

Mini Split Air Conditioner

WIFI Instruction Manual

Let's get start!

Operation guideline. Please take below simple guideline instruction as reference.

Operation Steps	Operation Items	New Account	Re-install APP (registered before)
Step 1	Download and Install APP	YES	YES
Step 2	Activate APP	YES	YES
Step 3	Registration Account	YES	NO
Step 4	Login	YES	YES
Step 5	Add Device to control	YES	Registered Device will remain.

Note: If you registered the account and added device before, when you re-install the APP again and login in, the added device will remain .

FCC Caution (FCC ID: 2ANDL-TYWE1S/2ANDL-TCWBRCU1)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interferences to radio communications. However, there is no guarantee that interferences will not occur in a particular installation. If this equipment does cause harmful interferences to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interferences by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- The distance between user and device should be no less than 20cm.

Wi-Fi Module specifications and basic information

1. Minimum specifications on a Smart phone:

Android 5.0 version or higher

IOS 9.0 version or higher

2. Basic parameters for Wi-Fi module

Parameters	Details
Network frequency	2.400 - 2.500GHz
Standards of WLAN	IEEE 802.11 b/g/n(channels 1-14)
Protocol stack support	IPv4/IPv6/TCP/UDP/HTTPS/TLS/MulticastDNS
Security support	WEP/WPA/WPA2/AES128
Network type support	STA/AP/STA+AP

3. Installation guide for USB WiFi only

Download and Install the App

SmartLife-SmartHome

For Android smart phone

Method1: Please scan the QR code with a browser scanner, download and install the APP.

Method2: Open the Google "Play Store" on your smart phone and search "SmartLife-SmartHome", ownload and install the APP.

For IOS smart phone

Method1: Please scan the QR code and follow the tips to get into "AppStore", download and install the APP.

Method2: Open the Apple "AppStore" on your smart phone and search "SmartLife-SmartHome" , download and install the APP.

Note:

Please enable the permissions of Storage / Location / Camera for this APP when installing. Otherwise it will have some problems when operating.

Activate APP

The first time the app is used, it will need activating.

1. Launch the APP "SmartLife-SmartHome" on your smart phone.

SmartLife-SmartHome

Method1: Tap button "Scan" and scan the right Activate QR code

Method2: Tap "or Enter Activation Code" in bottom of the screen, then enter the activate code and tap "CONFIRM".

Activate QR code and activation code

Note: Without the QR code or activation code, you can't active the APP and using it, please keep them safe.

Registration

1. If you don't have any account please tap button "Register".
2. Read the Privacy Policy and tap "Agree".

3. Tap ">" and choose the country.
4. Enter your e-mail address.
5. Tap the button "Obtain verification code".

enter your e-mail address here

Search the country or slide the screen up /down to find and choose the Country.

- 6. Enter the verification code you received from e-mail.
- 7. Set the Password with 6-20 characters including characters and numbers.
- 8. Tap "Done".

Control form2

The main control interface

Control form2-Mode setting

1. Tap the Mode button.
2. There are 5 modes on the Mode screen, tap one button to set the Air conditioner working mode.
3. Tap the X button to back the main control screen.
4. The mode and background will change on the screen.

Note: please read the details of each mode in the user manual to control more comfortable.

Control form2-Fan speed selection

- 1. Tap the Fan speed button.
- 2. Choose your desired fan speed and tap it.
- 3. Tap the X button to back the main control screen.
- 4. The select fan speed indicator will appear on the screen.

Mode	Fan Speed
Cool	All speeds
Fan	All speeds
Dry	
Heat	All speeds
Auto	All speeds

Note:
Fan Speed can't be adjusted on Dry mode .

Note:
Fan Speed screen may appear slight differences, depending on the air conditioner model.
Example as below:

Control form2-Air Flow control

- 1. Tap the Precision Air Flow button or Swing Flow button.
- 2. Choose your desired air flow and tap it.
- 3. Tap the X button to back to the main control screen.
- 4. The select air flow indicator will appear on the screen.

