Assembly Instruction

It is important to note that, given the compression sofa requires a 72-hour recovery period, if it fails to fully restore during this timeframe, please provide both photographic and video evidence showing the rebound condition at two distinct time points: 6 hours and 72 hours after unsealing the compression packaging.

Please be advised that if the submitted evidence does not clearly include observations from both time periods, we regret that we will be unable to proceed with any after-sales service.

Return & Warranty policy:

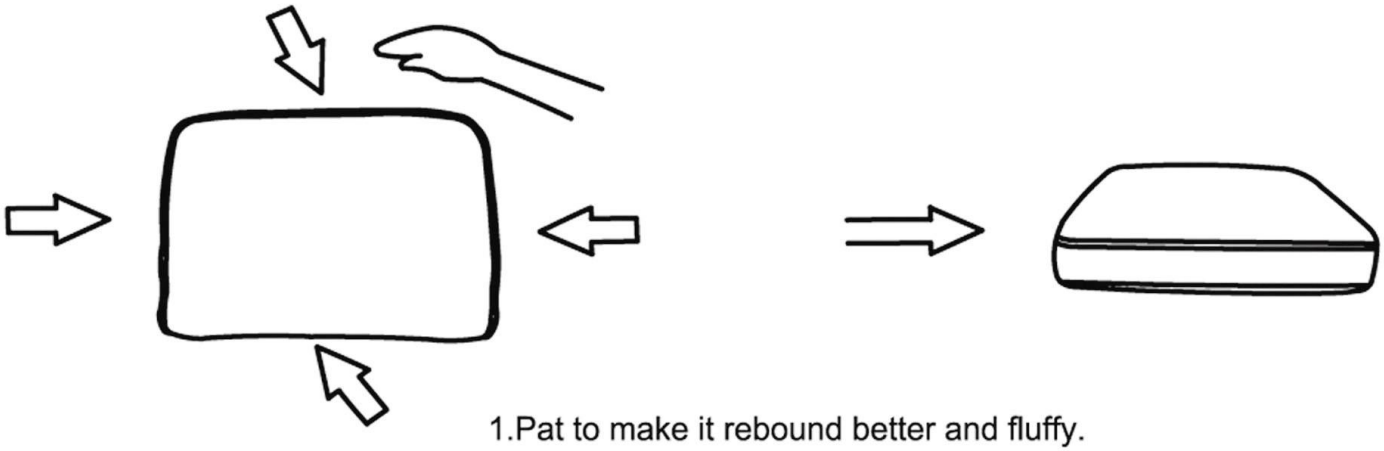

--We strive to offer the highest quality products,and we also tryour best to satisfy each and every customer that orders from uswith replacement parts/or service as needed.

--If the item is damaged or defective, please take photos asevidence for replacements and refunds.

Sept 1: Carefully unzip the zipper under the foam, arrange the wooden base in sequence,

and make sure the middle part is round. Avoid spreading the wooden boards too wide.

