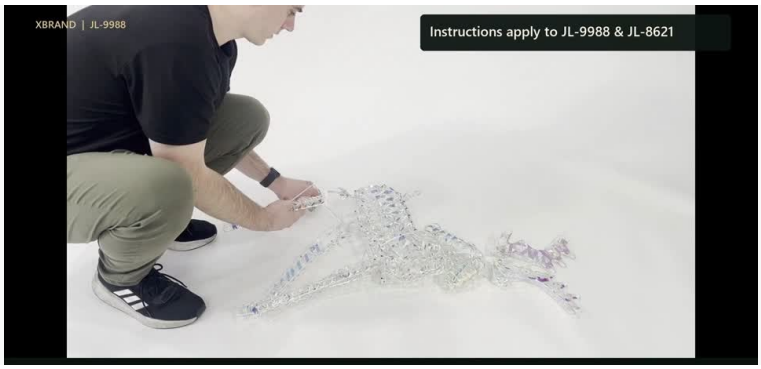

Finished dimensions
Heights: 37.4 in

Keep the lights off and remove the batteries while assembling the frame. Install batteries only after the frame is secure.

Instructions apply to JL-9988 and JL-8621. Assembly photos show the iridescent JL-9988.

Before you begin

Arrange the components on a clean surface. Reindeer body frame, head, antlers, attached LED lights and battery pack. Requires 3 AA batteries (not included).

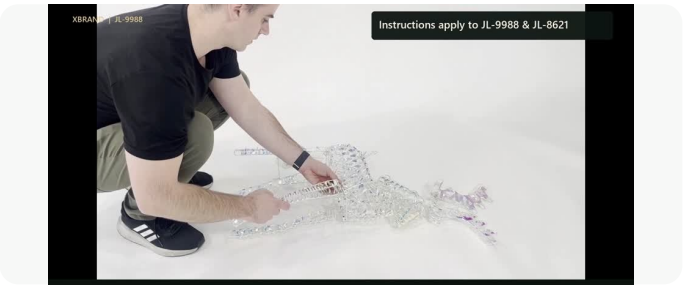

Keep these instructions for reference. Do not pull on the light wires when attaching the decorative parts.

Assembly sequence

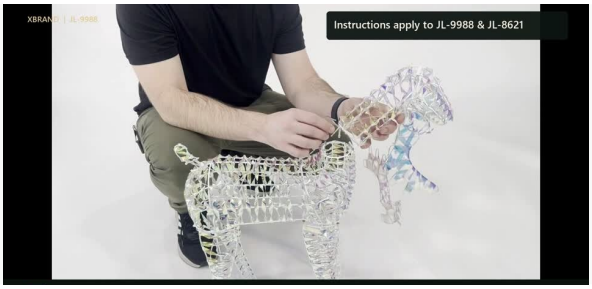

Follow the numbered steps. Check each frame and cord connection before applying power.

1 Assemble the body

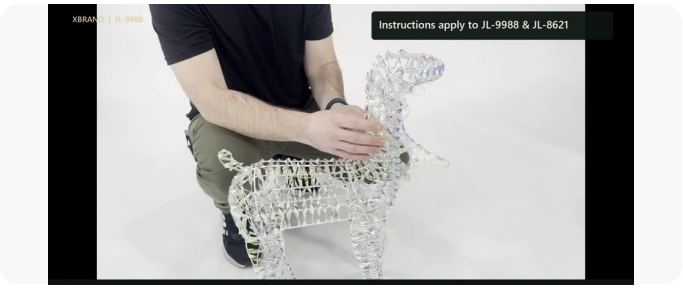

Open and secure the body frame connections as shown. Keep the light wires clear of the joints.

2 Hook the forked front first

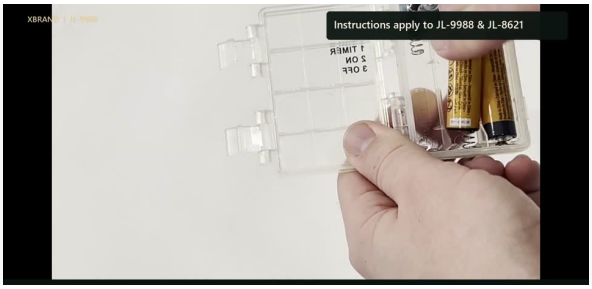

Hook the forked piece at the front of the neck onto the body first. Keep this front connection engaged while positioning the rear.

3 Insert the rear stake

Align the rear neck stake with the hole in the body, then insert it. Fit the antlers into their matching connections as shown.

4 Install 3 AA batteries

Open the battery cover. Insert three AA batteries following the + and - markings inside the holder. Close the cover securely.

Assembly sequence

Follow the numbered steps. Check each frame and cord connection before applying power.

5 First press: daily timer

Press the battery-pack button once. Lights stay on for 6 hours, then off for 18 hours. This cycle repeats automatically.

6 Second press: always on

Press the same button again for continuous light. The lights remain on until you change the setting.

7 Third press: off

Press the button a third time to turn the lights off.
