

## ***Training Tips***

Some pets will take to the **Folding Pet Ramp** immediately. For those that do not, we suggest that you let your pet get used to the ramp.

Open the ramp and place it flat on the ground near the pet's food and water. You may even want to place the food and water on top of the ramp.

Once you can lead your pet across the length of the ramp with one hand on the collar and one hand on the backside while the ramp is flat on the ground, place the ramp on a small step or curb. Place a line of treats down the center of the ramp to encourage your pet to go both up and down. Train the pet on this gentle slope before graduating to a higher level.

When you and your pet are ready to use the ramp, be generous with treats and praise. Once your pet enters your vehicle, go for a ride so that he or she can associate this accomplishment with achievement. When you return, command the pet to "stay" until the ramp is placed on your vehicle, then walk the pet down.

Remember, your patience in training will be rewarded with better health for you and your pet.

If you have questions or concerns about the use of your ramp  
**CALL US FIRST!**

**DO NOT RETURN YOUR RAMP TO THE STORE!**
