Pairing the Remote

Make sure the remote control is matching the lamp: power plug in the lamp, use the remote to control the lamp. Normally the remote controls the lamp

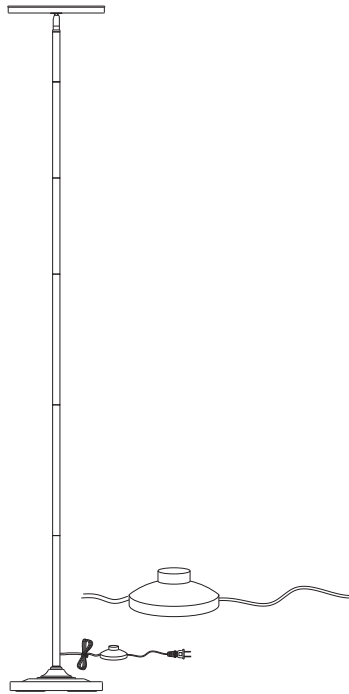

Matching procedure:

1. Make sure the foot switch is in the ON position, then unplug the floor lamp.
 2. Press and hold the power button on the remote control,
 3. Plug in the floor lamp and wait for the light to turn on. Keep on pressing the power button during this procedure.
 4. Release the power button if LED lights flashes, matching successfully.
- Please contact us via mail if it still doesn't work.

Usage:

There are two control methods – foot switch or remote control

The foot switch has only ON/OFF function

ON/OFF Button:

Short press to turn on/off

Long press the button, the bulb will flash to indicate that the one-hour timer has been successfully set. You can set the timer under any combination of color temperature and brightness. Once you changed the color temperature and brightness under 1H set model, it will be lifted and you need to set it again.

CCT(Color Temperature+/-):

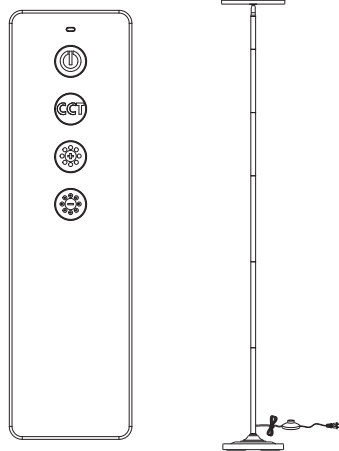

Long Press or short press to achieve color temperature adjustment, short press 3000K-3500K-4500K-5500K-6500K, long press endless adjustment.

Bright+:

Short/long press the buttons to stepped enhance the brightness as you like.

Bright-:

Short/long press the buttons to stepped lower the brightness as you like.

**Remote Control**

The remote distance is within 26.2ft. It is magnetic so that you can put it on whatever contains iron, such as the iron pipe, fridge and so on.
