

# VANITY TABLE

## INSTALLATION MANUAL

This is a unified installation manual of (small-sized) vanity table, suitable for three versions: simple, basic, and luxury.

**Simple version:** without mirror light, built-in socket, and hair dryer bracket, therefore there is no mirror light power plug, built-in socket(K), and hair dryer bracket(L) in the accessories.

**Basic version:** with mirror light, without built-in socket, hair dryer stand. Therefore, there is no built-in socket(K) and hair dryer stand(L) in the accessories

**Luxury version:** with mirror light, built-in socket, hair dryer stand, therefore, all illustrated accessories are included.

Also note that:

1, Every hole on every board is useful, either a nut needs to be inserted or a screw needs to be inserted, and no hole is redundant.

2, There are marked points where the track needs to be fixed. Please use screw D to fix the track at the marked points.

3, Screw C is a drawer positioning pin to prevent the drawer from falling out when opened. Please confirm that all positioning screws C have been installed when the installation is completed.

For vanity table with light

If your vanity table include a LED mirror light, please test the light in this step. Touch the switch button on the mirror to turn on the mirror light, click the switch button to change the color of the light, and long press the switch button to adjust the brightness. If the switch button is not sensitive, you can check whether the touch switch is tightly attached to the mirror back as shown in the diagram. If it is not tightly attached, please use your fingers to press the touch switch to the designated position and check if the connecting wire is OK.
