Assembly Instructions

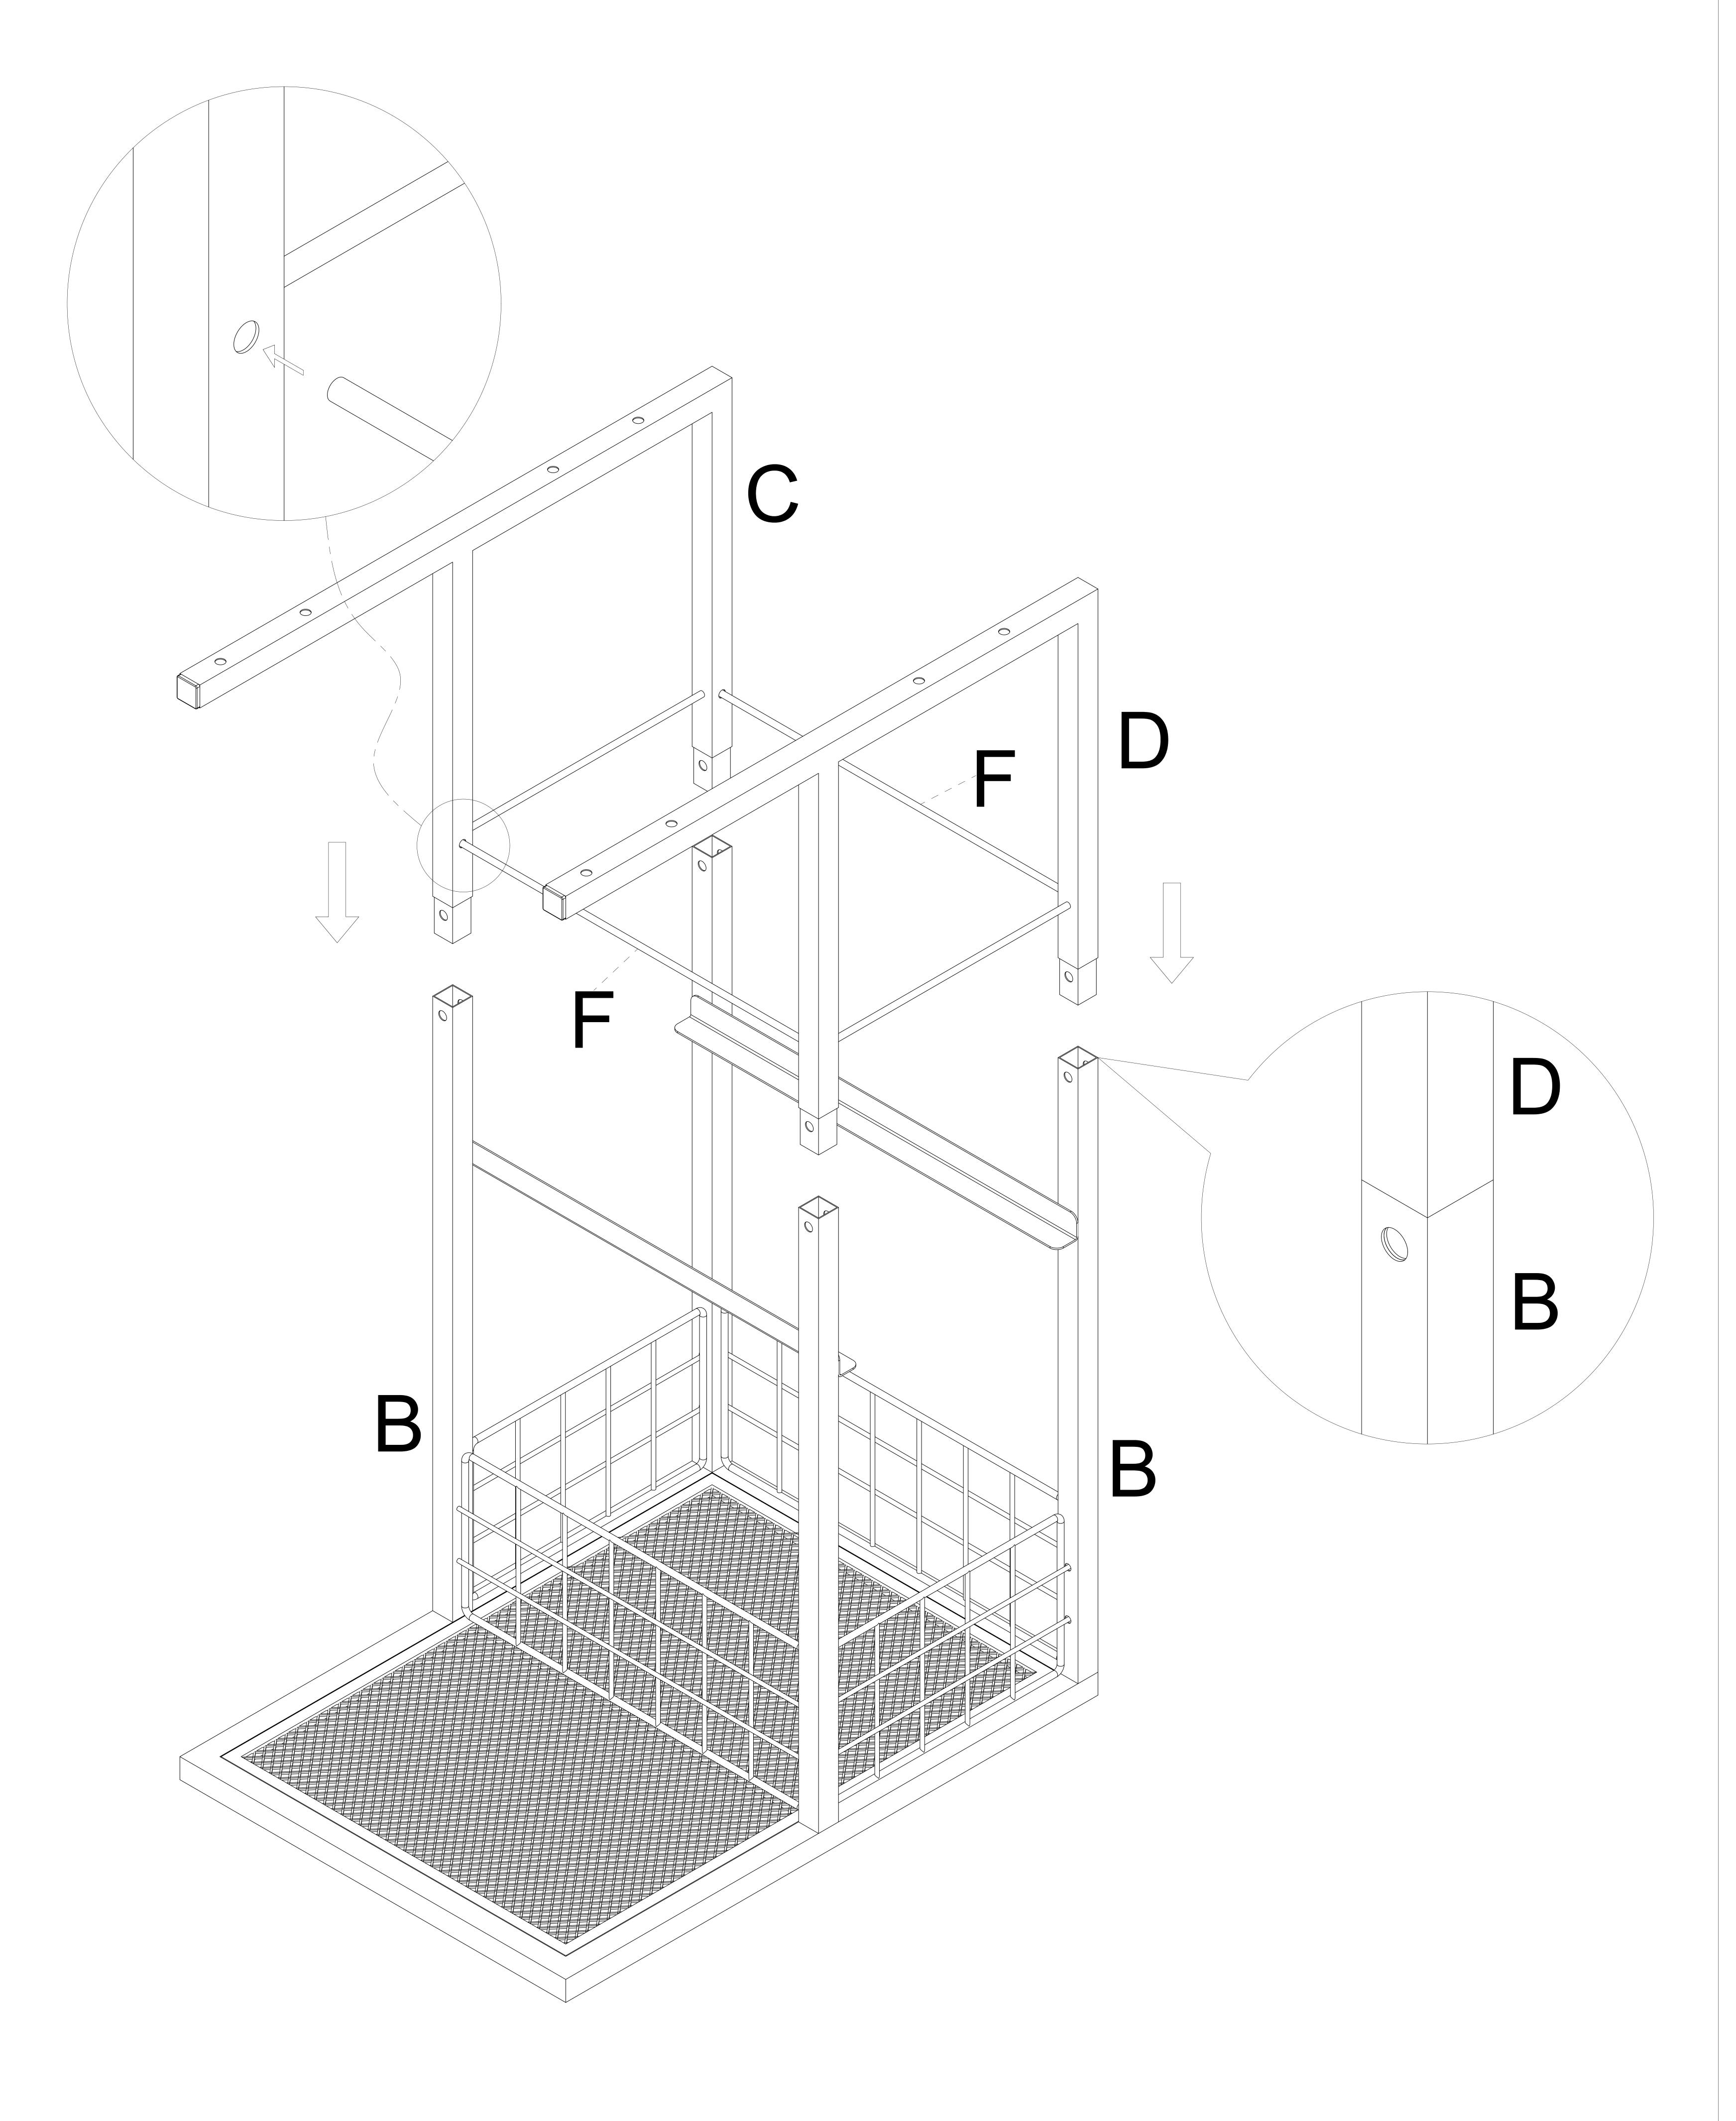

Parts Included

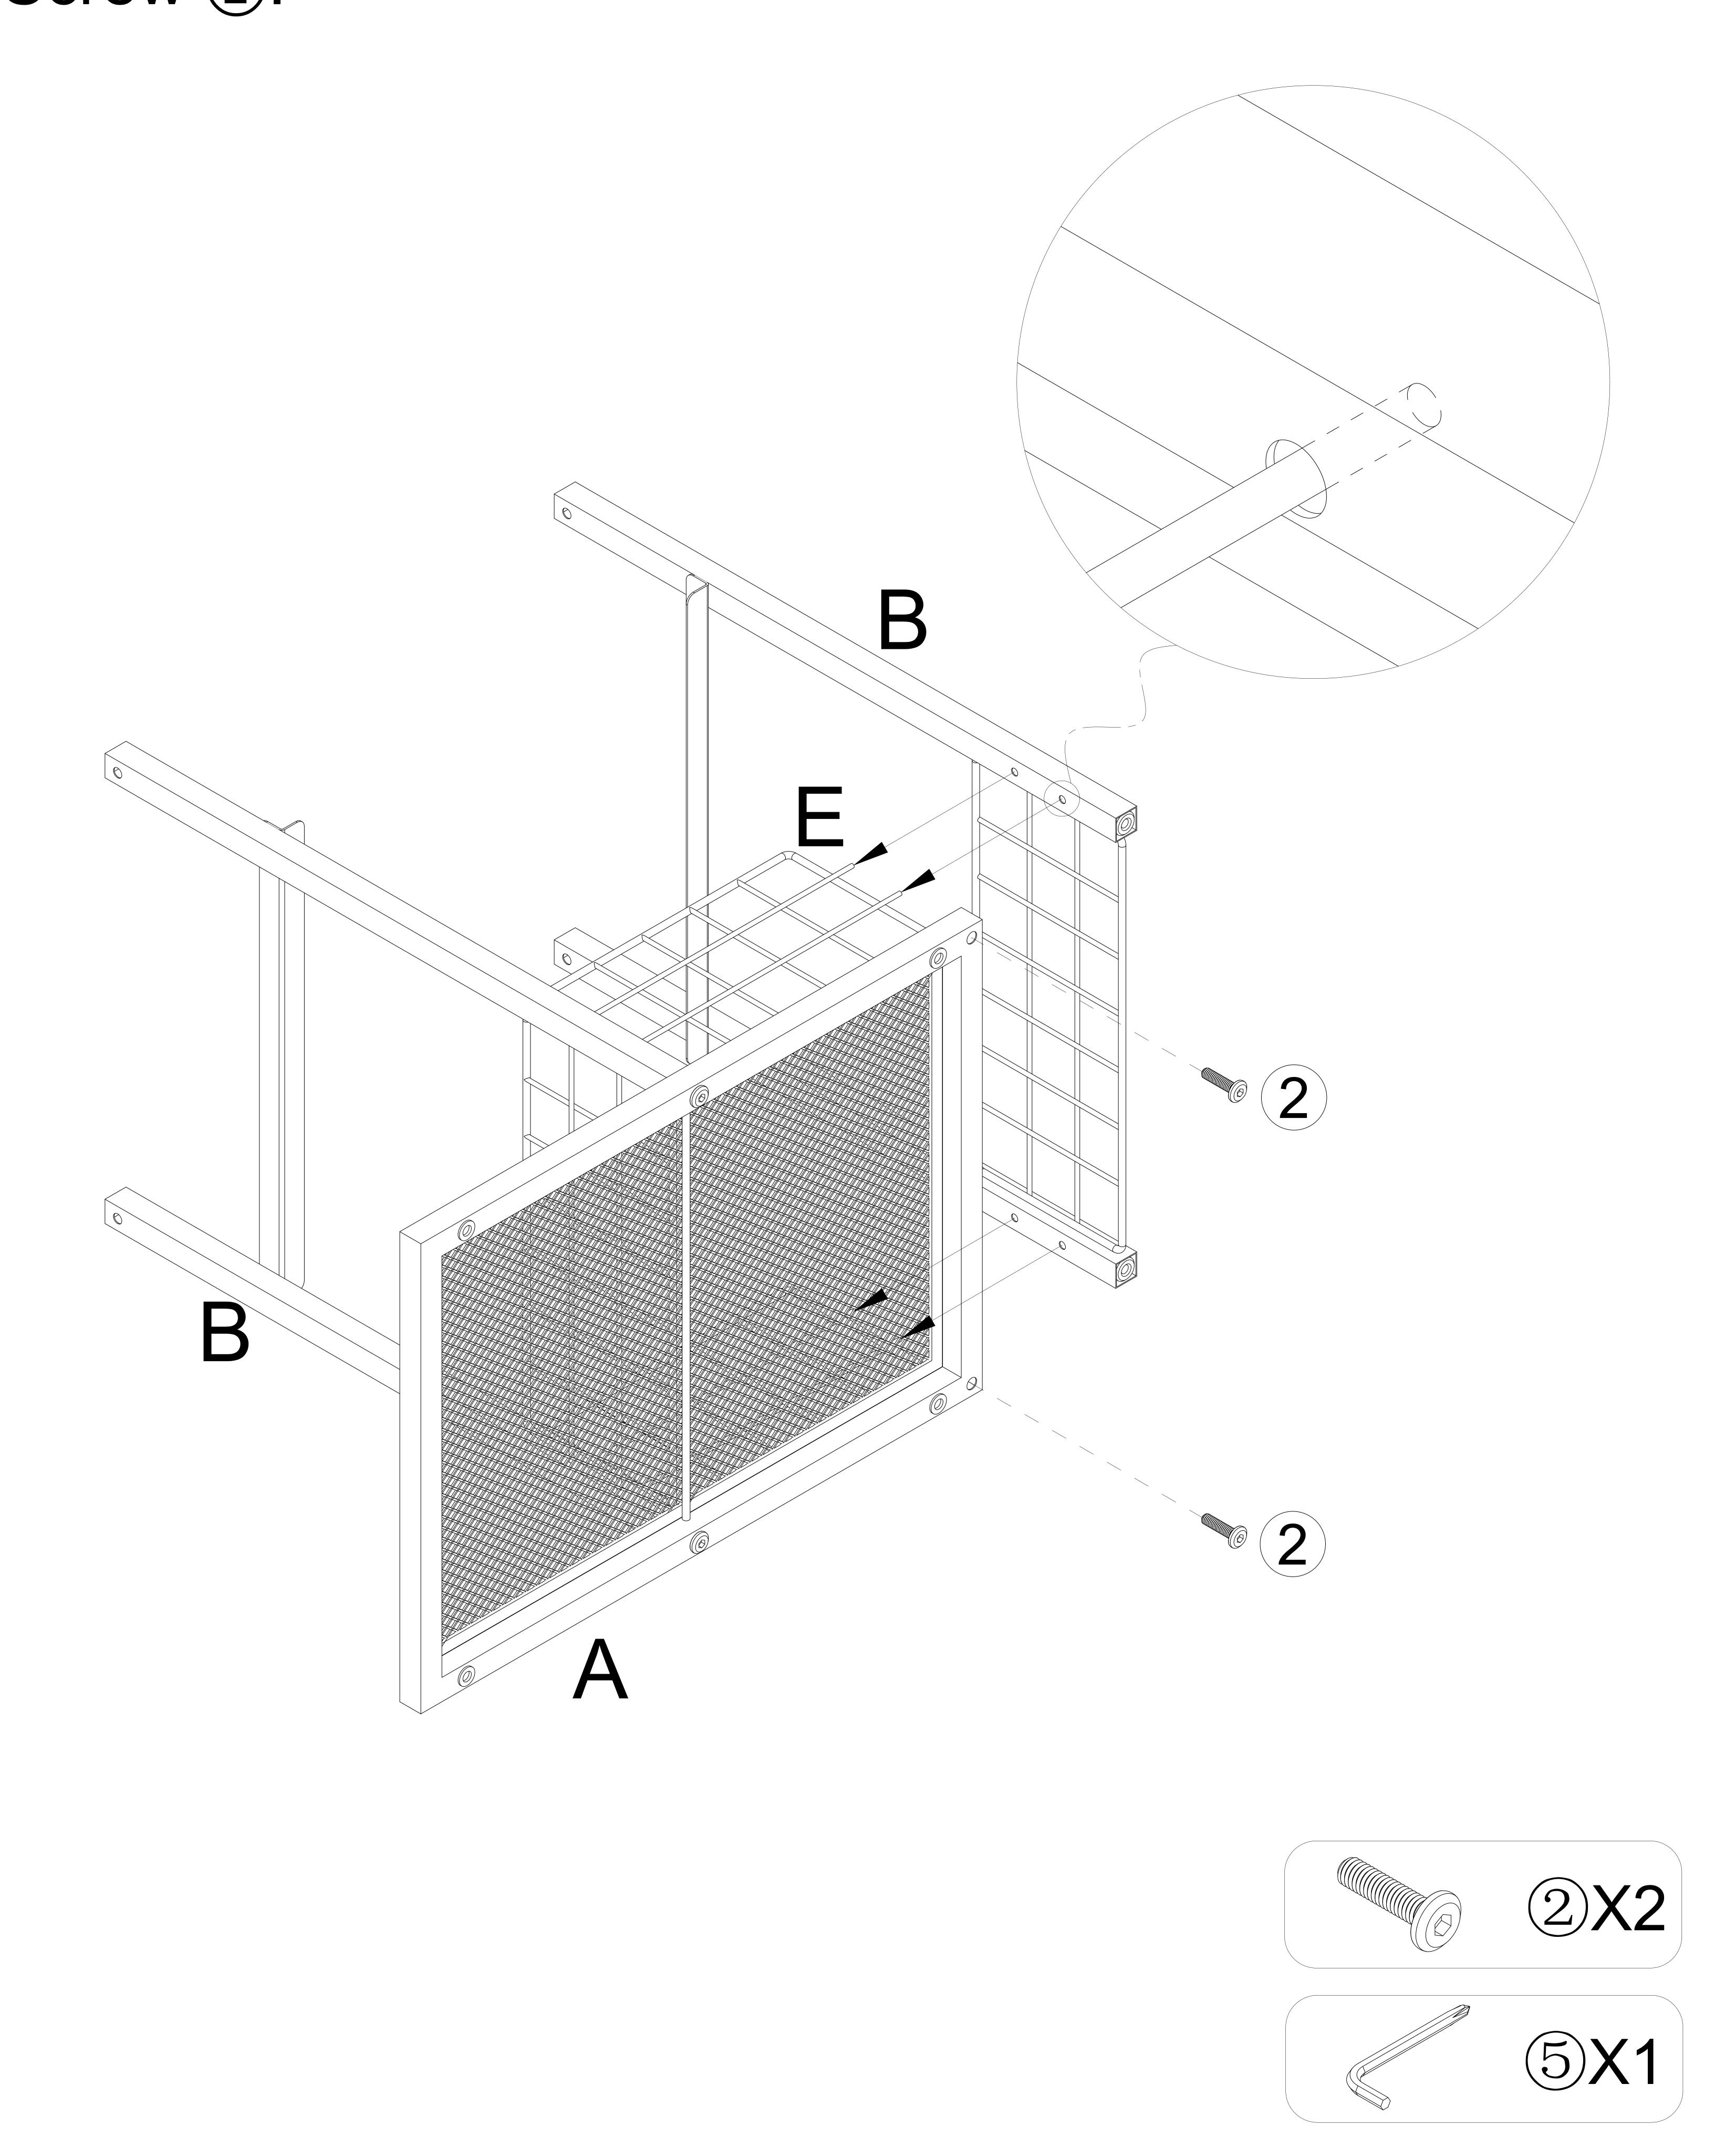

