

# How To Select Your Tablecloth Size

**Table Size ≠ Tablecloth Size**

## The Formula of Tablecloth

Tablecloth Length = Table Length + Pendulous Length x 2

Tablecloth Width = Table Width + Pendulous Length x 2

## How to Choose the Right-Size Tablecloth

Tablecloth Length = Table Length + 16"~24" (Pendulous Length \* 2)

Tablecloth Width = Table Width + 16"~24" (Pendulous Length \* 2)

each end drops approximately 8" ~ 12" (Pendulous Length)

### Tips:

- 1. Please measure your tabletop dimensions of length, width before purchasing the tablecloth;
- 2. Please allow 1-2 cm error due to manual measurement
- 3. Colors of pictures and objects may be off due to differences in the monitor

### Washing Tips:

- Hand washing can better maintain and lengthen the life of the tablecloth on account of cotton and linen texture.
- Also you can wash it with washing machine with gentle mode to avoid the strong throwing;
- Dryer drying or lay flat to dry;
- The cotton linen tablecloths can be easily ironed to make the table cloth more flat and compliant if necessary.