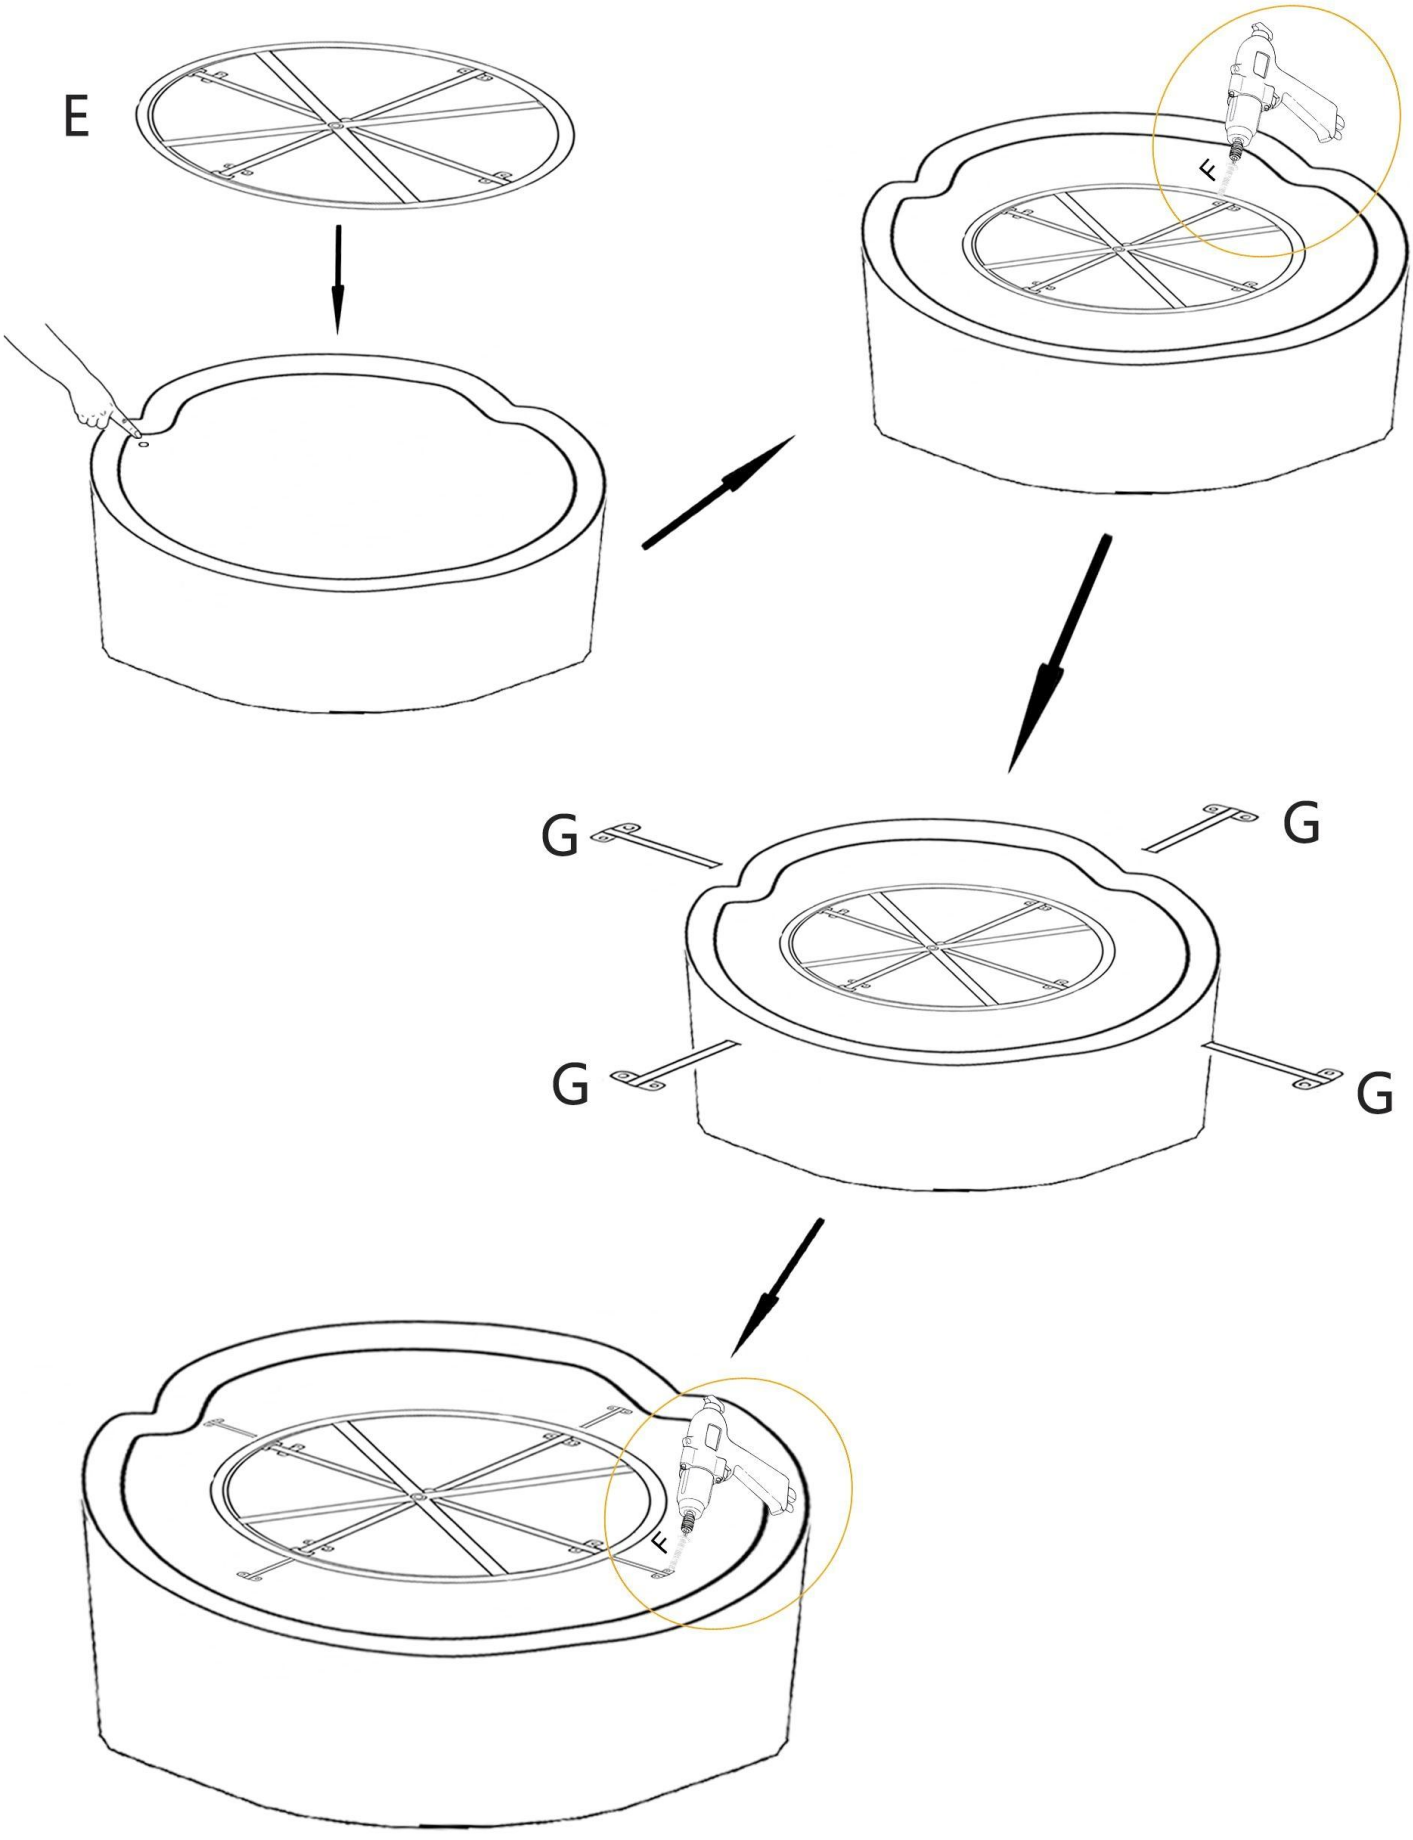

Place D1 boards on both sides of the sofa armrests and then close the zipper to secure them.

After selecting the desired orientation for the phone stand, ensure that the holes on the bottom protruding plate are aligned in a straight line with the armrest mounting bracket.

Step 2: Attach the 16 screws to the iron frame and fasten them firmly into the designated screw holes on the wooden panels. Ensure the iron frame is placed flat on the ground as illustrated in the accompanying image or instructional video.

Step 3: Mount the H-shaped accessory onto the wooden panel of D1, selecting either the left or right side of the sofa based on preference. Subsequently, affix the phone stand securely to the H-shaped accessory.
