

Assembly Instructions

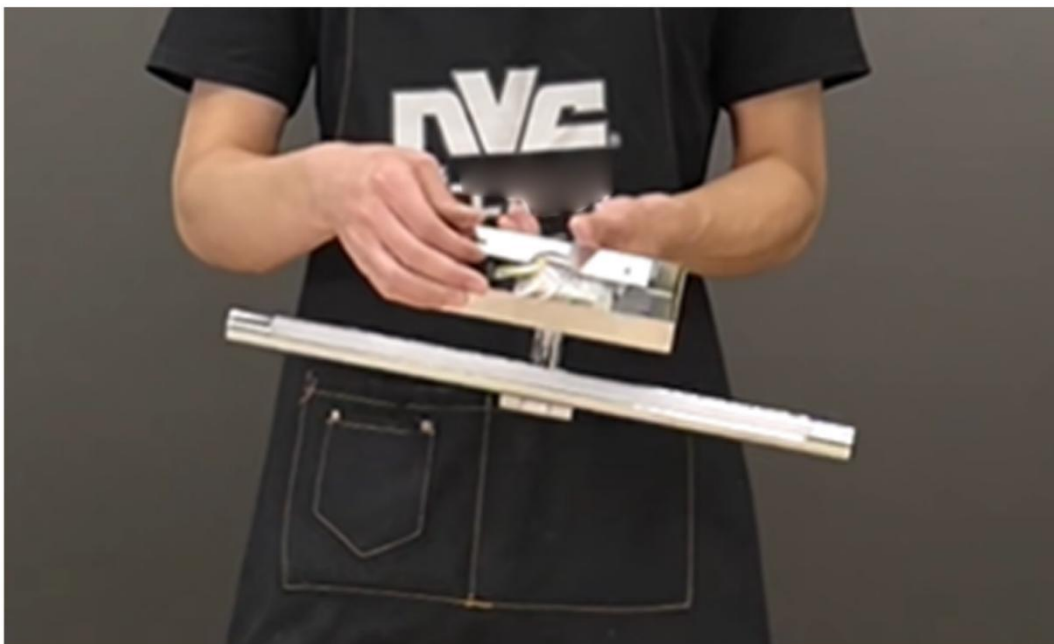

Assembly Method

The following installation steps are for reference only.

