

# Thermo-Serv® Push-Button Carafe

## FOAM INSULATED SERVER

The **Thermo-Serv® Push-Button Carafe** is a classically designed carafe that features a durable ABS plastic shell with double-wall foam insulation and a safety push-button lid, ideal for serving hot coffee and water at the perfect temperature for 2-3 hours. Sonic welded seams create an ultra-smooth body, and metallic flakes give the black finish a touch of sparkle. Service staff will appreciate the quick quarter-turn installation and removal of the lid.
