

## ASSEMBLING & INSTALLATION INSTRUCTIONS

The drawing shown may not exactly match the product enclosed.  
However, the installation instructions do apply to this product.

- ◆ **WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.**
- ◆ **ATTENTION! COUPER LE COURANT AU FUSIBLE OU UN DISJONCTEUR.**

### ASSEMBLING THE FIXTURE (Fig.1)

1. Shut off the power at the circuit breaker box. Remove old fixture and all hardware from Junction Box.
2. Carefully unpack your new fixture and lay out all the parts on a clear area. Be care not to lose any small parts necessary for installation.
3. Attach the mounting plate to the Junction Box with the two junction box screws as shown. The side of the mounting plate marked "GND" must face out. **The junction box is not included.**
4. Slide the electrical wires through the pipe(C)/(B)/(A) and canopy. Raise the pipe(C) to top thread hole of lamp holder(D), by turning it clockwise until tight. Attach the thread nipple to inside of each pipes and canopy, connect all the parts together until secure.
5. While holding the canopy towards the ceiling, connect the electrical wires as Shown in Fig.2, making sure that all wire nuts are secured. You may have to wrap the connections with electrical tape. If your junction box has a ground wire (green or bare copper), connect the lamp body(A) ground wire to it. Otherwise connect lamp body's ground wire directly to the mounting plate with the green screw provided. After wires are connected, tuck them carefully inside the Junction Box.
6. Install the canopy onto the junction box, aligning the side screw hole on mounting plate with mounting holes in canopy, lock it securely with the mounting screws. Raise the glass(E) to lamp holder(D), using secure it with check ring(F).
7. Install the light bulb(not included) in accordance with the fixture's specifications. **NOTE: DO NOT EXCEED THE SPECIFIED WATTAGE!**

**Your installation is now complete. Return power to the junction box and test the fixture.**