1. Use Screw ② to attach one Component B to the front of Component A.(The front of Component A has 4 holes).

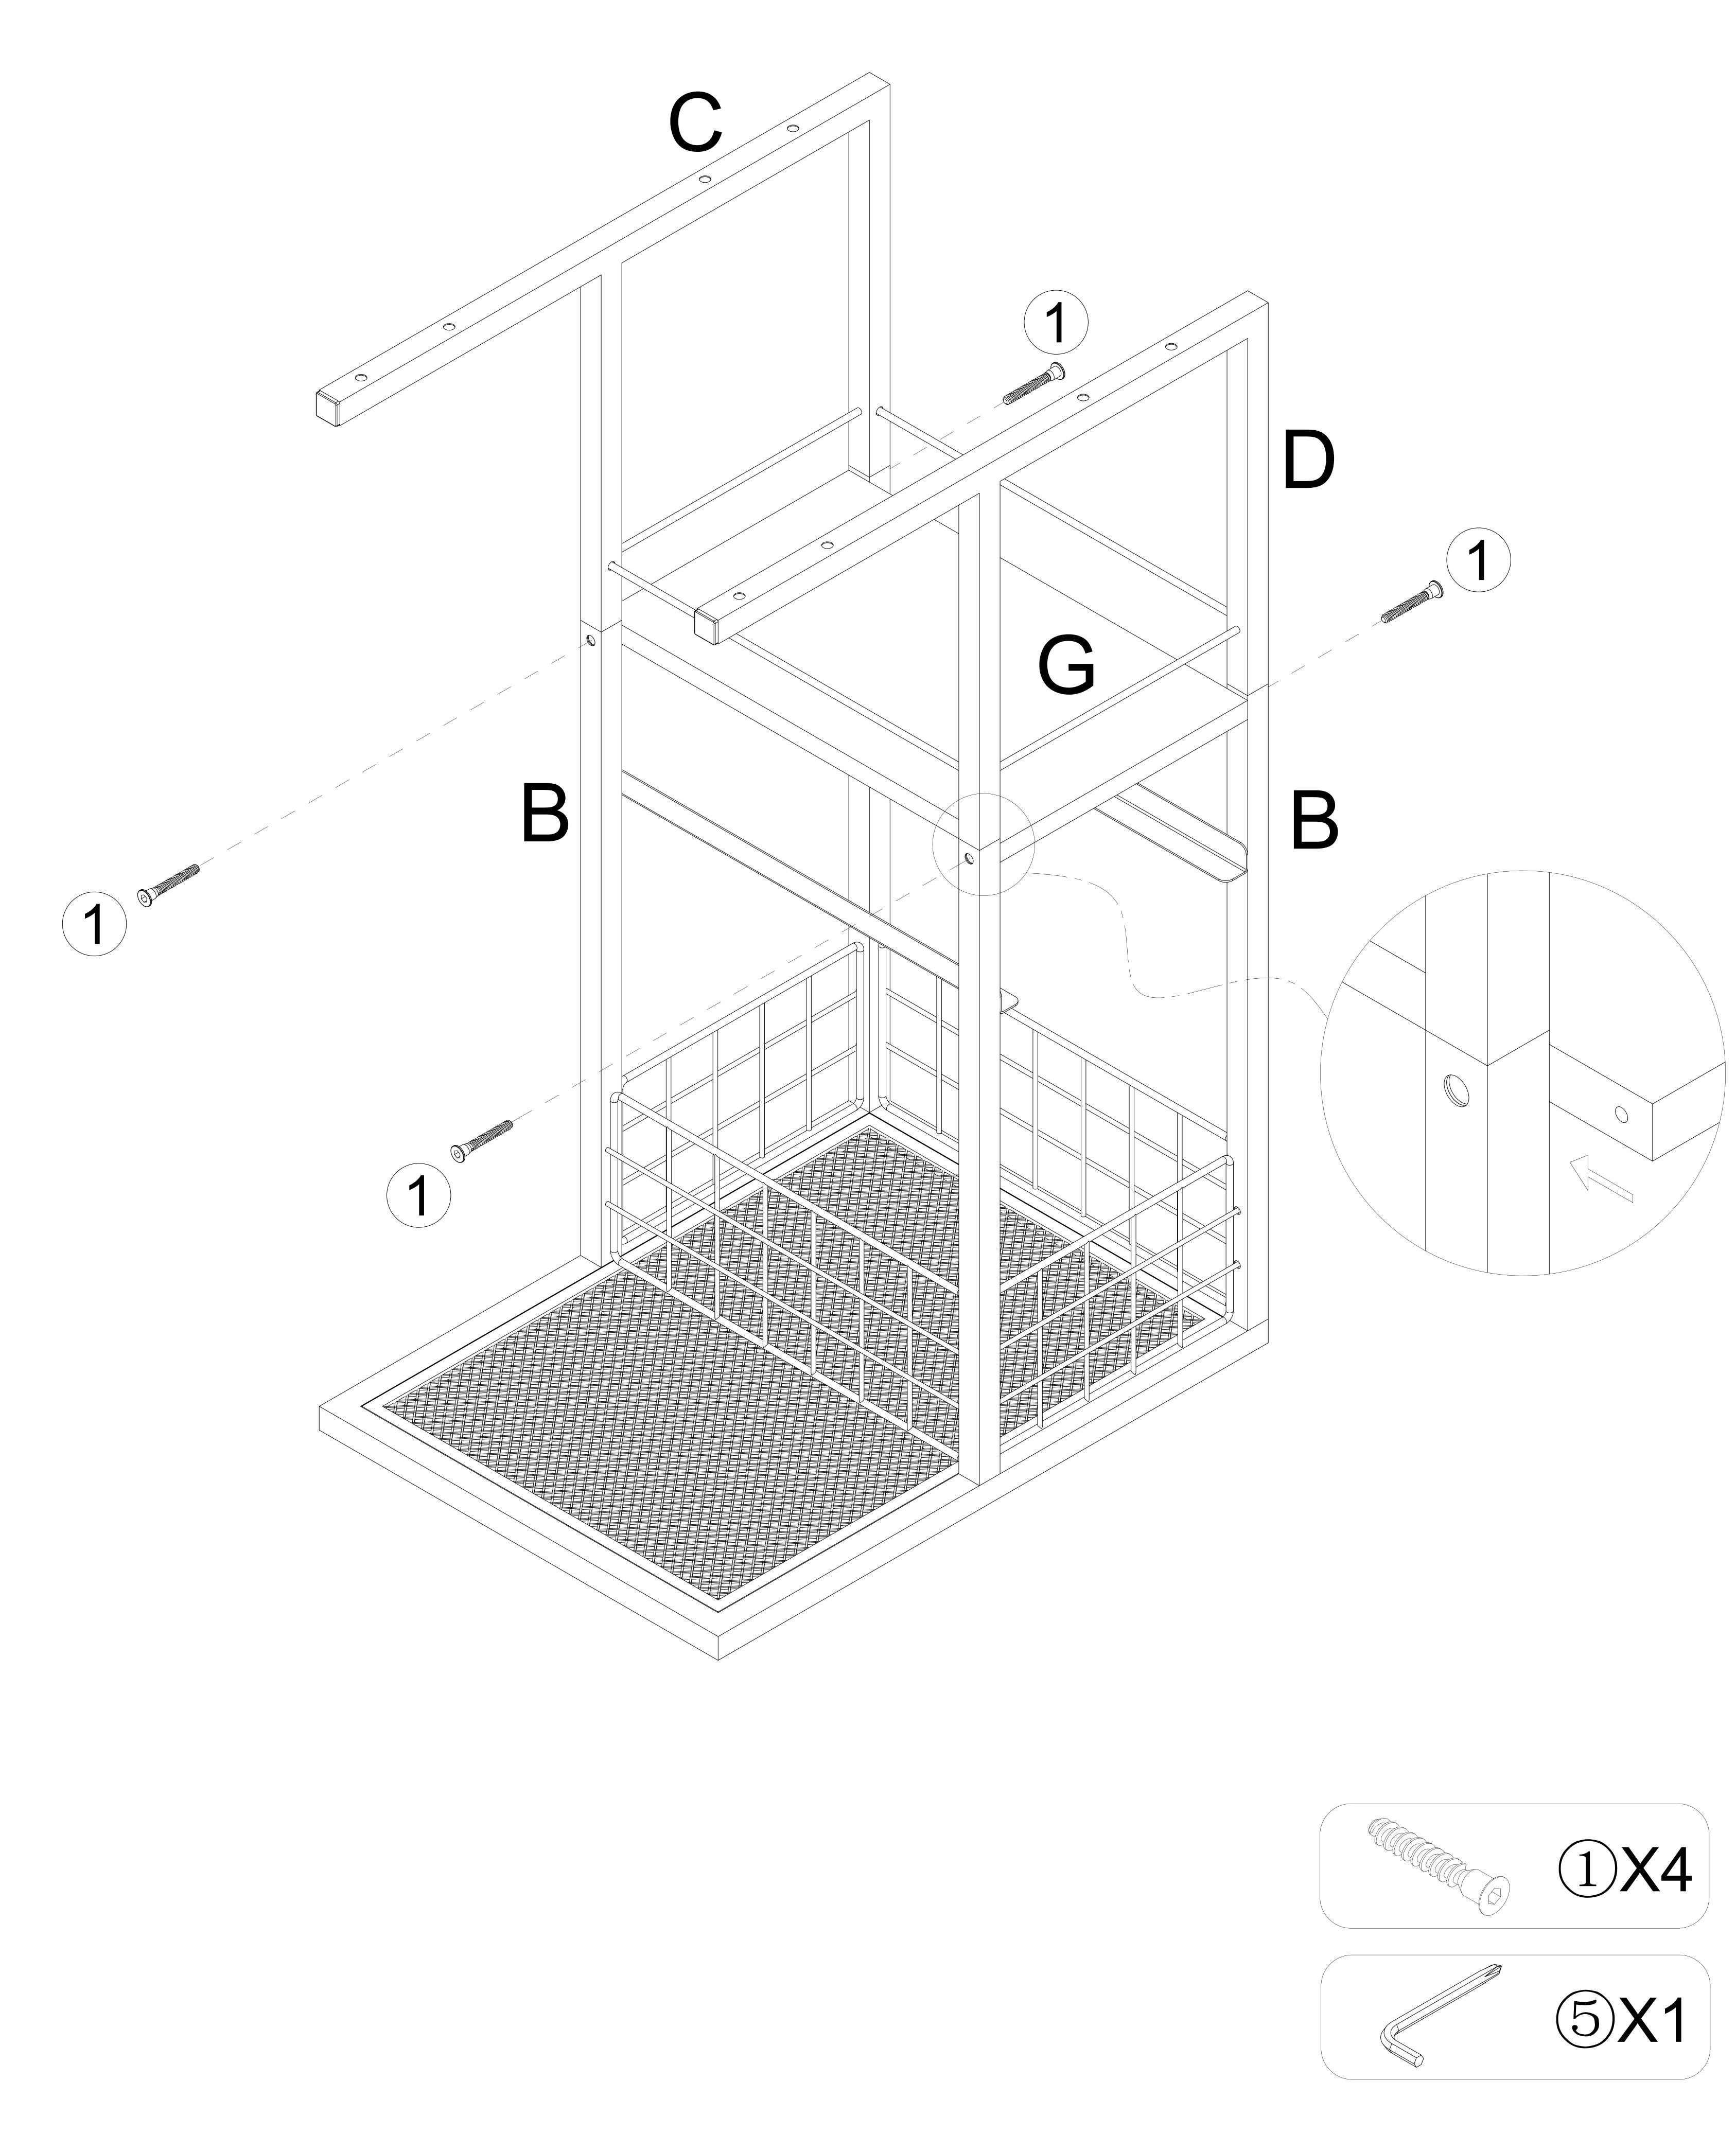

3. Insert two Component F pieces into the pre-drilled holes on Components C and D, then connect Components C and D with the two Component B pieces.

