PRODUCT ASSEMBLY GUIDE

ASSEMBLY INSTRUCTIONS

Tall Cast Iron Plant Stand | 3-Leg Design

PACKAGE CONTENTS

A	Decorative round tabletop	**1**
B	Cast iron legs	**3**
C	Lower circular support shelf with crossbars	**1**
D	Longer tabletop screws	**3***
E	Thicker lower-shelf screws	**3***

* Screw quantities shown from the reference diagram; verify against packed hardware.

Tools: Phillips-head screwdriver (not included).

Before assembly: Use a soft protective surface to prevent scratches.

STEP-BY-STEP ASSEMBLY

BUILD YOUR PLANT STAND

Identify the longer and thicker screws before installation.

01

Attach the tabletop

Place tabletop (A) upside down on a padded surface. Position all three legs (B) at the three mounting points and loosely insert the longer screws (D).

02

Fit the lower support shelf

Align the three connection points of the circular shelf (C) with the legs (B). Insert the thicker screws (E). Keep the connections loose for alignment.

03

Align and tighten

Check that the legs are evenly spaced and the lower shelf is level. Tighten the tabletop and lower shelf screws securely, without overtightening.

04

Finish and inspect

Carefully turn the stand upright on a flat, solid surface. Confirm that all three feet touch the ground and the stand is stable.

IMPORTANT ASSEMBLY TIP

Do not fully tighten screws at the beginning. Align all parts first, then tighten every connection. Tightening too early may cause misalignment.

Use on a level surface; do not stand or sit on the plant stand.
