CAPRI

42,000btu's

PRODUCTdescription

The CAPRI A-LINE AL6MPS Commercial Propane Flame Patio Heater in Stainless-Steel. The R-LINE series includes upgraded features, hardware, and finishes. Upgraded Solid Steel & Aluminum 8 ft. triangular structure and single-piece protective steel grills with cool to touch feature. The signature 3-foot adjustable **“Column of Flame”** provides 360-degrees of heat distribution and is encased by a weather proof Borosilicate glass tube. This unit produces **42,000btus** for up to 10 hours with Propane Tank to an area of 25square feet. This unit does not include remote but features **Touch-to-Start electronic ignition** and Tilt Switch Auto-Shutoff for safe, simple, and efficient use. The patented latching door allows easy access to units' burner assembly. Available in premium finishes and additional accessory options makes this R-Line a need for your outdoor venue.
