CUSTOMER SUPPORT

Dear customer

Thank you for your purchase.

This product is a non-permanent outdoor structure designed and manufactured for personal use rather than commercial use.

Please confirm whether the installation is permitted in your states firstly.

1. When you receive the product, please make sure that all the boxes have arrived, and all the parts are intact.
2. Please browse the entire installation manual before assembling, retain this instruction manual for future reference.
3. If any problem occurs unsatisfactorily as follows:
 - Lack of boxes, or some boxes are not arrived.
 - The outer box is damaged.
 - The product is damaged / bent / cracked while you open the box.
 - The parts / accessories / assembly tools are missing.
 - The product is hard to assemble.
 - The instructions are not clear, or hoping for assistance with installation.
 - The product has functional problems.
 - The product did not meet your expectations.
 - Other aspects that you are not satisfied with.

Please feel free to contact us for help firstly. If there is any damage, please send us clear photos. We will check and do our best to provide the best solution for you. The missing or damaged parts will be delivered to you within 5 days.

PARTS

CARTON: A

Q	Roof cloth		1
R	Wrap ties		1
S	M8x20 Screw		16
T	Metal clip		16
U	Ground Nail		8
V	Manual		1
W	Wrench		1
Y	Self-Tapping Screw		10
Z	Socket		1
	Glove		1

Step 1**Step 2**

- Repeat this step twice for the top and bottom frame

Step 3

Step 4

Step 5

Step 6

When installing (P) bracket, do not lock the screw first. It can be locked only after it is adjusted according to the width of the door.

Step 7

Step 8

The 8 ground nails can prevent the dog from moving when hitting the cage.

Step 9

Two persons together

Two people are required to install the net. Be careful when the net is unfolded. The edge interface of the net is sharp and you need to wear gloves.

When installing the net, first bind one end of the net to tube 5 with a tie, wrap the net on the frame, and bind tube 2 with a tie until the net is completely unfolded, and bind the other end to tube 2.

Steel bar

K

2

The mesh maybe too long. Wrap the excess part behind the tube 2, then secure it with cable ties.

less steel strap in the middle of the two ; straps makes the mesh more secure.

Step 10

Install the door frame.

Lock it with (Y) self-tapping screw to make it more firm

Step 11

The door mesh might be too long. Wrap the excess part behind the tube A, then secure it with cable ties.

Two Stainless Steel Cable Ties are rolled with plastic ties or iron wire ties in the middle,

When packaging, bundle L and K together.
However, during installation, they need to be separated.

Step 12

The net shall be tensioned up and down, and shall be fastened with ties around.

A stainless steel strap in the middle of the two plastic straps makes the mesh more secure.

Step 13

Install the rain cover one the top of the dog run. Then a beautiful dog kennel with cover is finished.