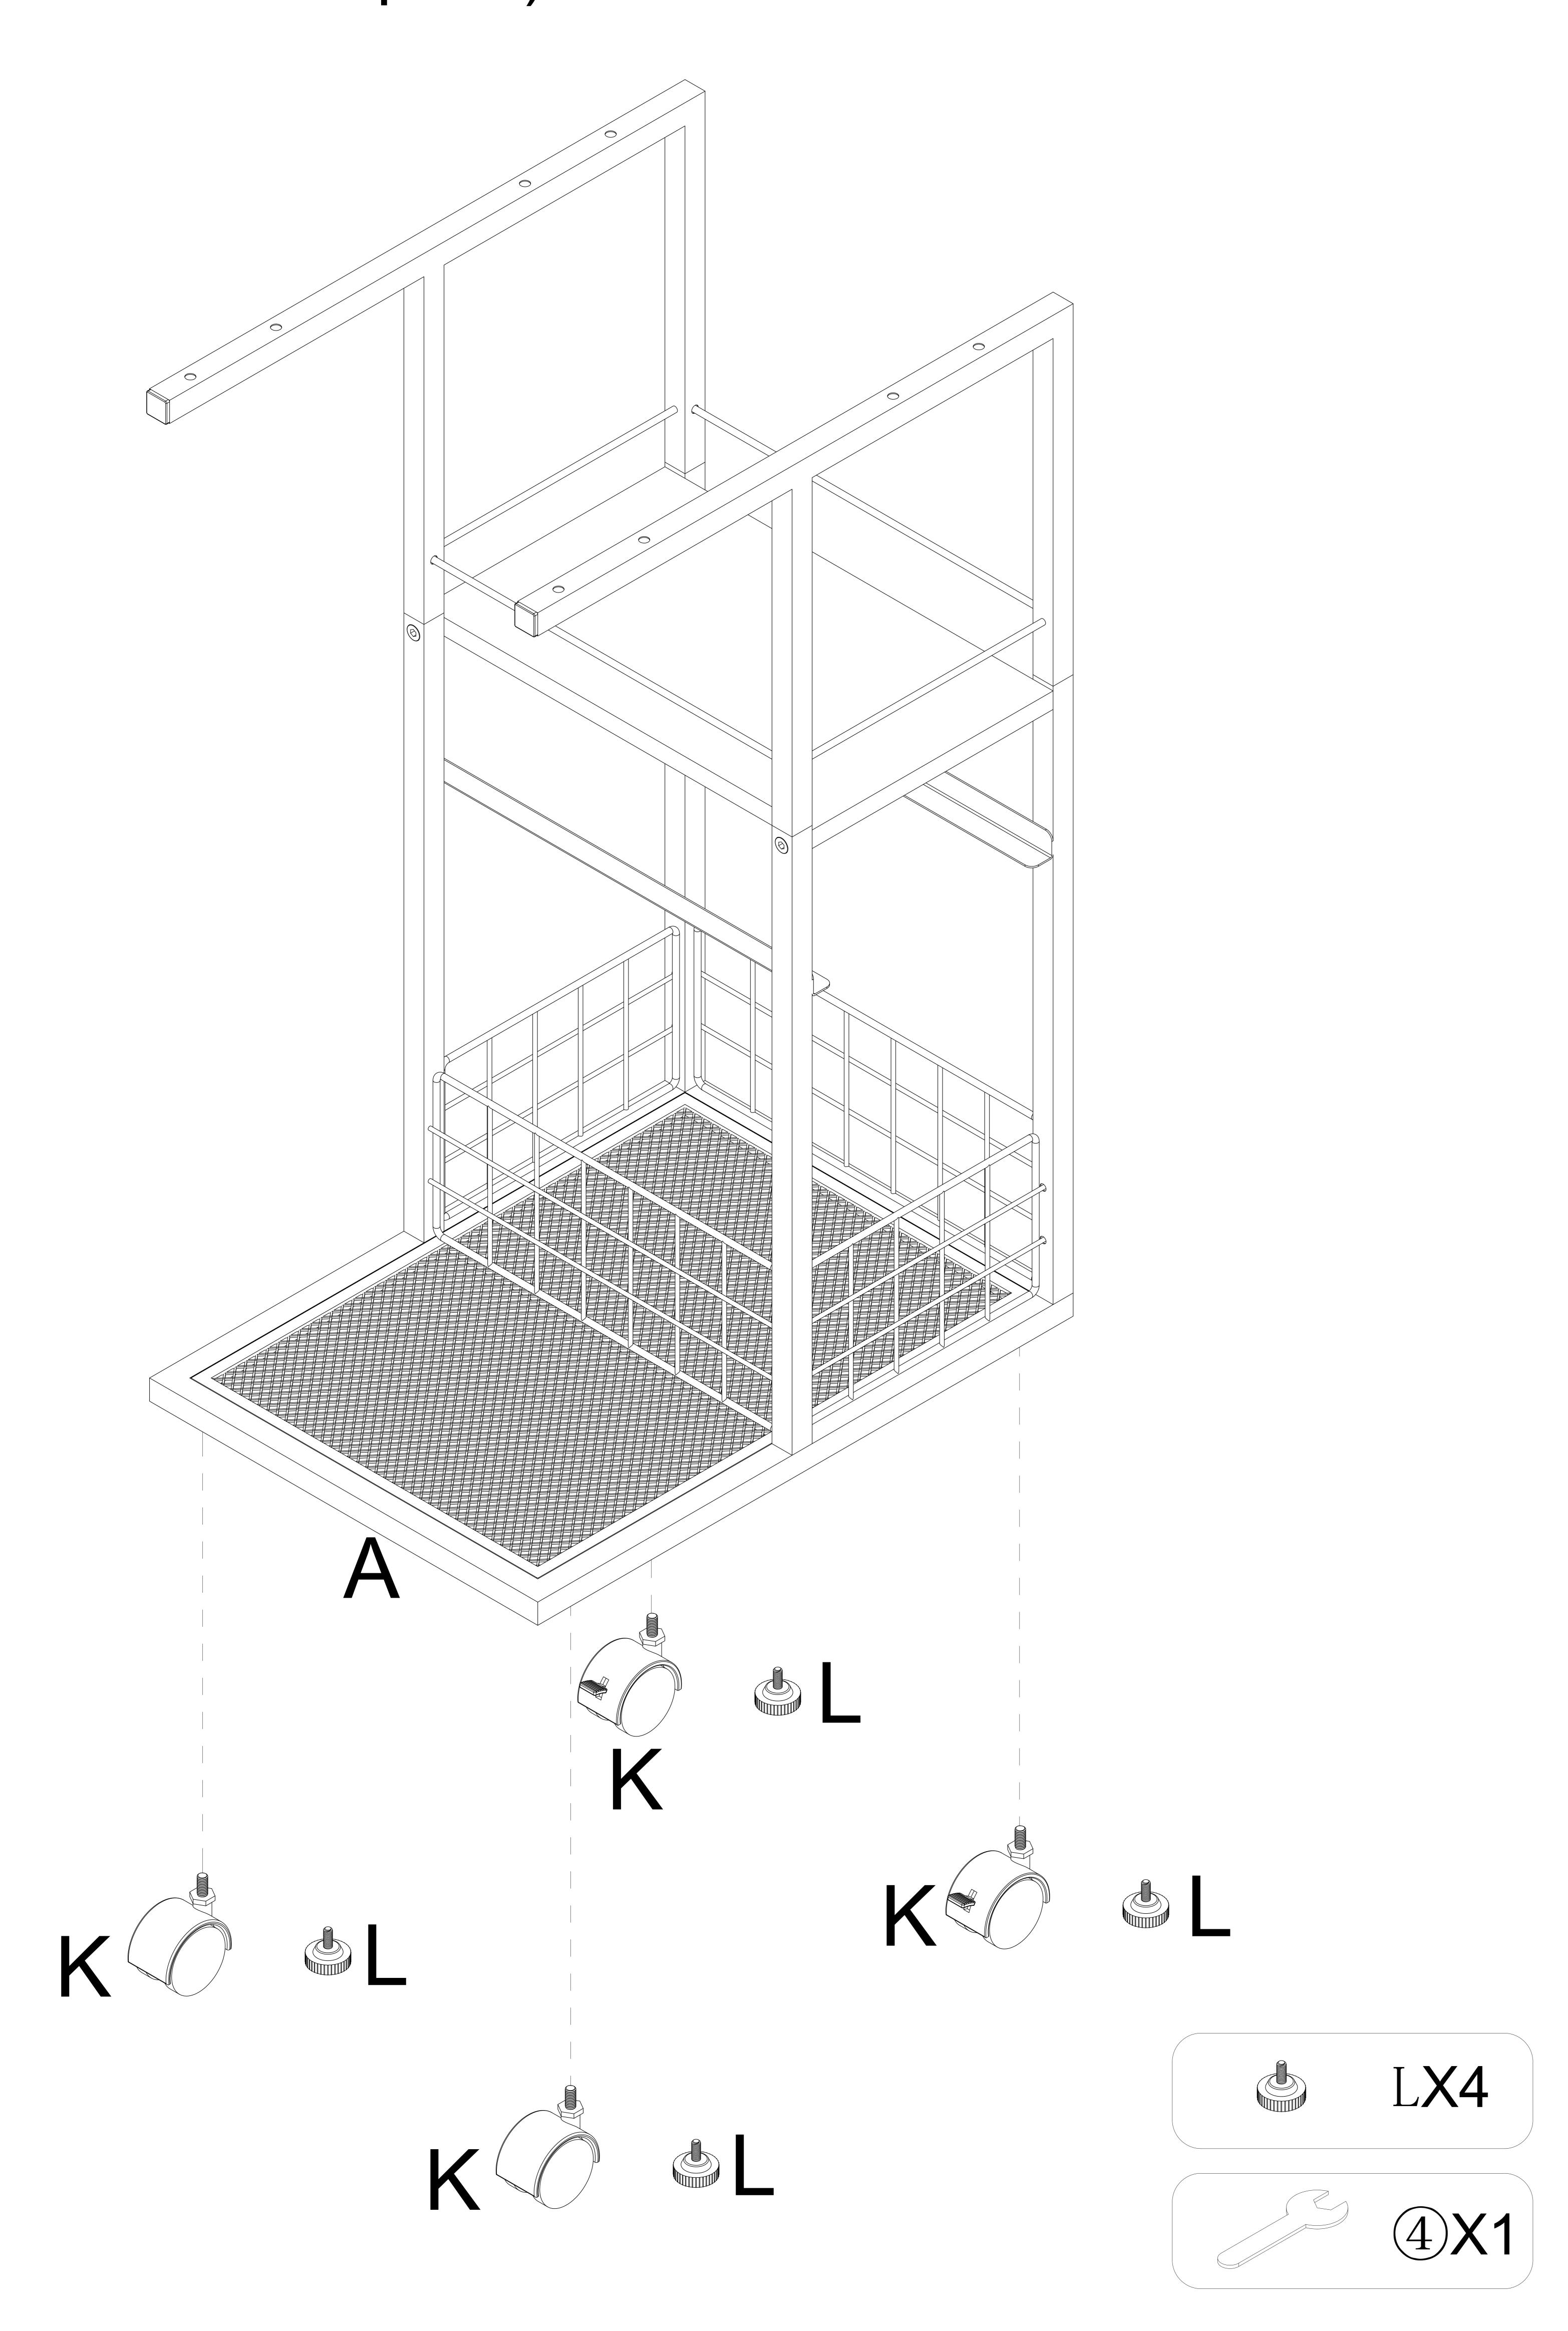

2. Insert the protruding wires of two Component E pieces into the pre-drilled holes on two Component B pieces. Align the bottom holes of Component B with the holes on Component A, then secure Component B to A using Screw ②.