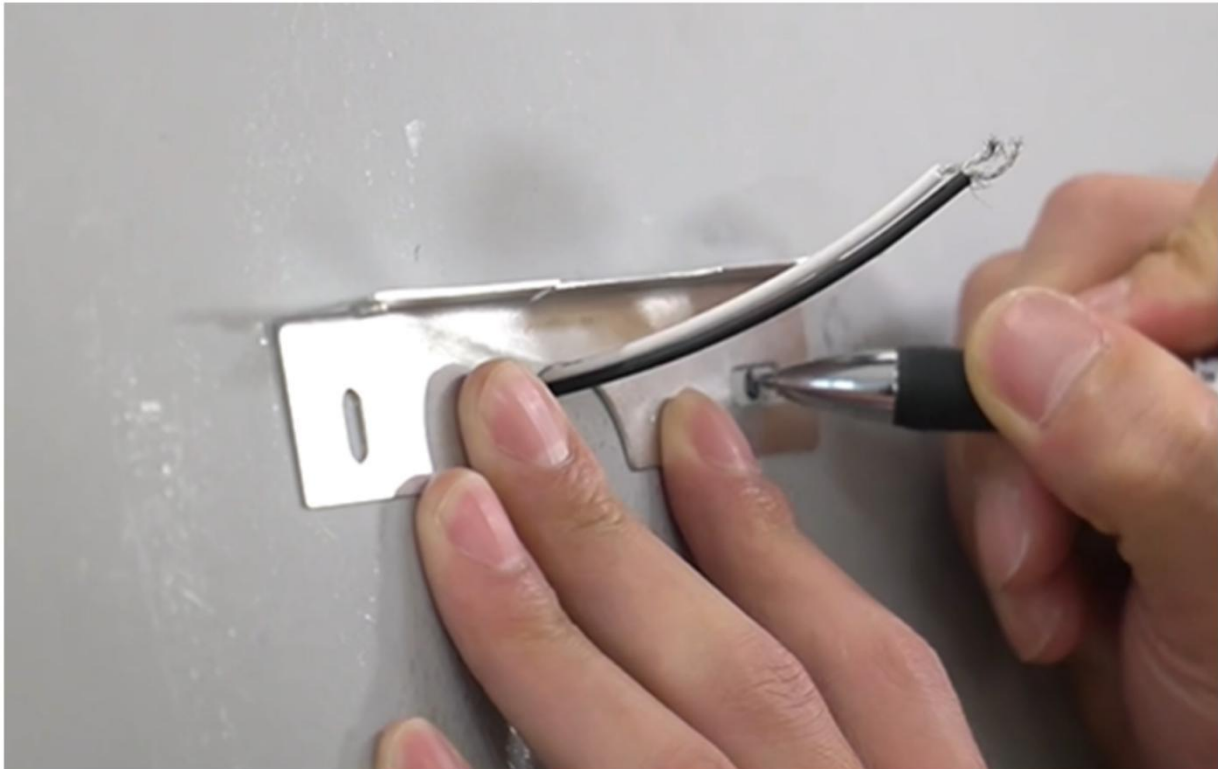

1. Before installation, power on the fixture to verify that it is functioning properly.

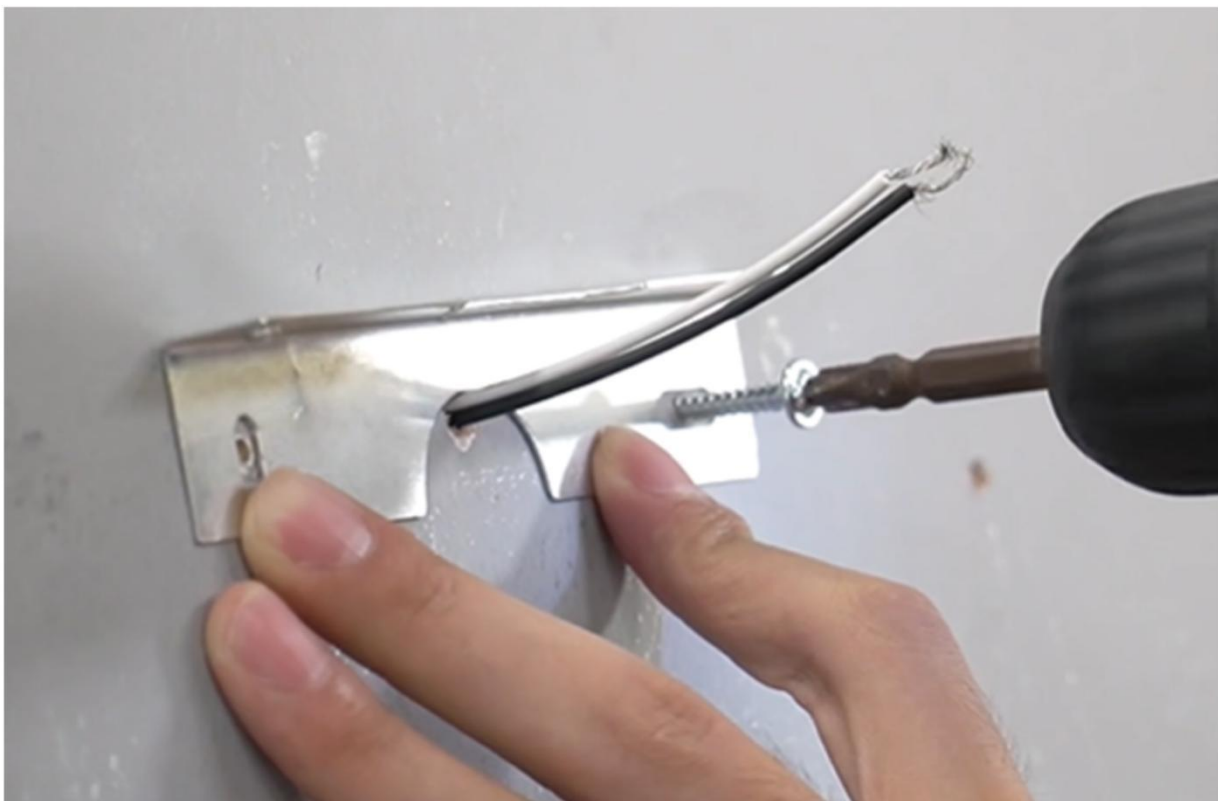

2. Remove the mounting bracket from the base of the fixture.

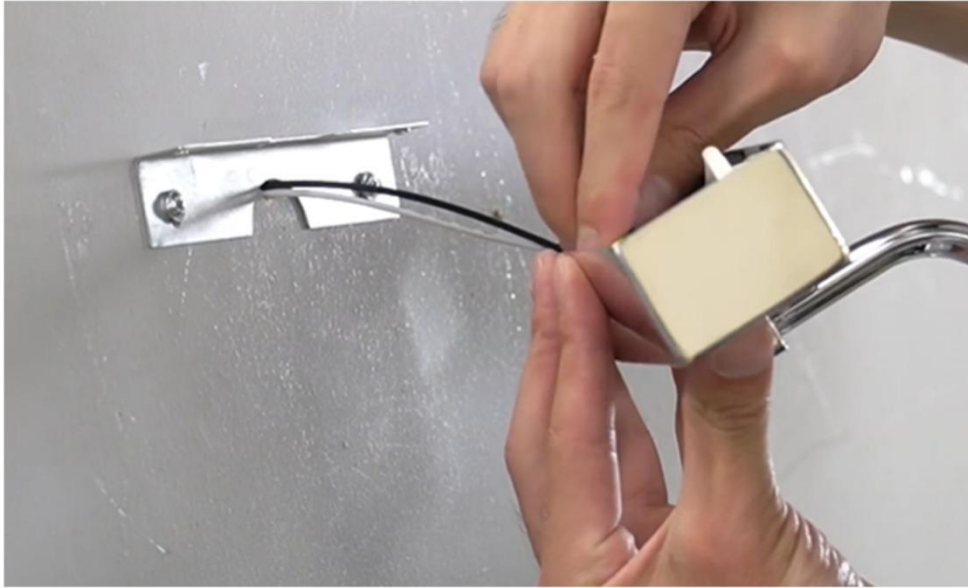

3. Mark the wall and drill the necessary holes.

4. Secure the mounting bracket to the wall using expansion bolts.

5. Connect the power cables and tuck the wires inside the base.

6. Align the base with the mounting bracket and secure it in place using screws.

The installation is complete.

Your fixture is now assembled and ready to use.
