DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO., LTD
Area B, 2/F, 15 Dalingbian Road, Shahu, Shahu Community
Dongguan, Guangdong 523725
CHINA

Dear June Wu:

Thank you for submitting application number 4883 for certification of your indoor air cleaning devices by the California Air Resources Board (CARB). CARB staff have reviewed the submitted application for completeness and concluded that the application is complete. CARB staff have also determined that your device, Gonrair brand, model Air Purifier, model number GL-K803, complies with the State of California's testing, electrical safety, and ozone requirements specified in Title 17, California Code of Regulations, subchapter 8.7 "Indoor Air Cleaning Devices" (air cleaner regulation). CARB staff have determined that additional models included in application number 4883 meet the model group definition. As such, CARB is certifying five additional models that meet the model group definition. The additional brands and models certified include: Gonrair brand, model GL-K805; TDBYWAE brand, model numbers GL-K803, GL-K805; WINDELE brand, models GL-K803, GL-K805.

As part of the regulation, CARB issues Executive Orders for all devices that have been certified as meeting the requirements of the regulation. The enclosed Executive Order, number G-24-112, is a legal document that states that the indoor air cleaning devices listed have completed the certification process required by the State of California.

Although your air cleaners have been certified by CARB, several further steps are required in order to ensure that they comply fully with the air cleaner regulation. The units are required to display a label printed on the package that indicates CARB certification. The labeling requirements are found in Sections 94801(a)(16) and 94806 of the Final Regulation Order (at ww2.arb.ca.gov/our-work/programs/air-cleaners-ozone-products/air-cleaner-regulation-ab-2276). Please note that these include specifications regarding the size, content, and placement of the label indicating the device's compliance with the regulation on the device's packaging. If you have questions about the label requirement, please contact us at aircleaners@arb.ca.gov.

In addition to the package labeling requirements, the air cleaners must also carry the mark of the testing organization, per Section 94806(d) of the regulation. Also, please review the record keeping requirements regarding production, quality control, sales, and testing records, which are specified in Section 94808 of the regulation; such records

must be maintained for as long as the air cleaning device is sold or in commerce, and make the records available to CARB upon request.

Manufacturers of CARB certified air cleaning devices are no longer required to implement the notification requirement for their certified devices. Manufacturers of uncertified ozone-generating air cleaning devices manufactured, sold, or distributed in California are required to submit documentation that they have notified their distributors, retailers, and sellers about this regulation and have provided a copy of the regulation to them. If your company has not yet complied with this requirement, please do so immediately. Information about the notification requirement may be found in Section 94807 of the regulation located at <https://ww2.arb.ca.gov/our-work/programs/air-cleaners-ozone-products/air-cleaner-regulation-ab-2276>.

Please note that we have an email address that we ask you to use for submittal of all new applications, requests for application numbers, and any general questions you may have about the regulation. The email address is aircleaners@arb.ca.gov. Note that you will normally receive confirmation that we have received your application or request within 1-2 business days of receipt. If you have not received an email from us confirming receipt of your request within 5 days of submittal, please contact us directly.

For questions regarding the regulation, please view CARB's responses to frequently asked questions (FAQ), available at ww2.arb.ca.gov/resources/fact-sheets/complying-air-cleaner-regulation. If your question is not answered in the FAQ, please contact Patrick Wong at Patrick.Wong@arb.ca.gov or (916) 323-1505. For questions regarding this application, Executive Order, or testing and certification in the future, please contact Julia Gress at Julia.Gress@arb.ca.gov. For any general questions, you may also contact me directly at Bonnie.Holmes-Gen@arb.ca.gov.
Sincerely,

Bonnie Holmes-Gen (Electronically Signed 5/20/24)

**State of California
AIR RESOURCES BOARD**

EXECUTIVE ORDER G-24-112

Relating to Certification of Indoor Air Cleaning Devices

DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO.

**Brand: Gonrair
Models: GL-K803, GL-K805
Brand: TDBYWAE
Models: GL-K803, GL-K805
Brand: WINDELE
Models: GL-K803, GL-K805**

WHEREAS, the California Air Resources Board (CARB) was given authority under California Health and Safety Code (HSC) sections 41985 and 41986 to develop and adopt regulations to protect public health from ozone emitted by indoor air cleaning devices used in occupied spaces;

WHEREAS, sections 41986(b)(2) and 41986(b)(3) of the HSC require CARB to include in its regulation testing and certification procedures that enable the Board to verify that an indoor air cleaning device meets the applicable emission concentration standard;

WHEREAS, CARB adopted sections 94800 through 94810, title 17, California Code of Regulations (CCR) on September 27, 2007 which include testing and certification requirements and specify the necessary information required in any application for certification;

WHEREAS, CARB has specified in CCR section 94805 that all indoor air cleaning devices, unless exempted, must be tested following ANSI/UL Standard 867, or ANSI/UL Standard 507 for mechanical filtration devices, to assure that the ozone emission concentration limit of 0.050 ppm and the electrical safety requirements have been met;

WHEREAS, DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO. has submitted an application for certification of the following indoor air cleaning devices: Gonrair brand, models GL-K803, GL-K805; TDBYWAE brand, models GL-K803, GL-K805; WINDELE brand, models GL-K803, GL-K805;

WHEREAS, DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO. has submitted the required documentation of testing results from a Nationally Recognized Testing Laboratory as required in CCR section 94804;

WHEREAS, the DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO. application for certification of its air cleaning devices has been evaluated, and its air cleaners have been found to comply with the criteria for issuance of an executive order;

NOW THEREFORE, pursuant to the authority vested in CARB by sections 39600 and 39601 of the HSC, and pursuant to the authority vested in the undersigned by sections 39515 and 39516 of the HSC;

IT IS ORDERED AND RESOLVED that the indoor air cleaners produced by DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO. as described in its application for certification of said devices are hereby certified as meeting the performance standards applicable to indoor air cleaning devices.

IT IS FURTHER ORDERED that DONGGUAN GUANGLEI ENVIRONMENTAL PROTECTION TECHNOLOGY CO. must comply with the additional requirements specified in title 17, CCR sections 94806 and 94808, regarding labeling and recordkeeping, respectively;

IT IS FURTHER ORDERED that any alteration of the components or design of the certified indoor air cleaning models is prohibited and is inconsistent with this certification, unless said alteration has been approved by the Executive Officer or his designee;

IT IS FURTHER ORDERED that pursuant to CCR section 94809, if the Executive Officer determines a violation has occurred, he or she may order that the products involved in or affected by the violation be recalled and replaced with complying products. He or she may also assess penalties authorized by law, or revoke or modify this certification as provided in CCR section 94804(f).

Executed at Sacramento, California this 20th day of May 2024.