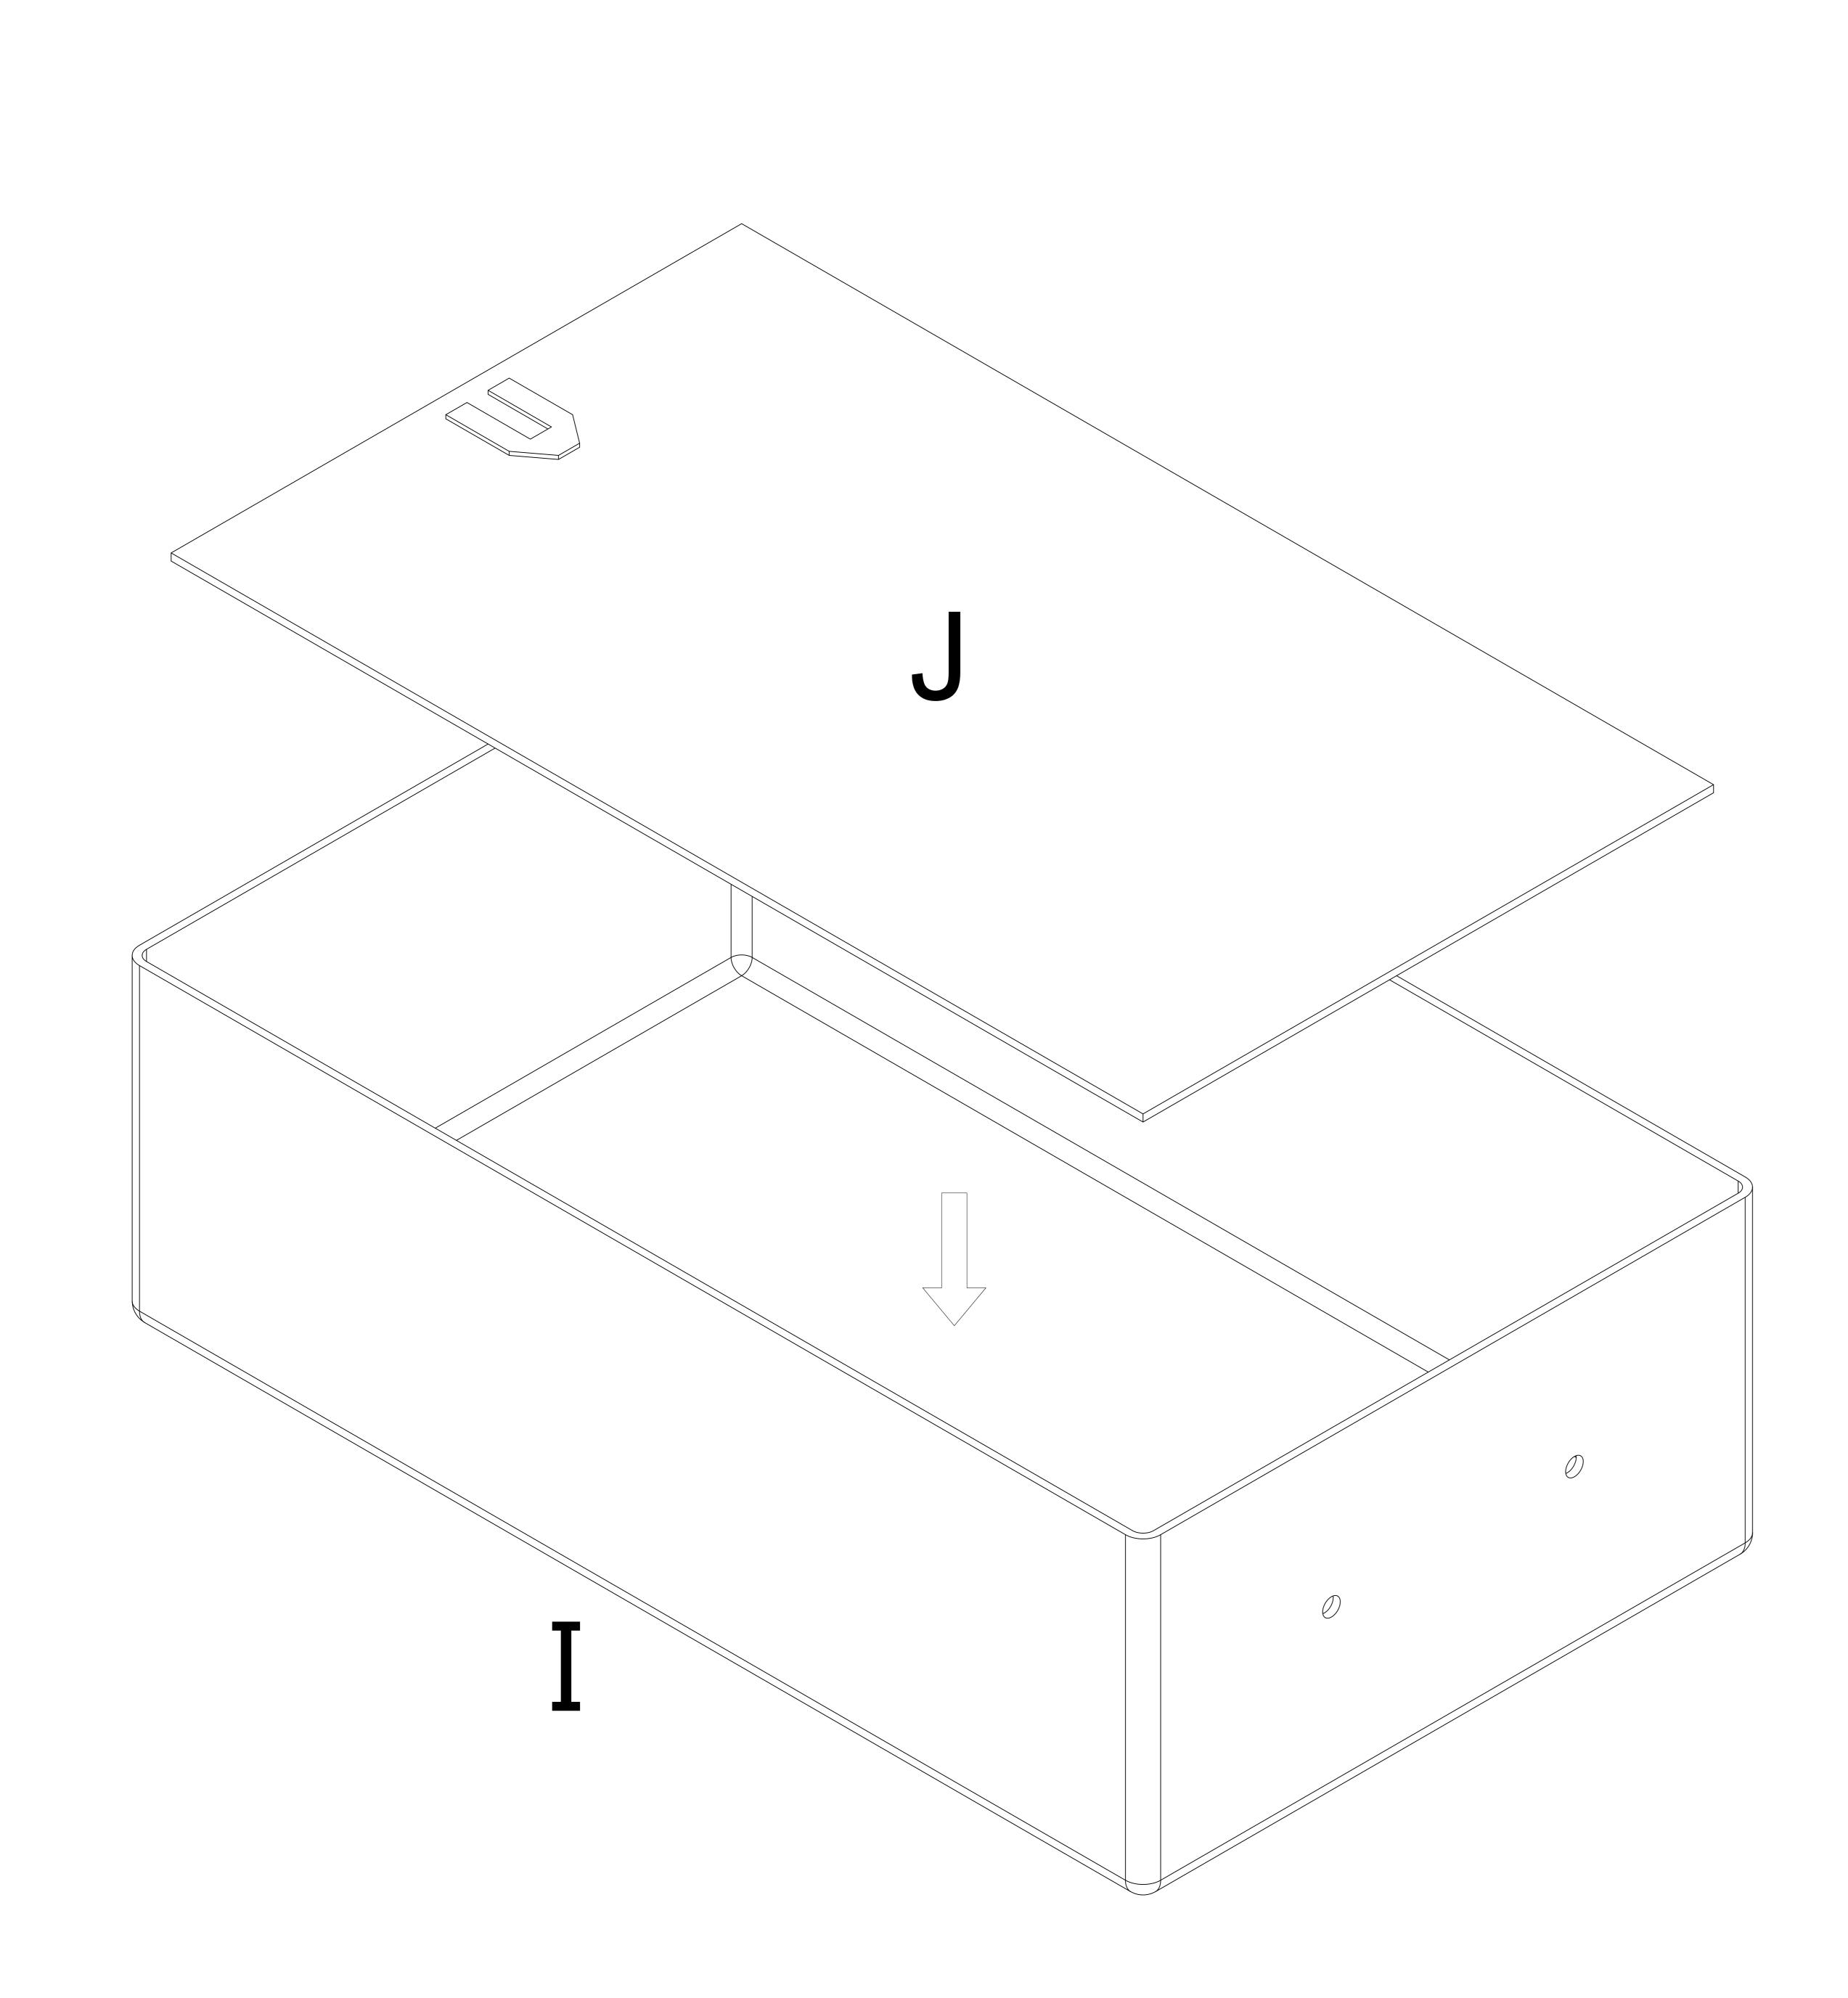

4. Place Wooden Board G between Components C and D, align the holes, and secure it with Screw ①.

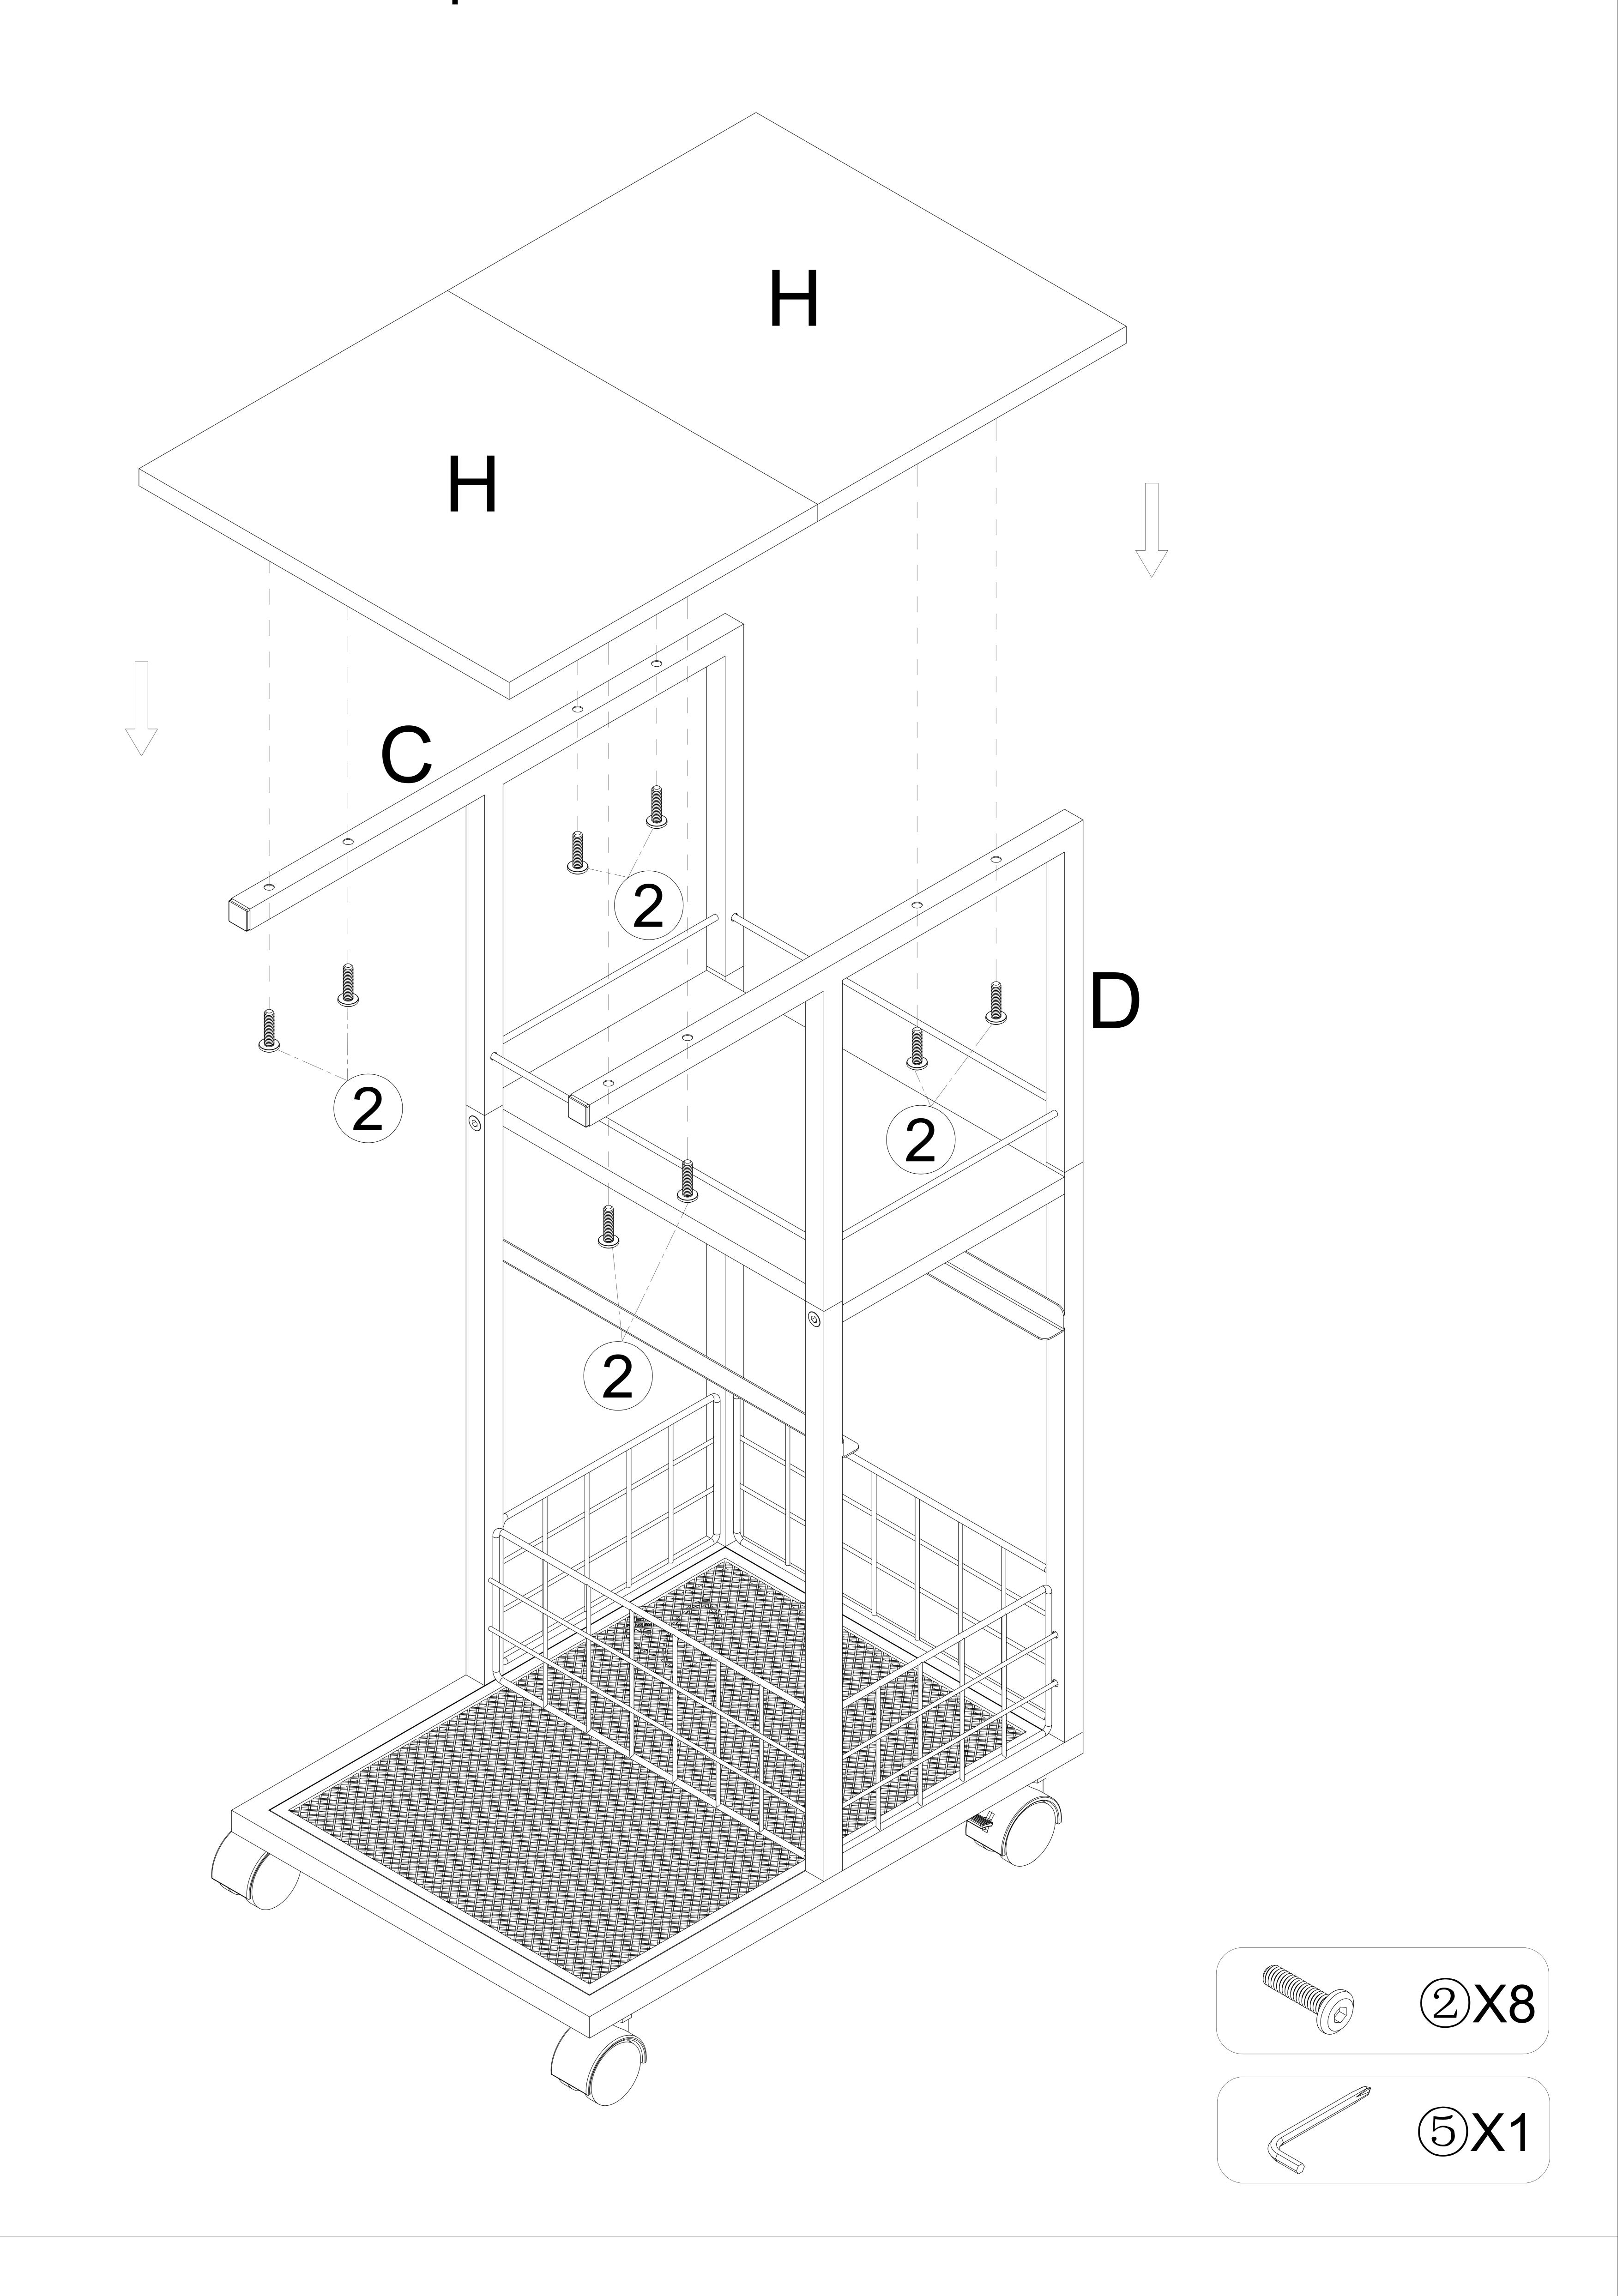

