

INSTALLATION INSTRUCTION

Cautions:

Installation should be carried out by professionals. When cleaning and installing, please remember to cut off the power supply.

Appearance :

The diagram illustrates the installation of your new luminary. This is a representative drawing and is not intended to match the style of your luminary.

Assembly steps:

- (1) Make sure your bulb is not connected to the power socket.
- (2) Insert both ends of the Bracket into the bracket holder.
- (3) Insert the bulb into the socket.
- (4) Install the lampshade on the Bracket and fix it with the locking piece and the washer.
- (5) Insert the power cord into the socket, then turn on the lamp through the switch.
