

ASSEMBLY & CARE INSTRUCTIONS

PXJFOT148KK

SIZE

Overall Dimensions: 14.8 X 14.8 X 9.2 ft (4.5 X 4.5 X 2.8 m)

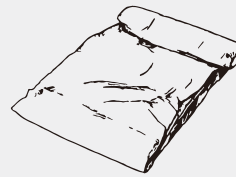

(Distance Between Opposite Sides)

PARTS LIST

Storage Bag x 1

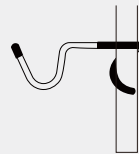

Tent Body x 1

Center Pole x 1

Ground Stakes x 16

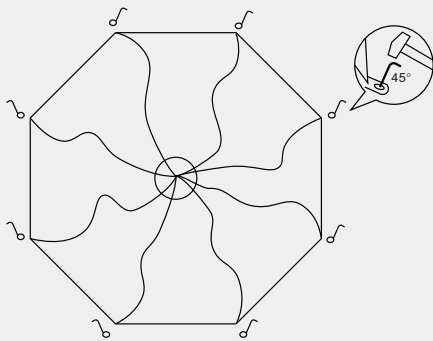

Hook x 1
(Hanging on the central pole)

Side Pole x 8

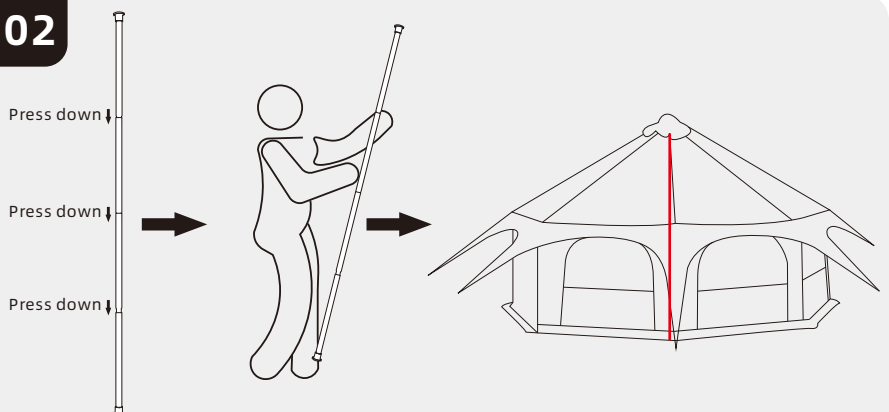

INSTALLATION STEPS

01

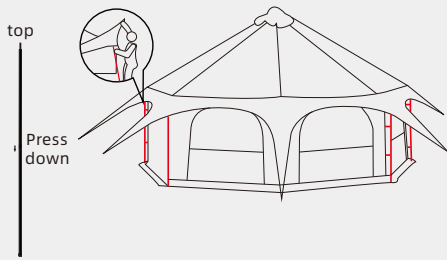

Unfold the tent and position the entrance in the desired direction. Locate the eight base attachment points and loosely secure each point with a stake. Drive each stake into the ground at approximately a 45° angle, facing away from the tent. Do not fully tension the tent at this stage.

02

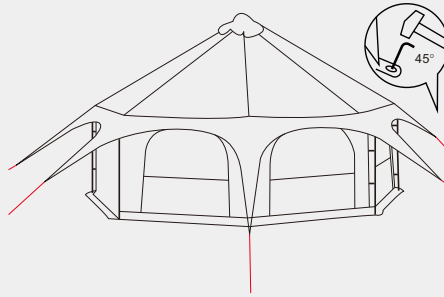

Connect all center pole sections and make sure each joint is fully locked. Carry the assembled center pole into the tent and insert the upper end into the reinforced center pocket. With two adults working together, slowly raise the center pole until it is vertical, then place the lower end at the center positioning point on the tent floor.

03

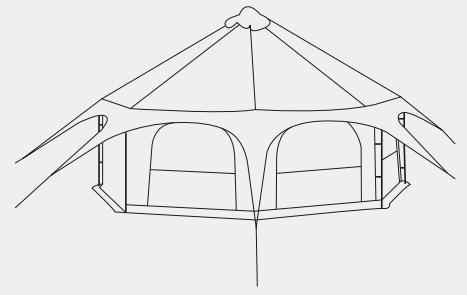

Assemble the eight side pole sets. Install the side poles in opposite pairs to keep the tent balanced.

04

Pull each guy strap outward and secure it with a stake. Drive each stake into the ground at approximately a 45° angle, facing away from the tent. Adjust all straps evenly and do not overtighten.

05

After assembly, confirm that the center pole is vertical, all pole joints are locked, the side poles and stakes are secure, and all guy straps are evenly tensioned. Make sure all doors and zippers open and close smoothly.

SAFETY·TAKEDOWN·CARE

IMPORTANT SAFETY

At least two adults are required for installation and disassembly

Prohibited for use in strong winds, thunderstorms, heavy rain, and snowy weather

Keep away from open flames, heaters, barbecue grills, and stoves, and do not cook inside the tent

Tents are not permanent buildings and are not suitable for long-term construction or unattended periods of time.

OTHER SAFETY RISKS: Watch for guy lines and stakes. Supervise children. Check for underground utilities before staking. Beware of carbon monoxide poisoning.

SAFE TAKEDOWN ORDER

1. Loosen guy straps
2. Remove outer stakes
3. Remove side poles in opposite pairs
4. Two adults lower center pole
5. Remove base stakes
6. Dry before folding

CLEANING & STORAGE

1. Spot-clean with mild soap
2. No machine wash / bleach
3. Air-dry completely
4. Keep zippers clean
5. Store poles and stakes separately