5. Use Wrench 4 to attach either Wheels K or Adjustable Feet L to the bottom of Component A. (Choose one option).

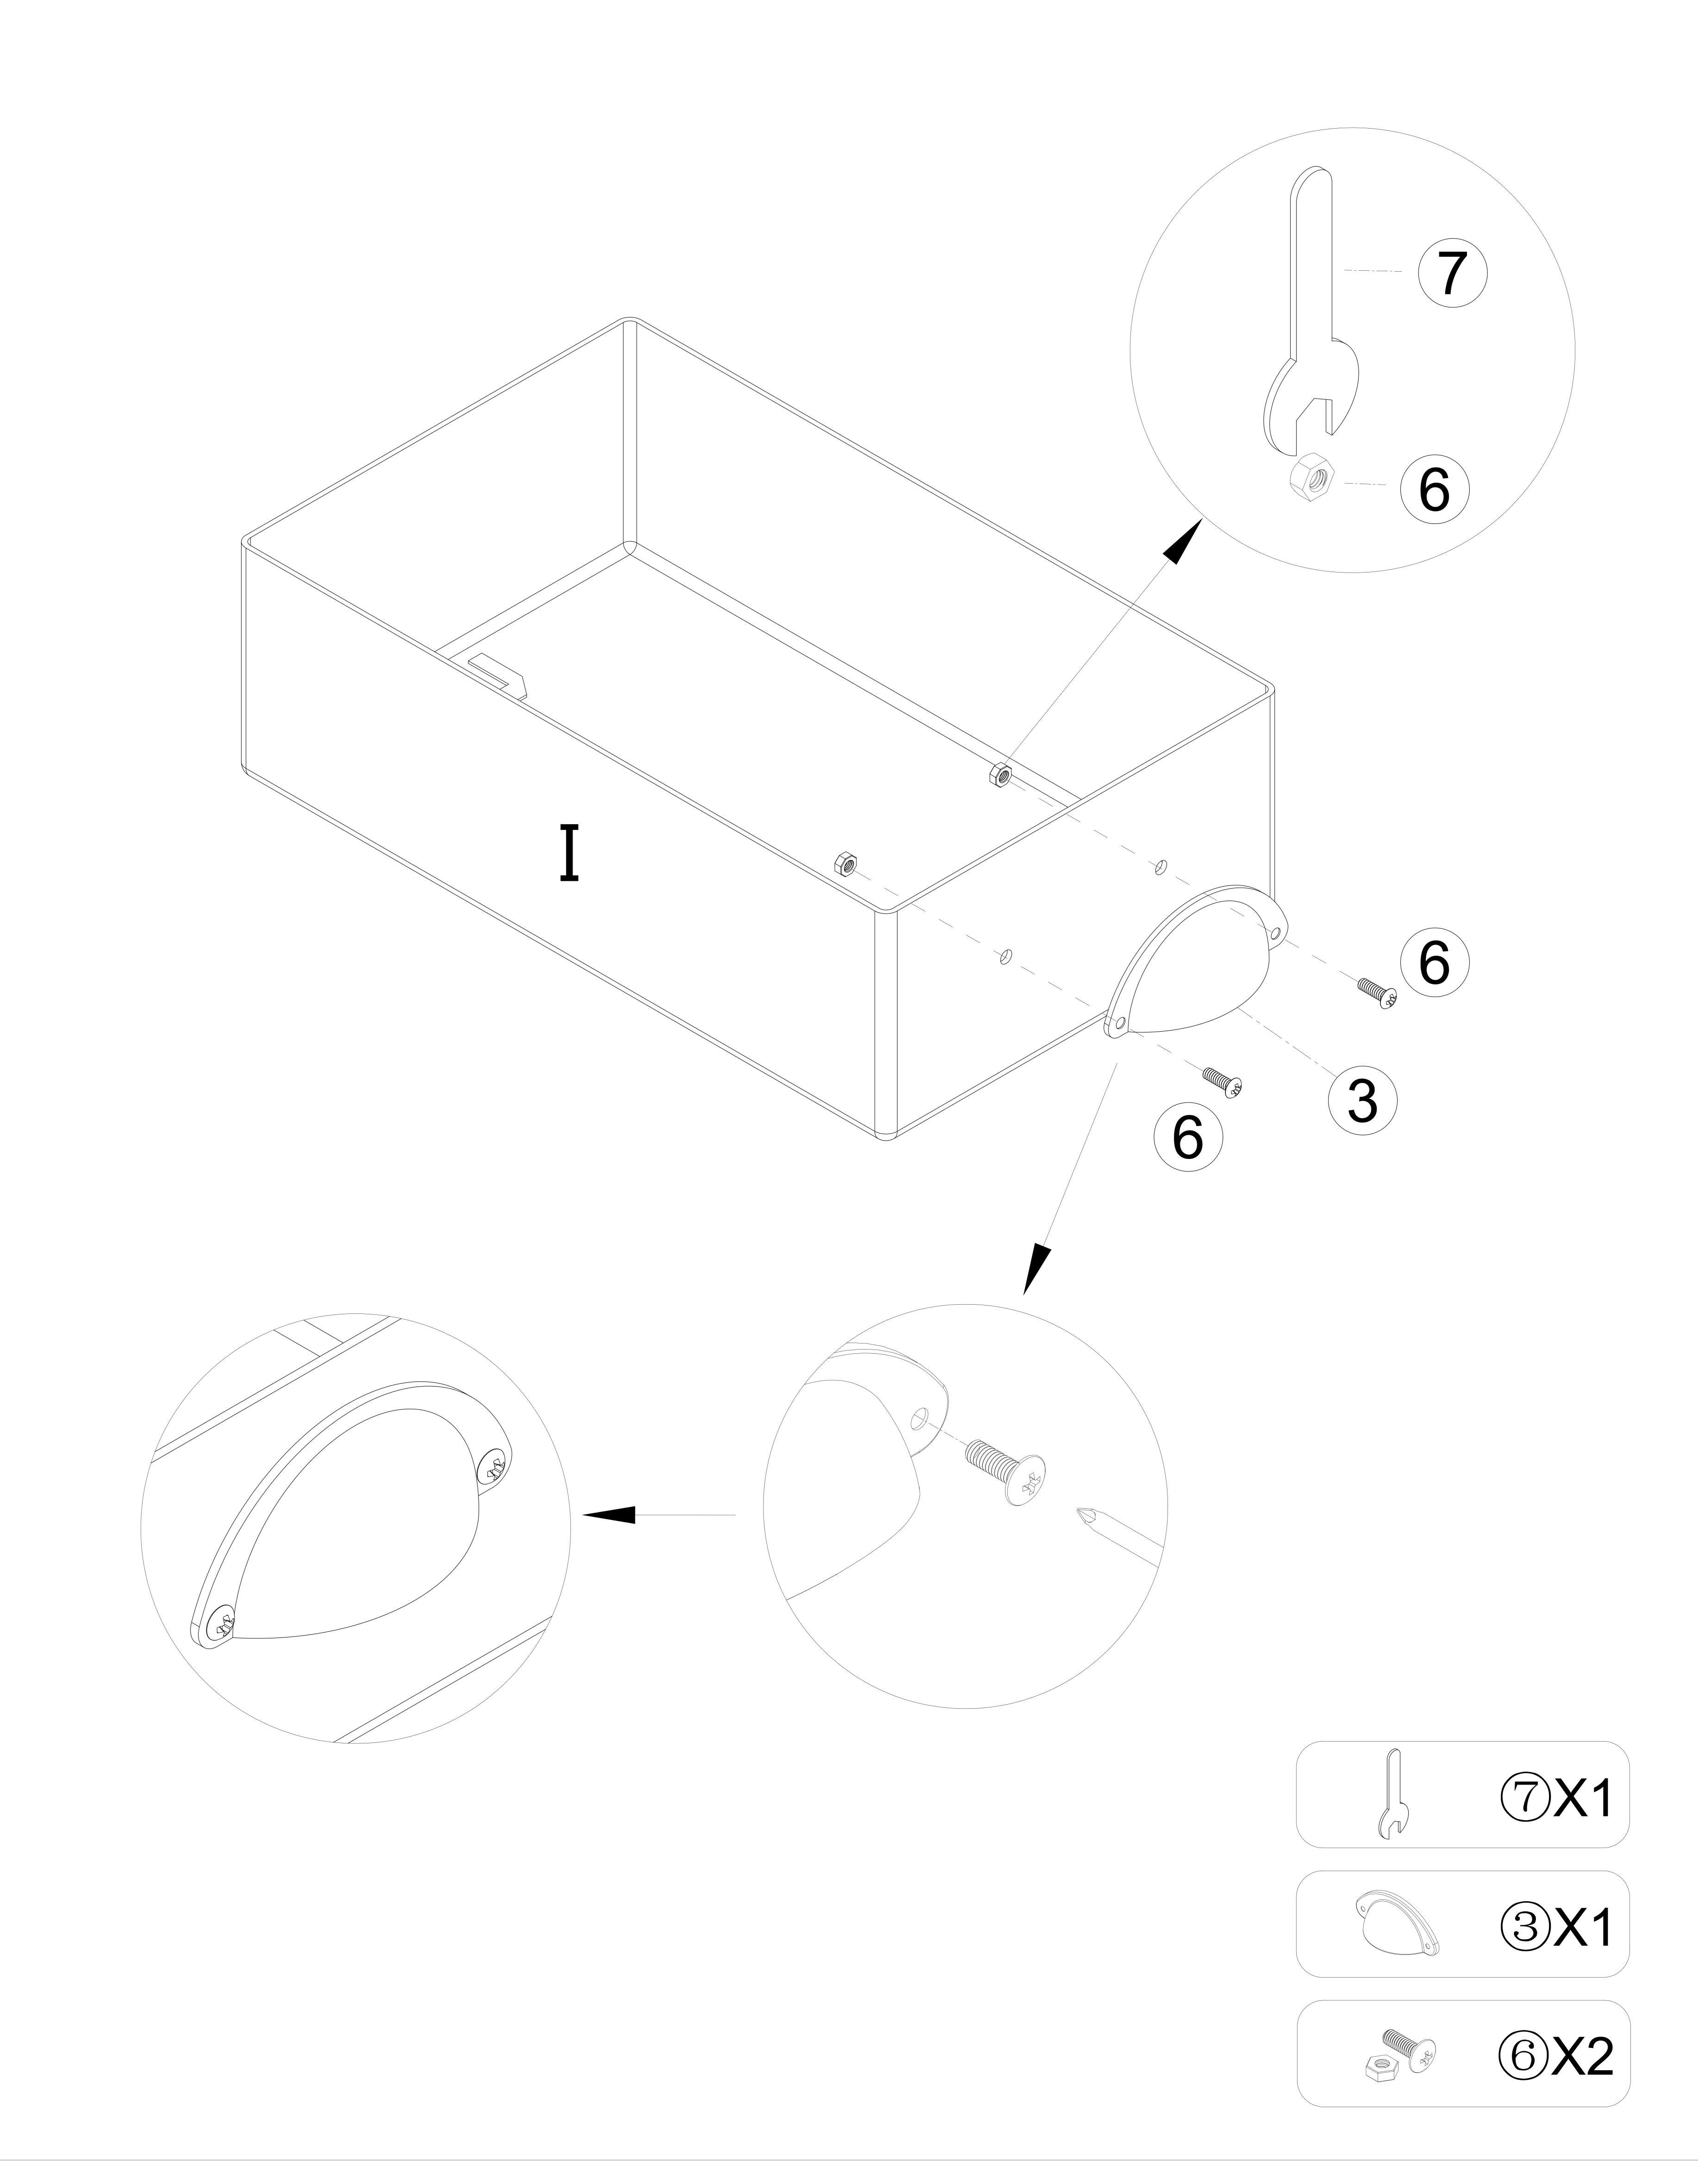