Note: For some models without auto Left-Right wind, If you active them, you will hear a beep,but no any actions.

Note: The Main control screen and Air Flow screen may appear slight differences, depending on the air conditioner model.
Example as below:

Control form2-ECO function

- 1. For Eco function, just tap the button to activate the function, the button will be lighting and the indicator will appear on the screen.
- 2. Tap again to disable the function.
- 3. Temperature is controlled by different air conditioner modes:
In Cooling mode, the new setting temperature will $\geq 78^{\circ}\text{F}$.
In heating mode, the new setting temperature will $\leq 77^{\circ}\text{F}$.

Mode	ECO enabled
Cool	Yes
Fan	
Dry	
Heat	Yes
Auto	

ECO is disabled on Fan / Dry / Auto mode .

Note: The Main control screen and ECO control method may appear slight differences, depending on the air conditioner modes.
 Example as below:

Note:
 ECO is disabled on Turbo/Sleep mode too for some air conditioner mode.

Control form2-Sleep function

1. Tap the Sleep button.
2. Choose your desired sleep mode and tap it.
3. Tap the X button to back to the main control screen.
4. The select sleep mode indicator will appear on the screen.

Mode	Sleep enabled
Cool	Yes
Fan	
Dry	
Heat	Yes
Auto	

Sleep is disabled on Fan / Dry / Auto mode .

Note: The Main control screen and ECO control method may appear slight differences, depending on the air conditioner model.
Example as below:

Control form2-Time r(on) setting

1. Tap the Timer button.
2. Tap + in the upper right corner of the Timer main screen.
3. Choose the Time / Repeat / Switch OFF then tap Save.
4. The timer (off) will appear on the Timer main screen.

Slide up or down to select time

Tap repeat > then tap your desired repeat days or Once, then tap Confirm.

Notice

1. For technical update, there is maybe deviation of the actual items from what is on the manual. We deeply apologize for it. Please refer to your actual product and APP.
2. Smart air conditioner APP can be altered without notice for quality improvement and also be deleted depending on the circumstances of manufacturing firms .
3. In case Wi-Fi signal strength is weakened, smart App may be disconnected. So make sure the indoor unit near to wireless router.
4. DHCP server function should be activated for wireless router.
5. The internet connection may fail because of a firewall problem. In this case, contact your internet service provider.
6. For smart phone system security and network setting, make sure Smart air conditioner APP is trusted.

Trouble Shooting

Description	Analysis of cause
Air conditioner can't be configured successfully	1. Check the mobile connected WLAN router SSID and the password is correct; 2. Check whether there are additional settings of WLAN router as shown below. 1) Firewall by router itself or by PC 2) MAC address filtering 3) Hidden SSID 4) DHCP server Reboot WLAN router, mobile device and air conditioner (WLAN module) and connect air conditioner by CF mode again. Before rebooting, check nobody has already connected to same air conditioner.
Mobile can't control air conditioner	1. When air conditioner (WLAN module) is rebooted and app displays Device remove, ignoring this confirmation will lead to mobile device losing control permission of the air conditioner. You will need to connect the air conditioner by CF mode again. 2. In case of power failure, mobile device will lose control permission of air conditioner for 3 minutes after power failure. (Notification will now show up on the mobile device.) If you cannot control the app (air conditioner) even after power restored, you will need to connect the air conditioner by CF mode again.
Mobile can't find air conditioner	1. App display Air conditioner Device offline. Please check the following conditions. 1) The air conditioner has been reconfigured. 2) Air conditioner out of power. 3) Router out of power. 4) Air conditioner can't connect to router. 5) Air conditioner can't connect to network through the router. 6) Mobile device can't connect to network. 2. After adding the device, it disappears in device list . Hold and slide down to refresh the device list. If it does not change, turn off the app and start again.