7. Place Support Board J into Drawer I.

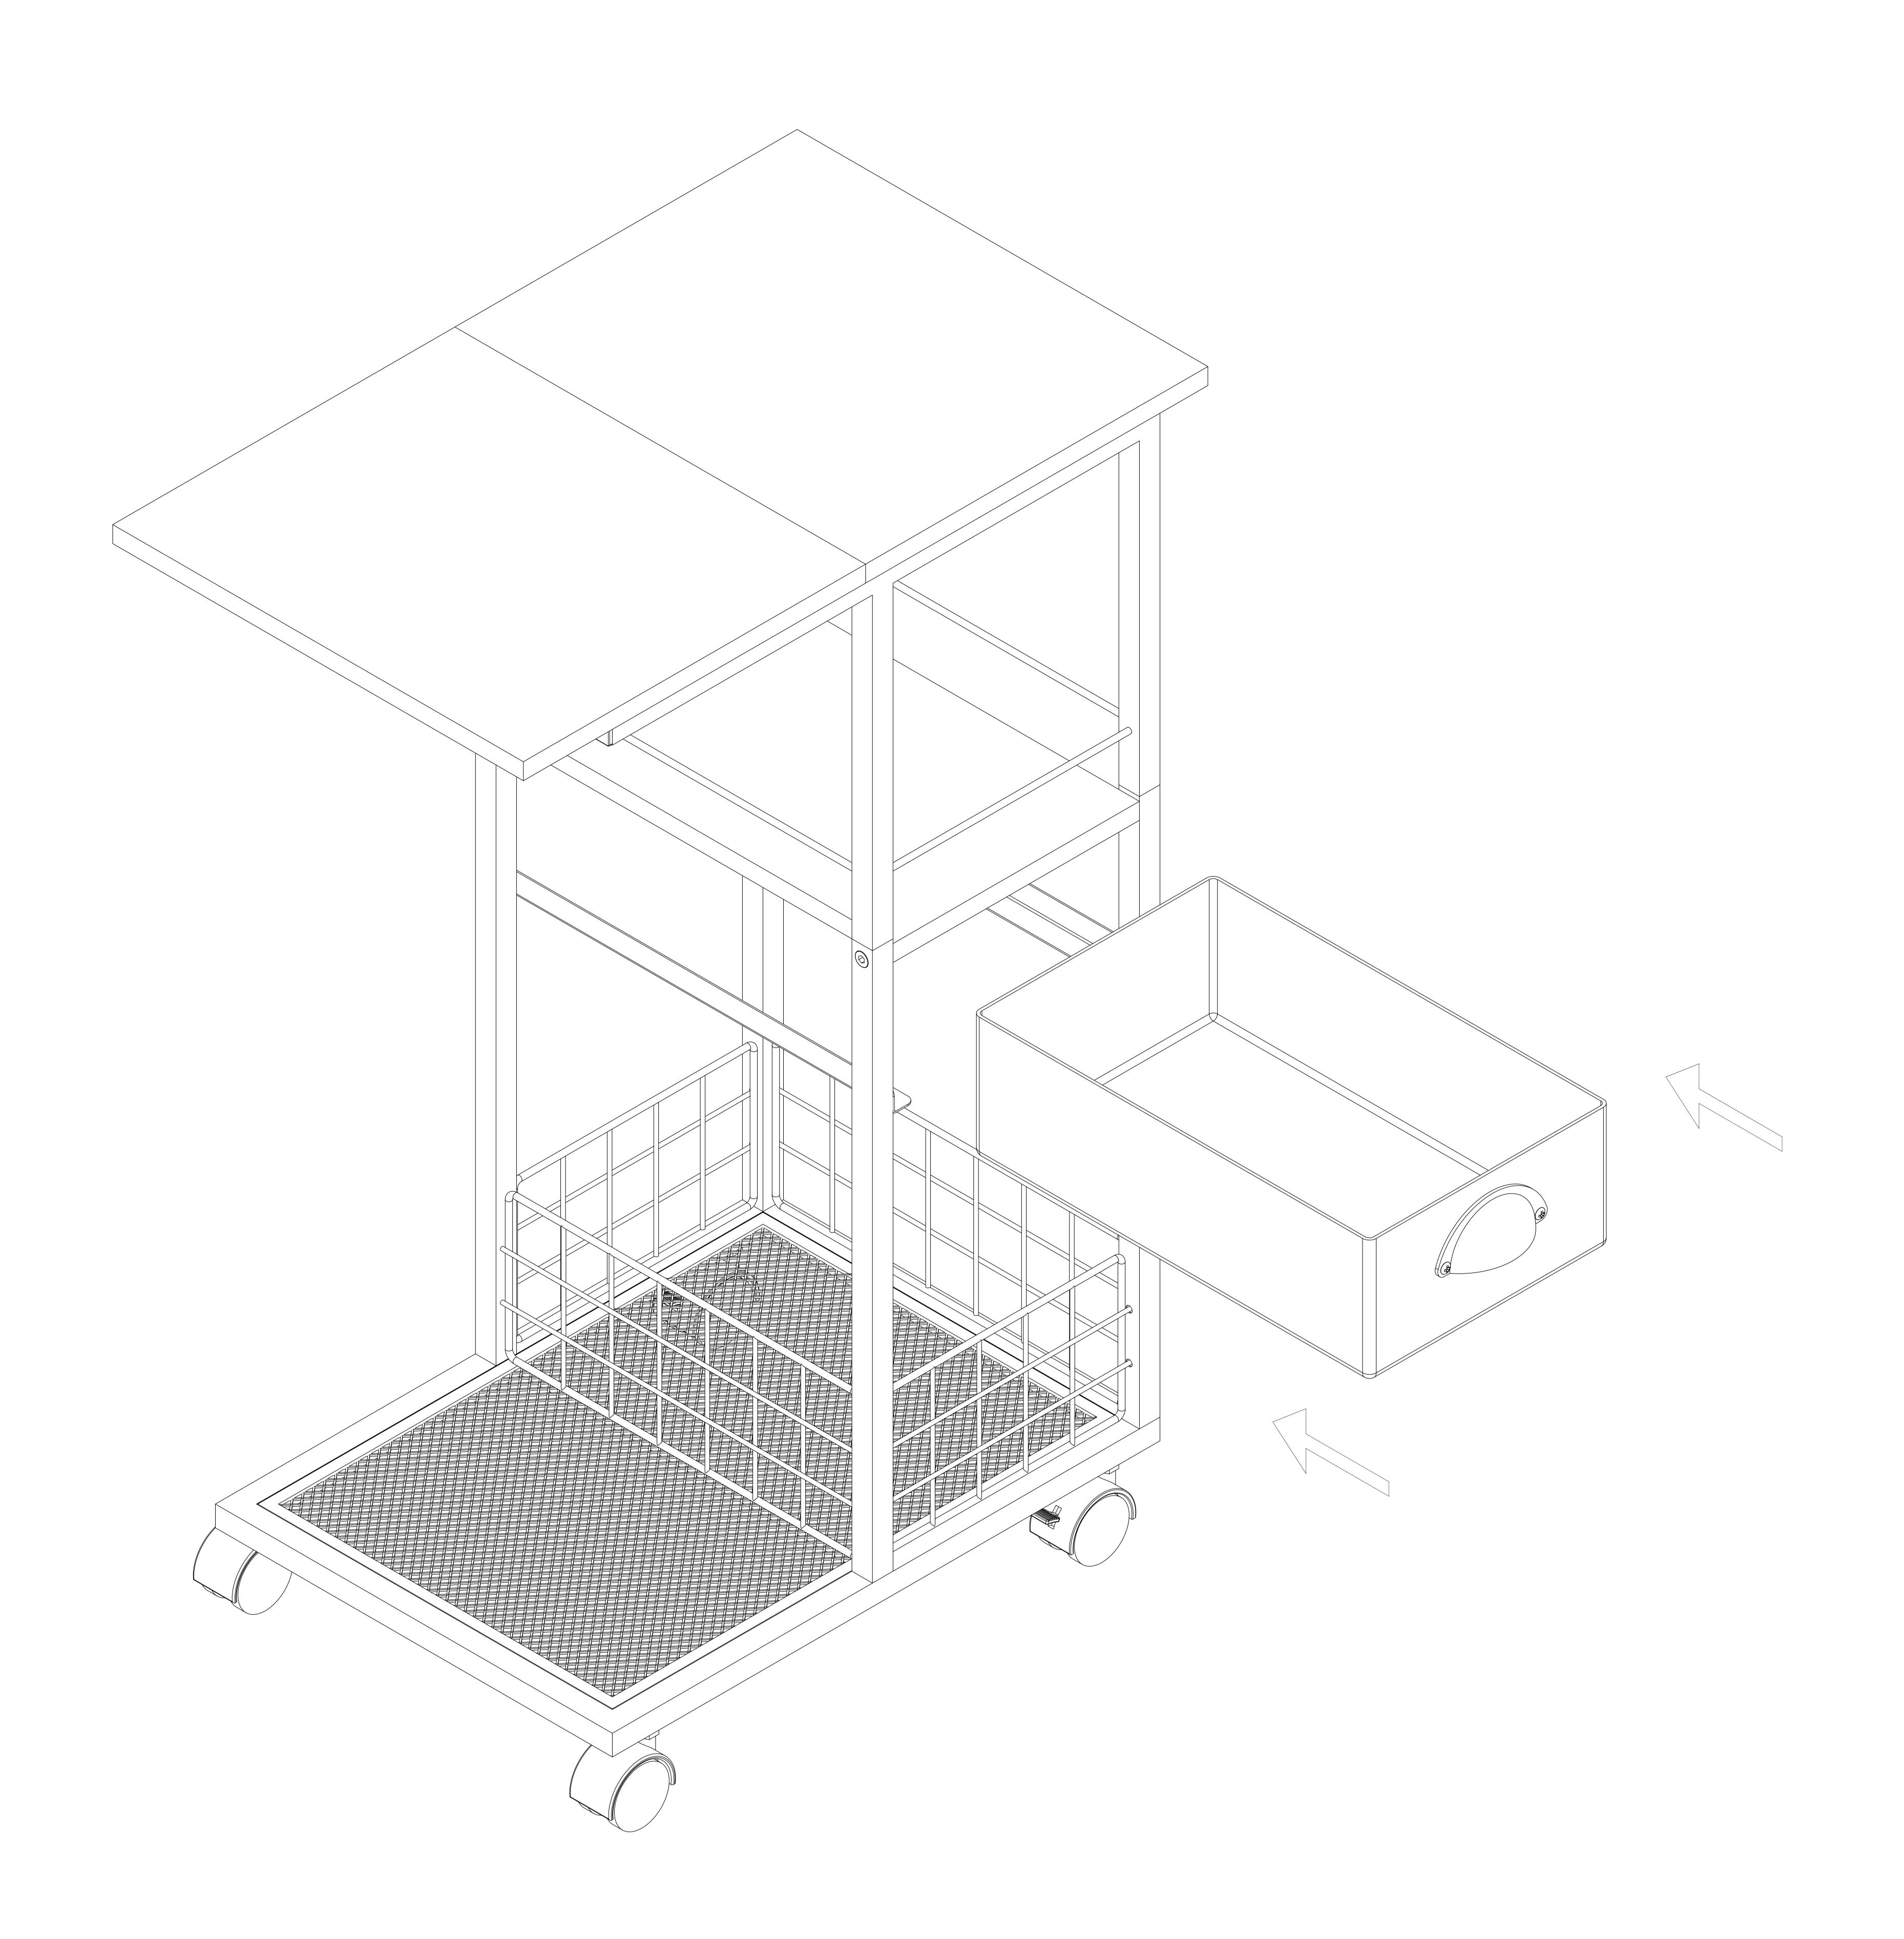

6. Use Screw ② to secure the two Wooden Boards H to the holes in Components C and D.

8. Align Handle ③ with the holes on Drawer I, and secure it with Screw ⑥. Use Wrench ⑦ to tighten the nuts.

9. Insert the drawer into the frame.

10. Assembly complete.
